#### PRELIMINARY LIMITED OFFERING MEMORANDUM DATED APRIL 25, 2025

#### NEW ISSUE - BOOK-ENTRY ONLY LIMITED OFFERING

#### NOT RATED

In the opinion of Greenberg Traurig, P.A., Bond Counsel, assuming the accuracy of certain representations and certifications and the continuing compliance with certain tax covenants, under existing statutes, regulations, rulings and court decisions, interest on the Series 2025 Bonds (as hereinafter defined) is excludable from gross income for federal income tax purposes; and, further, interest on the Series 2025 Bonds will not be an item of tax preference for purposes of the alternative minimum tax imposed on individuals. In the case of the alternative minimum tax imposed by Section 55(h)(2) of the Internal Revenue Code of 1986, as amended (the "Code") on applicable corporations (as defined in Section 59(k) of the Code), interest on the Series 2025 Bonds is not excluded from the determination of adjusted financial statement income. See "TAX MATTERS" herein for a description of certain other federal tax consequences of ownership of the Series 2025 Bonds. Bond Counsel is further of the opinion that the Series 2025 Bonds and the interest thereon are not subject to taxation under the laws of the State of Florida, except as to estate taxes and taxes under Chapter 220, Florida Statutes, on interest, income or profils on debt obligations owned by corporations as defined in said Chapter 220. See "TAX MATTERS" herein.

In the event DTC, any successor of DTC or the District, but only in accordance with the procedures of DTC, elects to discontinue the book-entry only system, the Trustee shall deliver bond certificates in accordance with the instructions from DTC or its successor and after such time, Bonds of the Series 2025 Bonds may be exchanged for an equal aggregate principal amount of the Series 2025 Bonds in other Authorized Denominations upon surrender thereof at the designated corporate trust office of the Trustee. See "DESCRIPTION OF THE SERIES 2025 BONDS – Book-Entry Only System" below.

The Series 2025 Bonds will initially be sold only to "accredited investors" within the meaning under Chapter 517, Florida Statutes, as amended, and the rules of the Florida Department of Financial Services promulgated thereunder, although there is no limitation on resales of the Series 2025 Bonds. See "SUITABILITY FOR INVESTMENT" below.

U.S. Bank Trust Company, National Association is initially serving as the Trustee, Registrar and Paying Agent for the Series 2025 Bonds.

(iii) from any funds remaining on deposit in the Series 2025 Acquisition and Construction Account not otherwise reserved to complete the Capital Improvement Plan (including any amounts transferred from the Series 2025 Reserve Account), including all or a portion of the moneys in the Series 2025 TIF Subaccount in the amount so directed in writing by the District to be used for such purpose, all of which have been transferred to the Series 2025 General Redemption Subaccount of the Series 2025 Bond Redemption Account.

#### Notice of Redemption and of Purchase

When required to redeem or purchase (as described below) Series 2025 Bonds under any provision of the Indenture or directed to do so by the District, the Trustee shall cause notice of the redemption, either in whole or in part, to be mailed at least thirty (30) but not more than sixty (60) days prior to the redemption or purchase date to all Owners of Series 2025 Bonds to be redeemed or purchased (as such Owners appear on the Bond Register on the fifth (5<sup>th</sup>) day prior to such mailing), at their registered addresses, but failure to mail any such notice or defect in the notice or in the mailing thereof shall not affect the validity of the redemption or purchase of the Series 2025 Bonds for which notice was duly mailed in accordance with the Master Indenture.

If at the time of mailing of notice of redemption or purchase (as described below), the District shall not have deposited with the Trustee or Paying Agent moneys sufficient to redeem or purchase all the Series 2025 Bonds called for redemption or purchase, such notice shall state that it is subject to the deposit of the redemption or purchase moneys with the Trustee or Paying Agent, as the case may be, not later than the opening of business on the redemption or purchase date, and such notice shall be of no effect unless such moneys are so deposited. If the amount of funds deposited with the Trustee for such redemption, or otherwise available, is insufficient to pay the Redemption Price and accrued interest on the Series 2025 Bonds so called for redemption on the redemption date, the Trustee shall redeem and pay on such date an amount of the Series 2025 Bonds for which funds are sufficient, selecting the Series 2025 Bonds to be redeemed randomly from among all Series 2025 Bonds called for redemption on such date, and among different maturities of Series 2025 Bonds in the same manner as the initial selection of Series 2025 Bonds to be redeemed, and from and after such redemption date, interest on such Series 2025 Bonds or portions thereof so paid shall cease to accrue and become payable; but interest on any Series 2025 Bonds or portions thereof not so paid shall continue to accrue until paid at the same rate as it would have had such Series 2025 Bonds not been called for redemption. #### **Book-Entry Only System**

The information in this caption concerning DTC and DTC's book-entry system has been obtained from DTC and neither the District nor the Underwriter make any representation or warranty or take any responsibility for the accuracy or completeness of such information.

The Depository Trust Company ("DTC") will act as securities depository for the Series 2025 Bonds. The Series 2025 Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Series 2025 Bond certificate will be issued for each maturity of the Series 2025 Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of Series 2025 Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Series 2025 Bonds on DTC's records. The ownership interest of each actual purchaser of the Series 2025 Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Series 2025 Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates

representing their ownership interests in the Series 2025 Bonds, except in the event that use of the bookentry system for the Series 2025 Bonds is discontinued.

To facilitate subsequent transfers, all Series 2025 Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of the Series 2025 Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Series 2025 Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Series 2025 Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Series 2025 Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Series 2025 Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Series 2025 Bond documents. For example, Beneficial Owners of Series 2025 Bonds may wish to ascertain that the nominee holding the Series 2025 Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Series 2025 Bonds are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such Series 2025 Bonds to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to the Series 2025 Bonds unless authorized by a Direct Participant in accordance with DTC's MMI procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the District as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Series 2025 Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, distributions<sup>\*</sup>, and interest payments on the Series 2025 Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the District or the Paying Agent on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC nor its nominee, the Trustee, or the District, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions<sup>\*</sup>, and interest payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the District and/or the Paying Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

<sup>\*</sup> Not applicable to the Series 2025 Bonds.

DTC may discontinue providing its services as depository with respect to the Series 2025 Bonds at any time by giving reasonable notice to the District or the Trustee. Under such circumstances, in the event that a successor depository is not obtained, Series 2025 Bond certificates are required to be printed and delivered.

The District may decide to discontinue use of the system of book-entry only transfers through DTC (or a successor securities depository). In that event, Series 2025 Bond certificates will be printed and delivered to DTC.

#### **SECURITY FOR AND SOURCE OF PAYMENT OF THE SERIES 2025 BONDS**

#### General

THE SERIES 2025 BONDS ARE LIMITED OBLIGATIONS OF THE DISTRICT PAYABLE SOLELY FROM THE SERIES 2025 PLEDGED REVENUES PLEDGED THEREFOR UNDER THE INDENTURE, AND NEITHER THE PROPERTY, THE FULL FAITH AND CREDIT, NOR THE TAXING POWER OF THE DISTRICT, THE CITY, THE COUNTY, THE STATE OF FLORIDA (THE "STATE"), OR ANY OTHER POLITICAL SUBDIVISION THEREOF, IS PLEDGED AS SECURITY FOR THE PAYMENT OF THE SERIES 2025 BONDS, EXCEPT THAT THE DISTRICT IS OBLIGATED UNDER THE INDENTURE TO LEVY AND TO EVIDENCE AND CERTIFY, OR CAUSE TO BE CERTIFIED, FOR COLLECTION, THE SERIES 2025 SPECIAL ASSESSMENTS TO SECURE AND PAY THE SERIES 2025 BONDS. THE SERIES 2025 BONDS DO NOT CONSTITUTE AN INDEBTEDNESS OF THE DISTRICT, THE CITY, THE COUNTY, THE STATE, OR ANY OTHER POLITICAL SUBDIVISION THEREOF WITHIN THE MEANING OF ANY CONSTITUTIONAL OR STATUTORY PROVISION OR LIMITATION.

IN ADDITION, THE SERIES 2025 BONDS OF THIS ISSUE DO NOT CONSTITUTE A DEBT OR OBLIGATION OF THE COMMUNITY REDEVELOPMENT AGENCY OF THE CITY OF TAMPA, FLORIDA (THE "AGENCY"), THE CITY, THE STATE OR ANY OTHER GOVERNMENTAL OR TAXING ENTITY OTHER THAN THE GAS WORX COMMUNITY DEVELOPMENT DISTRICT. THE ONLY OBLIGATION OF THE AGENCY IS TO REIMBURSE THE DISTRICT FOR CERTAIN COMPLETED PUBLIC INFRASTRUCTURE IMPROVEMENTS PURSUANT TO AND SUBJECT TO THE CONDITIONS AND LIMITATIONS CONTAINED IN THAT CERTAIN INTERLOCAL AGREEMENT ENTERED INTO BY THE DISTRICT, THE CITY, AND THE AGENCY DATED APRIL 2, 2025. NO TAX INCREMENT REVENUES ARE PLEDGED TO REPAY ANY BONDS ISSUED FOR THE CONSTRUCTION OF SAID PUBLIC INFRASTRUCTURE IMPROVEMENTS.

The Series 2025 Bonds will be secured by a pledge of the Series 2025 Pledged Revenues. "Series 2025 Pledged Revenues" shall mean (a) all revenues received by the District from the Series 2025 Special Assessments (as defined herein) levied and collected on the Assessable Lands within the District, including, without limitation, amounts received from any foreclosure proceeding for the enforcement of collection of such Series 2025 Special Assessments or from the issuance and sale of tax certificates with respect to such Series 2025 Special Assessments, and (b) all moneys on deposit in the Funds, Accounts and subaccounts established under the First Supplemental Indenture created and established with respect to or for the benefit of the Series 2025 Bonds; provided, however, that Series 2025 Pledged Revenues shall not include (A) any moneys transferred to the Series 2025 Rebate Fund established under the First Supplemental Indenture within the Acquisition and Construction Fund; and (C) "special assessments" levied and collected by the District under Section 190.022(1) of the Act for maintenance purposes or "maintenance special assessments" levied and collected by the District under Section 190.021(3) of the Act (it being expressly understood that the lien and pledge of the First

Supplemental Indenture shall not apply to any of the moneys described in the foregoing clauses (A), (B) and (C) of this proviso). The TIF Revenues received by the District and deposited into the Series 2025 TIF Subaccount in accordance with the First Supplemental Indenture shall not be deemed Series 2025 Pledged Revenues. However, such TIF Revenues may be used as provided in the First Supplemental Indenture at the option of the District or the Trustee in accordance with the First Supplemental Indenture.

"Series 2025 Special Assessments" shall mean the Special Assessments levied on the Assessable Lands within the District as a result of the District's acquisition and/or construction of the Capital Improvement Plan, corresponding in amount to the debt service on the Series 2025 Bonds and designated as such in the Assessment Methodology (as defined below).

The Series 2025 Special Assessments are non-ad valorem special assessments imposed and levied by the District pursuant to Section 190.022 of the Act and the Assessment Resolutions (as defined in the Indenture) and assessment proceedings conducted by the District (together with the Assessment Resolutions, the "Assessment Proceedings"). Non-ad valorem assessments are not based on millage and are not taxes, but are a lien against the homestead as permitted in Section 4, Article X of the Florida State Constitution. The Series 2025 Special Assessments will constitute separate liens against the land as to which the Series 2025 Special Assessment Methodology, which describes the methodology for allocating the Series 2025 Special Assessments to the District Lands, is included as APPENDIX D attached hereto.

In the Master Indenture, the District covenants that, if any Special Assessment, including the Series 2025 Special Assessments, shall be either in whole or in part annulled, vacated or set aside by the judgment of any court, or if the District shall be satisfied that any such Special Assessment is so irregular or defective that the same cannot be enforced or collected, or if the District shall have omitted to make such Special Assessment when it might have done so, the District shall either (i) take all necessary steps to cause a new Special Assessment to be made for the whole or any part of said improvement or against any property benefited by said improvement, or (ii) in its sole discretion, make up the amount of such Special Assessment from any legally available moneys, which moneys shall be deposited into the Series 2025 Revenue Account in the Revenue Fund. In case such second Special Assessment shall be annulled, the District shall obtain and make other Special Assessments until a valid Special Assessment shall be made.

#### **Prepayment of Series 2025 Special Assessments**

Pursuant to the Assessment Proceedings, an owner of property subject to the Series 2025 Special Assessments may pay the principal balance of such Special Assessment on lands it owns, in whole or in part at any time, if there is also paid an amount equal to the interest that would otherwise be due on such prepaid amount on the next Quarterly Redemption Date for the Series 2025 Bonds which is at least 45 days after the date of the payment.

Pursuant to the Act, an owner of property subject to the levy of Series 2025 Special Assessments may pay the entire balance of the Series 2025 Special Assessments remaining due, without interest, within 30 days after the Capital Improvement Plan has been completed or acquired by the District, and the Board has adopted a resolution accepting the Capital Improvement Plan pursuant to Chapter 170.09, Florida Statutes. The Landowners will covenant to waive this right on behalf of themselves and their respective successors and assigns in connection with the issuance of the Series 2025 Bonds. See "BONDOWNERS' RISKS – Prepayment and Redemption Risk" herein.

The Series 2025 Bonds are subject to extraordinary redemption as indicated under "DESCRIPTION OF THE SERIES 2025 BONDS - Redemption Provisions - Extraordinary Mandatory Redemption" from optional or required prepayments of the Series 2025 Special Assessments by property owners.

#### **Covenant Against Sale or Encumbrance**

In the Indenture, the District covenants that (a) except for those improvements comprising the Capital Improvement Plan that is to be conveyed by the District to the City, the State Department of Transportation or another governmental entity and (b) except as otherwise permitted in the Master Indenture, it will not sell, lease or otherwise dispose of or encumber the Capital Improvement Plan or any part thereof. See "APPENDIX A: PROPOSED FORMS OF MASTER INDENTURE AND FIRST SUPPLEMENTAL INDENTURE" attached hereto for more information.

#### **Additional Bonds**

The District will covenant in the First Supplemental Indenture not to issue any other Bonds or other debt obligations secured by the Series 2025 Special Assessments. Such covenant shall not prohibit the District from issuing refunding bonds, provided such refunding results in net present value debt service savings. In addition, but subject to the exceptions set forth below, the District will covenant not to issue any other Bonds or debt obligations secured by any other Special Assessments on Assessable Lands within the District that are subject to the Series 2025 Special Assessments. Notwithstanding the foregoing, the District may impose Special Assessments secured by other Bonds or debt obligations for capital projects on lands subject to the Series 2025 Special Assessments without the written consent of the Majority Holders in order to finance the Capital Improvement Plan not otherwise financed with the net proceeds of the Series 2025 Bonds (the "Additional Project") if either (a) the initial aggregate principal amount of such proposed Bonds or other debt obligations to be issued in one or more Series (the "Additional Bonds"), together with the outstanding principal amount of Series 2025 Bonds do not in the aggregate exceed \$75,000,000, or (b) in in excess of \$75,000,000 in the aggregate, the District shall be required, at its expense, to obtain an asimproved appraisal prepared by an MAI-certified appraiser showing that, upon completion of the Additional Project to be financed with the available proceeds of the Additional Bonds, the Gross Retail Value (as such term is defined herein) of the Assessable Lands with no vertical improvements that will be subject to the lien of such Special Assessments in addition to the Series 2025 Special Assessments will equal or exceed two times the outstanding principal amount of all Additional Bonds secured by such Special Assessments and the Series 2025 Bonds secured by the Series 2025 Special Assessments. Notwithstanding the foregoing, the District shall be precluded from the imposition of Special Assessments or other non-ad valorem assessments (other than non-ad valorem assessments levied pursuant to Section 190.021(3) of the Act) on Parcel E1, Parcel E2 and Parcel E3 in connection with the issuance of Additional Bonds to finance the Additional Project without the written consent of the 123 Landowners. Notwithstanding any other of the foregoing, the District shall not be precluded from the imposition of Special Assessments or other nonad valorem assessments on such lands in connection with other capital projects that are necessary for health, safety or welfare reasons or to remediate a natural disaster. Notwithstanding any provision in the Indenture to the contrary, the District may issue other Bonds or debt obligations secured by Special Assessments levied on the Assessable Lands within the District, other than the Series 2025 Special Assessments and, if applicable, the Special Assessments that secure the Additional Bonds, at any time upon the written consent of the Majority Holders or at any time without any consent if such Special Assessments are levied on any Assessable Lands within the District which are not subject to the Series 2025 Special Assessments and, if applicable, the Special Assessments that will secure the Additional Bonds.

The District and/or other public entities may impose taxes or other special assessments on the same properties encumbered by the Series 2025 Special Assessments without the consent of the Owners of the Series 2025 Bonds. The District expects to impose certain non-ad valorem special assessments called maintenance assessments, which are of equal dignity with the Series 2025 Special Assessments, on the same lands upon which the Series 2025 Special Assessments are imposed, to fund the maintenance and operation of the District. See "THE DEVELOPMENT – Taxes, Fees and Assessments" and "BONDOWNERS' RISKS" herein for more information.

#### Series 2025 Acquisition and Construction Account

The First Supplemental Indenture establishes a separate account within the Acquisition and Construction Fund designated therein as the "Series 2025 Acquisition and Construction Account" (referred to herein as the "Series 2025 Acquisition and Construction Account") and a separate subaccount therein designated as the "Series 2025 TIF Subaccount". Net proceeds of the Series 2025 Bonds shall be deposited into the Series 2025 Acquisition and Construction Account in the amount set forth in the First Supplemental Indenture, together with any other moneys that may be transferred to the Series 2025 Acquisition and Construction Account as provided for in the First Supplemental Indenture. Such moneys in the Series 2025 Acquisition and Construction Account shall be applied by the District as set forth in the Indenture and the Acquisition Agreement and the Interlocal Agreement (as defined under the heading "THE DEVELOPMENT - The CRA and the CRA Lands" herein). Any TIF Revenues received by the District from the Gas Worx CRAs or the City CRA pursuant to the term and provisions of the TIF Agreements may be transferred to the Trustee for deposit in the Series 2025 TIF Subaccount. Moneys in the Series 2025 TIF Subaccount shall be disbursed as provided in the next succeeding paragraph. "TIF Revenues" shall mean the tax increment revenues that shall be payable to the District pursuant to the TIF Agreements (as defined herein) in the form of reimbursements of capital expenditures (constituting portions of the Capital Improvement Plan) made by the District with a portion of the net proceeds of the Series 2025 Bonds within the respective Gas Worx CRAs. "TIF Agreements" is defined in the First Supplemental Indenture to mean the Interlocal Agreement, the Infrastructure Improvements Agreement and the Community Benefits Agreement. "Interlocal Agreement" shall mean that certain Interlocal Agreement (Gas Worx) dated April 2, 2025, and executed by and among the Issuer, the City and the City CRA. "Infrastructure Improvements Agreement" shall mean that certain Infrastructure Improvements Agreement dated January 26, 2025, and executed by and among the District, the City, and the Master Developer. "Community Benefits Agreement" shall mean that certain Community Benefits Agreement and executed by the City, the Master Developer and the Issuer dated April 23, 2025.

Subject to the provisions of the First Supplemental Indenture, any moneys remaining in the Series 2025 Acquisition and Construction Account after the Completion Date, and after the expenditure of all moneys remaining therein that have not been requisitioned after satisfaction of the Release Conditions (as defined herein), notice of the same given to the Trustee by the District Manager, except for any moneys reserved therein for the payment of any costs of the Capital Improvement Plan owed but not yet requisitioned, as evidenced in a certificate from the District Manager to the Trustee, upon which the Trustee may conclusively rely, and the adoption of a resolution by the District accepting the Capital Improvement Plan, a copy of which shall be delivered to the Trustee, upon which the Trustee may conclusively rely, shall be transferred by the Trustee to the Series 2025 General Redemption Subaccount of the Series 2025 Bond Redemption Account. Subject to the provisions of the First Supplemental Indenture, the Series 2025 Acquisition and Construction Account shall be closed upon the expenditure or transfer of all funds therein including moneys deposited therein as a result of satisfaction of the Release Conditions. Upon presentment by the District Manager or the District to the Trustee of a properly signed requisition in substantially the form attached to the First Supplemental Indenture, the Trustee shall withdraw moneys from the Series 2025 Acquisition and Construction Account and make payment to the Person or Persons so designated in such requisition.

In the first instance, any TIF Revenues, including investment earnings on deposit in the Series 2025 TIF Subaccount, may be requisitioned by the Issuer for paying Costs of the Capital Improvement Plan not otherwise funded with the moneys on deposit in the Series 2025 Acquisition and Construction Account, including moneys transferred therein from the Series 2025 Reserve Account upon satisfaction of the Release Conditions. A properly signed requisition in the form attached to the First Supplemental Indenture as Exhibit C shall be used by the District to requisition funds from the Series 2025 TIF Subaccount. Upon the Completion Date, the District may either (i) provide written direction to the Trustee to transfer all or a

portion of the remaining moneys on deposit in the Series 2025 TIF Subaccount to the Series 2025 Revenue Account, or (ii) request all or a portion of the remaining moneys on deposit in the Series 2025 TIF Subaccount be transferred to the District to be used to pay operating and maintenance expenses of the District. In addition to the foregoing, the Trustee is authorized to transfer moneys on deposit in the Series 2025 TIF Subaccount as so directed in writing by the District to the Series 2025 General Redemption Subaccount of the Series 2025 Bond Redemption Account pursuant to the First Supplemental Indenture. Such TIF Revenues may also be applied by the Trustee in accordance with the First Supplemental indenture. The Trustee may conclusively rely on any written direction of the District with respect to the payment and application of the moneys on deposit in the Series 2025 TIF Subaccount without any inquiry as to the use of such TIF Revenues and whether such TIF Revenues are being applied by the District in accordance with the TIF Agreements.

In accordance with the provisions of the Indenture, the Series 2025 Bonds are payable solely from the Series 2025 Pledged Revenues. Anything in the Indenture to the contrary notwithstanding, the District acknowledges in the First Supplemental Indenture that the Series 2025 Pledged Revenues include, without limitation, all amounts on deposit in the Series 2025 Acquisition and Construction Account of the Acquisition and Construction Fund then held by the Trustee (but not any moneys held in the Series 2025 TIF Subaccount unless any moneys therein have been deposited into the Series 2025 Revenue Account pursuant to the First Supplemental Indenture), and upon the occurrence of an Event of Default with respect to the Series 2025 Bonds, (i) the Series 2025 Pledged Revenues may not be used by the District (whether to pay costs of the Capital Improvement Plan or otherwise) without the consent of the Majority Holders except to the extent that prior to the occurrence of the Event of Default the District had incurred a binding obligation with third parties for work on the Capital Improvement Plan and payment is for such work, (ii) the Series 2025 Pledged Revenues may be used by the Trustee, at the direction or with the approval of the Majority Holders, to pay the reasonable costs and expenses incurred in connection with the pursuit of remedies under the Indenture, and (iii) notwithstanding anything herein to the contrary, any non-committed TIF Revenues on deposit in the Series 2025 TIF Subaccount may be used by the Trustee, without the consent of the District, to pay debt service on the Series 2025 Bonds. Prior to any action by the Trustee under the relevant provisions of the Indenture, the Majority Holders shall provide the Trustee an indemnification regarding any actions so directed. See "APPENDIX A: PROPOSED FORMS OF MASTER INDENTURE AND FIRST SUPPLEMENTAL INDENTURE" attached hereto for more information.

#### Series 2025 Reserve Account

The First Supplemental Indenture establishes a "Series 2025 Reserve Account" within the Debt Service Reserve Fund for the Series 2025 Bonds (referred to herein as the "Series 2025 Reserve Account"). The Series 2025 Reserve Account will, at the time of delivery of the Series 2025 Bonds, be funded from a portion of the net proceeds of the Series 2025 Bonds in the amount of the initial Series 2025 Reserve Requirement. The "Series 2025 Reserve Requirement" shall mean an amount initially equal to the maximum annual debt service with respect to the initial principal amount of the Series 2025 Bonds determined on the date of issue. Upon satisfaction of the Release Conditions, the Series 2025 Reserve Requirement shall be reduced to an amount equal to twenty-five percent (25%) of the maximum annual debt service with respect to the then Outstanding principal amount of the Series 2025 Bonds. If a portion of the Series 2025 Bonds are redeemed pursuant to Section 3.01(b)(i) or Section 3.01(b)(iii) of the First Supplemental Indenture. Any amount in the Series 2025 Reserve Account may, upon final maturity or redemption of all Outstanding Series 2025 Bonds be used to pay principal of and interest on the Series 2025 Bonds at that time. The initial Series 2025 Reserve Requirement shall be equal to \$

"Release Conditions" shall mean collectively (i) the Series 2025 Special Assessments have been Fully Absorbed (as defined herein), as certified by the District Manager in writing and upon which the Trustee may conclusively rely, and (ii) there shall be no Events of Default under the Master Indenture, all as certified by the District Manager in writing and upon which the Trustee may conclusively rely. "Fully Absorbed" shall mean the date on which all of the Series 2024 Special Assessments securing the Series 2024 Bonds have been levied on all tax parcels within the District that have received certificates of occupancy for the applicable structures therein.

On each March 15 and September 15 (or, if such date is not a Business Day, on the Business Day next preceding such day), the Trustee shall determine the amount on deposit in the Series 2025 Reserve Account and transfer any excess therein above the Reserve Requirement for the Series 2025 Bonds caused by investment earnings prior to the Completion Date to the Series 2025 Acquisition and Construction Account and after the Completion Date to the Series 2025 Revenue Account in accordance with the First Supplemental Indenture.

Notwithstanding any of the foregoing, amounts on deposit in the Series 2025 Reserve Account shall be transferred by the Trustee, in the amounts directed in writing by the Majority Holders of the Series 2025 Bonds to the Series 2025 General Redemption Subaccount of the Series 2025 Bond Redemption Account if, as a result of the application of the provisions of the Master Indenture relating to remedies in Events of Default, the proceeds received from lands sold subject to the corresponding Series 2025 Special Assessments and applied to redeem a portion of the Series 2025 Bonds are less than the principal amount of the Series 2025 Bonds indebtedness attributable to such lands.

Subject to the provisions of the First Supplemental Indenture, on any date the District or the District Manager, on behalf of the District, receives notice that a landowner wishes to prepay its Series 2025 Special Assessments relating to the benefited property of such landowner within the District, or as a result of a mandatory true-up payment, the District shall, or cause the District Manager, on behalf of the District to, calculate the principal amount of such Prepayment taking into account a credit against the amount of the Series 2025 Prepayment Principal due by the amount of money in the Series 2025 Reserve Account that will be in excess of the applicable Reserve Requirement, taking into account the proposed Prepayment. Such excess in the Series 2025 Reserve Account shall be transferred by the Trustee to the Series 2025 Prepayment Subaccount of the District, shall make such calculation within ten (10) Business Days after receiving notice of such Prepayment and shall instruct the Trustee in writing to transfer such amount of credit given to the landowner from the Series 2025 Reserve Account to the Series 2025 Prepayment Subaccount of the Series 2025 Bond Redemption Account to the Series 2025 Prepayment such amount of credit given to the landowner from the Series 2025 Reserve Account to the Series 2025 Prepayment subaccount of the Series 2025 Bond Redemption Account to the Series 2025 Prepayment such amount of credit given to the landowner from the Series 2025 Reserve Account to the Series 2025 Prepayment Subaccount of the Series 2025 Bond Redemption Account to be used for the extraordinary mandatory redemption of the Series 2025 Bonds in accordance with the First Supplemental Indenture. The Trustee is authorized to make such transfers and has no duty to verify such calculations.

Notwithstanding the foregoing and as further described in the next succeeding paragraph, upon satisfaction of the Release Conditions, the Trustee shall deposit such excess on deposit in the Series 2025 Reserve Account as described below to the Series 2025 Acquisition and Construction Account and pay such amount deposited in the Series 2025 Acquisition and Construction Account to the Person or Persons designated in a requisition that has been submitted to the Trustee, all or a portion of which remains unfunded for the payment of Costs of the Capital Improvement Plan as further provided in the First Supplemental Indenture and applied for the purposes therein. Such payment is authorized notwithstanding that the Completion Date might have been declared provided there are Costs of the Capital Improvement Plan that were not paid from moneys initially deposited in the Series 2025 Acquisition and Construction Account (or from moneys on deposit in the Series 2025 TIF Subaccount which were disbursed upon direction from the District as provided in the First Supplemental Indenture) and the Trustee has on file one or more properly executed unfunded requisitions. In the event there are multiple unfunded requisitions on file with the

Trustee, the Trustee shall fund such requisitions in the order the Trustee has received them (from oldest to newest). In the event that there are no unfunded requisitions on file with the Trustee, such excess moneys transferred from the Series 2025 Reserve Account to the Series 2025 Acquisition and Construction Account shall be deposited into the Series 2025 General Redemption Subaccount of the Series 2025 Bond Redemption Account.

Upon satisfaction of the Release Conditions as evidenced by a written certificate of the District Manager delivered to the District and the Trustee, stating that the Release Conditions have been satisfied and setting forth the amount of the new Series 2025 Reserve Requirement, the Trustee shall without further direction reduce the Series 2025 Reserve Requirement to twenty-five percent (25%) of the maximum annual debt service of the then Outstanding principal amount of the Series 2025 Bonds, as calculated by the District Manager. The excess amount in the Series 2025 Reserve Account as a result of satisfaction of Release Conditions shall be transferred to the Series 2025 Acquisition and Construction Account. The Trustee may conclusively rely on such written certificate of the District Manager.

In addition, in the event of an extraordinary mandatory redemption pursuant to the First Supplemental Indenture, the District Manager shall calculate the applicable Reserve Requirement and communicate the same to the Trustee and the Trustee shall apply any excess in the Series 2025 Reserve Account toward such extraordinary mandatory redemption.

#### Application of the Series 2025 Pledged Revenues

The First Supplemental Indenture establishes a "Series 2025 Revenue Account" within the Revenue Fund for the Series 2025 Bonds (referred to herein as the "Series 2025 Revenue Account. Pursuant to the First Supplemental Indenture, the Trustee shall transfer from amounts on deposit in the Series 2025 Revenue Account to the Funds and Accounts designated below, the following amounts, at the following times and in the following order of priority:

FIRST, upon receipt but no later than the Business Day next preceding each November 1 commencing November 1, 2025, to the Series 2025 Interest Account of the Debt Service Fund, an amount equal to the interest on the Series 2025 Bonds becoming due on the next succeeding November 1, less any amounts on deposit in the Series 2025 Interest Account not previously credited;

SECOND, upon receipt but no later than the Business Day next preceding each May 1 commencing May 1, 2026, to the Series 2025 Interest Account of the Debt Service Fund, an amount equal to the interest on the Series 2025 Bonds becoming due on the next succeeding May 1, less any amounts on deposit in the Series 2025 Interest Account and Series 2025 Capitalized Interest Account not previously credited;

THIRD, no later than the Business Day next preceding each May 1, commencing May 1, 2028, to the Series 2025 Sinking Fund Account of the Debt Service Fund, an amount equal to the principal amount of Series 2025 Bonds subject to sinking fund redemption on such May 1, less any amounts on deposit in the Series 2025 Sinking Fund Account not previously credited;

FOURTH, no later than the Business Day next preceding each May 1, which is a principal payment date for any Series 2025 Bonds, to the Series 2025 Principal Account of the Debt Service Fund, an amount equal to the principal amount of Series 2025 Bonds Outstanding maturing on such May 1, less any amounts on deposit in the Series 2025 Principal Account not previously credited;

FIFTH, notwithstanding the foregoing, at any time the Series 2025 Bonds are subject to redemption on a date which is not a May 1 or November 1 Interest Payment Date, the Trustee shall be authorized to transfer to the Series 2025 Interest Account, the amount necessary to pay interest on the Series 2025 Bonds subject to redemption on such date;

SIXTH, upon receipt but no later than the Business Day next preceding each Interest Payment Date while Series 2025 Bonds remain Outstanding, to the Series 2025 Reserve Account, an amount equal to the amount, if any, which is necessary to make the amount on deposit therein equal to the Series 2025 Reserve Requirement for the Series 2025 Bonds; and

SEVENTH, subject to the foregoing paragraphs, the balance of any moneys remaining after making the foregoing deposits shall be deposited into the Series 2025 Costs of Issuance Account to cover any deficiencies in the amount allocated to pay the cost of issuing the Series 2025 Bonds and next, any balance in the Series 2025 Revenue Account shall remain on deposit in such Series 2025 Revenue Account, unless pursuant to the Arbitrage Certificate, it is necessary to make a deposit into the Series 2025 Rebate Fund, in which case, the District shall direct the Trustee to make such deposit thereto.

#### Investments

The Trustee shall, as directed by the District in writing, invest moneys held in the Series Accounts in the Debt Service Fund and any Series Accounts within the Bond Redemption Fund only in Government Obligations and certain types of securities described in the definition of Investment Securities. The Trustee shall, as directed by the District in writing, invest moneys held in any Series Account of the Debt Service Reserve Fund in Investment Securities. All deposits in time accounts shall be subject to withdrawal without penalty and all investments shall mature or be subject to redemption by the holder without penalty, not later than the date when the amounts will foreseeably be needed for purposes set forth in the Indenture. All securities securing investments under the Master Indenture shall be deposited with a Federal Reserve Bank, with the trust department of the Trustee, as authorized by law with respect to trust funds in the State, or with a bank or trust company having a combined net capital and surplus of not less than \$50,000,000. The interest and income received upon such investments and any interest paid by the Trustee or any other depository of any Fund or Account and any profit or loss resulting from the sale of securities shall be added or charged to the Fund or Account for which such investments are made; provided, however, that if the amount in any Fund or Account equals or exceeds the amount required to be on deposit therein, subject to the provisions of the Indenture, any interest and other income so received shall be deposited in the related Series Account of the Revenue Fund. Upon request of the District, or on its own initiative whenever payment is to be made out of any Fund or Account, the Trustee shall sell such securities as may be requested to make the payment and restore the proceeds to the Fund or Account in which the securities were held. The Trustee shall not be accountable for any depreciation in the value of any such security or for any loss resulting from the sale thereof, except as provided in the Indenture. If net proceeds from the sale of securities held in any Fund or Account shall be less than the amount invested and, as a result, the amount on deposit in such Fund or Account is less than the amount required to be on deposit in such Fund or Account, the amount of such deficit shall be transferred to such Fund or Account from the related Series Account of the Revenue Fund.

Absent specific instructions or absent standing instructions from the District for investment of such moneys, then the Trustee shall not be responsible or liable for keeping the moneys invested. The Trustee shall not be liable or responsible for any loss or failure to achieve the highest return, or entitled to any gain, resulting from any investment or sale upon the investment instructions of the District or otherwise. The Trustee may make any investments permitted by the provisions of the Master Indenture through its own bond department or investment department.

The Trustee shall value the assets in each of the Funds and Accounts established under the Indenture forty-five (45) days prior to each Interest Payment Date, and as soon as practicable after each such valuation

date (but no later than ten (10) days after each such valuation date) shall provide the District a report of the status of each Fund and Account as of the valuation date. For the purpose of determining the amount on deposit to the credit of any Fund or Account established under the Indenture, obligations in which money in such Fund or Account shall have been invested shall be valued at the market value or the amortized cost thereof, whichever is lower, or at the redemption price thereof, to the extent that any such obligation is then redeemable at the option of the holder. See "APPENDIX A: PROPOSED FORMS OF MASTER INDENTURE AND FIRST SUPPLEMENTAL INDENTURE" attached hereto for more information.

#### Master Indenture Provisions Relating to Bankruptcy of Landowners or Other Obligated Person

For purposes of this heading, (a) each Series of Bonds, including the Series 2025 Bonds, secured by and payable from Special Assessments, including the Series 2025 Special Assessments, levied against property owned by any Insolvent Taxpayer (as defined below) are collectively referred to herein as the "Affected Bonds" and (b) the Special Assessments levied against any Insolvent Taxpayer's property and pledged under one or more Supplemental Indentures as security for the Affected Bonds are collectively referred to herein as the "Affected Special Assessments".

The Master Indenture will contain the following provisions which, pursuant to the Master Indenture, shall be applicable both before and after the commencement, whether voluntary or involuntary, of any case, proceeding or other action by or against any owner of any tax parcel subject to the Affected Special Assessments (an "Insolvent Taxpayer") under any existing or future law of any jurisdiction relating to bankruptcy, insolvency, reorganization, assignment for the benefit of creditors, or relief of debtors (a "Proceeding"). For as long as any Affected Bonds remain Outstanding, in any Proceeding involving the District, any Insolvent Taxpayer, the Affected Bonds or the Affected Special Assessments, the District, to the extent permitted by applicable law, shall be obligated to act in accordance with any direction from the Trustee with regard to all matters directly or indirectly affecting at least ten percent (10%) of the Outstanding, in any proceeding involving the District, any Insolvent Taxpayer, the Affected Bonds or for as long as any Affected Bonds remain Outstanding aggregate principal amount of the Affected Bonds or for as long as any Affected Bonds remain Outstanding, in any proceeding involving the District, any Insolvent Taxpayer, the Affected Bonds or for as long as any Affected Bonds or the Affected Bonds or for as long as any Affected Bonds or the Affected Bonds or for as long as any Affected Bonds or the Affected Bonds or for as long as any Affected Bonds or the Affected Bonds or for as long as any Affected Bonds or the Affected Bonds or for as long as any Affected Bonds or the Affected Bonds or for as long as any Affected Bonds or the Affected Special Assessments or the Trustee. The District will agree that it shall not be a defense to a breach of the foregoing covenant that it has acted upon advice of counsel in not complying with this covenant.

The District will acknowledge and agree in the Master Indenture that, although the Affected Bonds were issued by the District, the Owners of the Affected Bonds are categorically the party with the ultimate financial stake with respect to the Affected Bonds and, consequently, the party with a vested and pecuniary interest in a Proceeding. In the event of any Proceeding involving any Insolvent Taxpayer: (a) the District, to the extent permitted by applicable law, will agree that it shall follow the direction of the Trustee in making any election, giving any consent, commencing any action or filing any motion, claim, obligation, notice or application or in taking any other action or position in any Proceeding or in any action related to a Proceeding that affects, either directly or indirectly, the Affected Special Assessments, the Affected Bonds or any rights of the Trustee under the Indenture; (b) to the extent permitted by applicable law, the District will agree that it shall not make any election, give any consent, commence any action or file any motion, claim, obligation, notice or application or take any other action or position in any Proceeding or in any action related to a Proceeding that affects, either directly or indirectly, the Affected Special Assessments, the Affected Bonds or any rights of the Trustee under the Indenture that is inconsistent with any direction from the Trustee; (c) to the extent permitted by applicable law, the Trustee shall have the right, but is not obligated to, (i) vote in any such Proceeding any and all claims of the District, or (ii) file any motion, pleading, plan or objection in any such Proceeding on behalf of the District, including without limitation, motions seeking relief from the automatic stay, dismissal the Proceeding, valuation of the property belonging to the Insolvent Taxpayer, termination of exclusivity, and objections to disclosure statements, plans of liquidation or reorganization, and motions for use of cash collateral, seeking approval of sales or post-petition financing. If the Trustee chooses to exercise any such rights, the District shall be deemed to

have appointed the Trustee as its agent and granted to the Trustee an irrevocable power of attorney coupled with an interest, and its proxy, for the purpose of exercising any and all rights and taking any and all actions available to the District in connection with any Proceeding of any Insolvent Taxpayer, including without limitation, the right to file and/or prosecute any claims, to propose and prosecute a bankruptcy plan, to vote to accept or reject a plan, and to make any election under Section 1111(b) of the Bankruptcy Code and (d) the District shall not challenge the validity or amount of any claim submitted in such Proceeding by the Trustee in good faith or any valuations of the lands owned by any Insolvent Taxpayer submitted by the Trustee in good faith in such Proceeding or take any other action in such Proceeding, which is adverse to Trustee's enforcement of the District claim and rights with respect to the Affected Special Assessments or receipt of adequate protection (as that term is defined in the Bankruptcy Code). Without limiting the generality of the foregoing, the District will agree that the Trustee shall have the right (i) to file a proof of claim with respect to the Affected Special Assessments, (ii) to deliver to the District a copy thereof, together with evidence of the filing with the appropriate court or other authority, and (iii) to defend any objection filed to said proof of claim.

Notwithstanding the provisions of the immediately preceding paragraphs, nothing under this heading shall preclude the District from becoming a party to a Proceeding in order to enforce a claim for operation and maintenance assessments, or claims for moneys or performance under a contract, and the District shall be free to pursue such claim in such manner as it shall deem appropriate in its sole and absolute discretion. Any actions taken by the District in pursuance of its claim for operation and maintenance assessments in any Proceeding shall not be considered an action adverse or inconsistent with the Trustee's rights or consents with respect to the Special Assessments relating to the Bonds Outstanding whether such claim is pursued by the District or the Trustee. See "BONDOWNERS' RISKS – Bankruptcy Risks" herein for more information.

#### **Events of Default and Remedies**

The Master Indenture provide that each of the following shall be an "Event of Default" under the Master Indenture, with respect to the Series 2025 Bonds:

(a) if payment of any installment of interest on any Series 2025 Bond is not made when it becomes due and payable; or

(b) if payment of the principal or Redemption Price of any Series 2025 Bond is not made when it becomes due and payable at maturity or upon call or presentation for redemption; or

(c) if the District, for any reason, fails in, or is rendered incapable of, fulfilling its obligations under the Indenture or under the Act, which failure or incapacity may reasonably be determined solely by the Majority Holders of the Series 2025 Bonds; or

(d) if the District proposes or makes an assignment for the benefit of creditors or enters into a composition agreement with all or a material part of its creditors, or a trustee, receiver, executor, conservator, liquidator, sequestrator or other judicial representative, similar or dissimilar, is appointed for the District or any of its assets or revenues, or there is commenced any proceeding in liquidation, bankruptcy, reorganization, arrangement of debts, debtor rehabilitation, creditor adjustment or insolvency, local, state or federal, by or against the District and if such is not vacated, dismissed or stayed on appeal within ninety (90) days; or

(e) if the District defaults in the due and punctual performance of any other covenant in the Indenture or in any Series 2025 Bond issued pursuant to the Indenture, and such default continues for sixty (60) days after written notice requiring the same to be remedied shall have been given to the District by the

Trustee, which may give such notice in its discretion and shall give such notice at the written request of the Majority Holders of the Series 2025 Bonds; provided, however, that if such performance requires work to be done, actions to be taken, or conditions to be remedied, which by their nature cannot reasonably be done, taken or remedied, as the case may be, within such sixty (60) day period, no Event of Default shall be deemed to have occurred or exist if, and so long as, the District shall commence such performance within such sixty (60) day period and shall diligently and continuously prosecute the same to completion; or

(f) if at any time the amount in the Series 2025 Reserve Account is less than the Series 2025 Reserve Requirement as a result of the Trustee withdrawing an amount therefrom to satisfy the Debt Service Requirement on the Series 2025 Bonds and such amount has not been restored within thirty (30) days of such withdrawal; or

(g) more than twenty percent (20%) of the "maintenance special assessments" levied by the District on District Lands upon which the Series 2025 Special Assessments are levied to secure the Series 2025 Bonds pursuant to Section 190.021(3), Florida Statutes, as amended, and collected directly by the District have become due and payable and have not been paid, within ninety (90) days of when due.

The Trustee shall not be required to rely on any official action, admission or declaration by the District before recognizing that an Event of Default under (c) above has occurred.

No Series 2025 Bonds shall be subject to acceleration. Upon the occurrence and continuance of an Event of Default with respect to the Series 2025 Bonds, no optional redemption or extraordinary mandatory redemption of Series 2025 Bonds pursuant Article VIII of the Master Indenture shall occur unless all of the Series 2025 Bonds where an Event of Default has occurred will be redeemed or 100% of the Holders of the Series 2025 Bonds agree to such redemption; provided that in no event shall this provision preclude any partial distribution under the Master Indenture with respect to the application of moneys upon an Event of Default.

If any Event of Default with respect to the Series 2025 Bonds has occurred and is continuing, the Trustee, in its discretion may, and upon the written request of the Majority Holders of the Outstanding Series 2025 Bonds and receipt of indemnity to its satisfaction shall, in its capacity as Trustee:

(a) by mandamus, or other suit, action or proceeding at law or in equity, enforce all rights of the Holders of the Series 2025 Bonds, including, without limitation, the right to require the District to carry out any agreements with, or for the benefit of, the Series 2025 Bondholders and to perform its or their duties under the Act;

(b) bring suit upon the Series 2025 Bonds;

(c) by action or suit in equity require the District to account as if it were the trustee of an express trust for the Holders of the Series 2025 Bonds;

(d) by action or suit in equity enjoin any acts or things which may be unlawful or in violation of the rights of the Holders of the Series 2025 Bonds; and

(e) by other proceeding in law or equity, exercise all rights and remedies provided for by any other document or instrument securing the Series 2025 Bonds.

If any proceeding taken by the Trustee on account of any Event of Default is discontinued or is determined adversely to the Trustee, then the District, the Trustee, the applicable Paying Agent and the

Bondholders shall be restored to their former positions and rights under the Indenture as though no such proceeding had been taken.

The Majority Holders of the Series 2025 Bonds then subject to remedial proceedings under Article X of the Master Indenture shall have the right to direct the method and place of conducting all remedial proceedings by the Trustee under the applicable Indenture, provided that such directions shall not be otherwise than in accordance with applicable law or the provisions of the Indenture.

No Bondholder shall have any right to pursue any remedy under the Indenture unless (a) the Trustee shall have been given written notice of an Event of Default, (b) the Majority Holders of the Series 2025 Bonds shall have requested the Trustee, in writing, to exercise the powers granted in such Indenture or to pursue such remedy in its or their name or names, (c) the Trustee shall have been offered indemnity satisfactory to it against costs, expenses and liabilities, and (d) the Trustee shall have failed to comply with such request within a reasonable time.

#### ENFORCEMENT OF ASSESSMENT COLLECTIONS

#### General

The primary source of payment for the Series 2025 Bonds is the collection of Series 2025 Special Assessments imposed on certain lands in the District specially benefited by the Capital Improvement Plan pursuant to the Assessment Proceedings. See "ASSESSMENT METHODOLOGY AND THE ALLOCATION OF ASSESSMENTS" herein and "APPENDIX D: ASSESSMENT METHODOLOGY" attached hereto.

The imposition, levy, and collection of Series 2025 Special Assessments must be done in compliance with the provisions of Florida law. Failure by the District, the Hillsborough County Tax Collector ("Tax Collector") or the Hillsborough County Property Appraiser (the "Property Appraiser") to comply with such requirements could result in delay in the collection of, or the complete inability to collect, Series 2025 Special Assessments during any year. Such delays in the collection of Series 2025 Special Assessments, or complete inability to collect the Series 2025 Special Assessments, would have a material adverse effect on the ability of the District to make full or punctual payment of the debt service requirements on the Series 2025 Bonds. See "BONDOWNERS' RISKS." To the extent that landowners fail to pay the Series 2025 Special Assessments, delay payments, or are unable to pay the same, the successful pursuance of collection procedures available to the District is essential to continued payment of principal of and interest on the Series 2025 Bonds.

For the Series 2025 Special Assessments to be valid, the Series 2025 Special Assessments must meet two requirements: (1) the benefit from the Capital Improvement Plan to the lands subject to the Series 2025 Special Assessments must exceed or equal the amount of the Series 2025 Special Assessments, and (2) the Series 2025 Special Assessments must be fairly and reasonably allocated across all such benefitted properties.

Pursuant to the Act, and the Assessment Proceedings, the District may collect the Series 2025 Special Assessments through a variety of methods. See "BONDOWNERS' RISKS." Initially, and for unplatted lands unless the Trustee at the direction of the Majority Holders directs the District otherwise or when timing will not allow for the use of the Uniform Method (as herein defined), the District will directly issue annual bills to landowners requiring payment of the Series 2025 Special Assessments, and will enforce that bill through foreclosure proceedings. See "ASSESSMENT METHODOLOGY AND THE ALLOCATION OF ASSESSMENTS" herein and "APPENDIX D: ASSESSMENT METHODOLOGY" attached hereto. As lands are platted and sold, the Series 2025 Special Assessments will be added to the County tax roll and collected pursuant to the Uniform Method. The following is a description of certain statutory provisions relating to each of these collection methods. Such description is not intended to be exhaustive and is qualified in its entirety by reference to such statutes. See also "APPENDIX A: PROPOSED FORMS OF MASTER INDENTURE AND FIRST SUPPLEMENTAL INDENTURE" attached hereto for more information on the use of the Uniform Method.

#### **Direct Billing and Foreclosure Procedure**

As noted above, and pursuant to Chapters 170 and 190 of the Florida Statutes, the District may directly levy, collect and enforce the Series 2025 Special Assessments. In this context, Section 170.10 of the Florida Statutes provides that upon the failure of any property owner to timely pay all or any part of the annual installment of principal and/or interest of a special assessment due, including the Series 2025 Special Assessments, the whole assessment, with the interest and penalties thereon, shall immediately become due and payable and subject to foreclosure. Generally stated, the governing body of the entity levying the special assessment, in this case the District, may foreclose by commencing a foreclosure proceeding in the same manner as the foreclosure of a real estate mortgage, or, alternatively, by commencing an action under Chapter 173, Florida Statutes, which relates to foreclosure of municipal tax and special assessment liens. Such proceedings are in rem, meaning that the action would be brought against the land, and not against the landowner. In light of the one year tolling period required before the District may commence a foreclosure action under Chapter 173, Florida Statutes, it is likely the District would commence an action to foreclose in the same manner as the foreclosure of a real estate mortgage rather than proceeding under Chapter 173, Florida Statutes.

Enforcement of the obligation to pay Series 2025 Special Assessments and the ability to foreclose the lien of such Series 2025 Special Assessments upon the failure to pay such Series 2025 Special Assessments may not be readily available or may be limited because enforcement is dependent upon judicial action which is often subject to discretion and delay. Additionally, there is no guarantee that there will be demand for any foreclosed lands sufficient to repay the Series 2025 Special Assessments. See "BONDHOLDER'S RISKS."

#### **Uniform Method Procedure**

Subject to certain conditions, the District may alternatively elect to collect the Series 2025 Special Assessments using uniform method of collection afforded by Section 197.3632, Florida Statutes (the "Uniform Method"). The Uniform Method of collection is available only in the event the District complies with statutory and regulatory requirements and enters into agreements with the Tax Collector and Property Appraiser providing for the Series 2025 Special Assessments to be levied and then collected in this manner.

If the Uniform Method of collection is used, the Series 2025 Special Assessments will be collected together with the City, County, school, special district, and other ad valorem taxes and non-ad valorem assessments (together, "Taxes and Assessments"), all of which will appear on the tax bill (also referred to as a "tax notice") issued to each landowner in the District. The statutes relating to enforcement of Taxes and Assessments provide that such Taxes and Assessments become due and payable on November 1 of the year when assessed, or as soon thereafter as the certified tax roll is received by the Tax Collector, and constitute a lien upon the land from January 1 of such year until paid or barred by operation of law. Such taxes and assessments – including the Series 2025 Special Assessments – are to be billed, and landowners in the District are required to pay, all Taxes and Assessments without preference in payment of any particular increment of the tax bill, such as the increment owing for the Series 2025 Special Assessments. In other words, any partial prepayment by a landowner must be distributed in equal proportion to all taxing districts and levying authorities.

All Taxes and Assessments are payable at one time, except for partial payment schedules as may be provided by Florida law such as Sections 197.374 and 197.222, Florida Statutes. Partial payments made pursuant to Sections 197.374 and 197.222, Florida Statutes, are distributed in equal proportion to all taxing districts and levying authorities applicable to that account. If a taxpayer does not make complete payment of the total amount, he or she cannot designate specific line items on his or her tax bill as deemed paid in full. Therefore, in the event the Series 2025 Special Assessments are to be collected pursuant to the Uniform Method, any failure to pay any one line item, would cause the Series 2025 Special Assessments to not be collected to that extent, which could have a significant adverse effect on the ability of the District to make full or punctual payment of the debt service requirements on the Series 2025 Bonds.

Under the Uniform Method, if the Series 2025 Special Assessments are paid during November when due or during the following three months, the taxpayer is granted a variable discount equal to 4% in November and decreasing one percentage point per month to 1% in February. All unpaid Taxes and Assessments become delinquent on April 1 of the year following assessment.

The Tax Collector is required to collect the Taxes and Assessments on the tax bill prior to April 1 and, after that date, to institute statutory procedures upon delinquency to collect such Taxes and Assessments through the sale of "tax certificates," as discussed below. Delay in the mailing of tax notices to taxpayers may result in a delay throughout this process. Neither the District nor the Underwriter can give any assurance to the holders of the Series 2025 Bonds (1) that the past experience of the Tax Collector with regard to tax and special assessment delinquencies is applicable in any way to the Series 2025 Special Assessments, (2) that future landowners and taxpayers in the District will pay such Series 2025 Special Assessments, (3) that a market may exist in the future for tax certificates in the event of sale of such certificates for taxable units within the District, and (4) that the eventual sale of tax certificates for real property within the District, if any, will be for an amount sufficient to pay amounts due under the Assessment Proceedings to discharge the lien of the Series 2025 Special Assessments and all other liens that are coequal therewith.

Collection of delinquent Series 2025 Special Assessments under the Uniform Method is, in essence, based upon the sale by the Tax Collector of "tax certificates" and remittance of the proceeds of such sale to the District for payment of the Series 2025 Special Assessments due. Prior to the sale of tax certificates, the landowner may bring current the delinquent Taxes and Assessments and cancel the tax certificate process by paying the total amount of delinquent Taxes and Assessments plus all applicable interest, costs and charges. If the landowner does not act, the Tax Collector is required to attempt to sell tax certificates by public bid to the person who pays the delinquent Taxes and Assessments owing, and any applicable interest, costs and charges, and who accepts the lowest interest rate per annum to be borne by the certificates (but not more than 18%).

If there are no bidders, the tax certificate is issued to the County. The County is to hold, but not pay for, the tax certificate with respect to the property, bearing interest at the maximum legal rate of interest, which is currently 18%. The Tax Collector does not collect any money if tax certificates are issued, or struck off, to the County. The County may sell such certificates to the public at any time after issuance, but before a tax deed application is made, at the face amount thereof plus interest at the rate of not more than 18% per annum, costs and charges. Proceeds from the sale of tax certificates are required to be used to pay Taxes and Assessments (including the Series 2025 Special Assessments), interest, costs and charges on the real property described in the certificate.

Unless full payment for a tax deed is made to the Clerk of Circuit Court, including documentary stamps and recording fees, any tax certificate in the hands of a person other than the County may be redeemed and canceled, in whole or in part (under certain circumstances), at any time before a tax deed is issued, and at a price equal to the face amount of the certificate or portion thereof together with all interest,

costs, and charges due. Regardless of the interest rate actually borne by the certificates, persons redeeming tax certificates must pay a minimum interest rate of 5%, unless the rate borne by the certificates is zero percent. The proceeds of such a redemption are paid to the Tax Collector who transmits to the holder of the tax certificate such proceeds less service charges, and the certificate is canceled. Redemption of tax certificates held by the County is effected by purchase of such certificates from the County, as described above.

For any holder other than the County, a tax certificate expires seven (7) years after the date of issuance if a tax deed has not been applied for and no other administrative or legal proceeding, including a bankruptcy, has existed of record. After an initial period ending two years from April 1 of the year of issuance of a certificate, during which period actions against the land are held in abeyance to allow for sales and redemptions of tax certificates, and before the expiration of seven years from the date of issuance, the holder of a certificate may apply for a tax deed to the subject land. The applicant is required to pay to the Tax Collector at the time of application all amounts required to redeem or purchase all other outstanding tax certificates covering the land, plus interest, any omitted taxes or delinquent taxes and interest, and current taxes, if due (as well as any costs of resale, if applicable). If the County holds a tax certificate on property valued at \$5,000 or more and has not succeeded in selling it, the County must apply for a tax deed two years after April 1 of the year of issuance of the certificate or as soon thereafter as is reasonable. The County pays costs and fees to the Tax Collector but not any amount to redeem any other outstanding certificates covering the land. Thereafter, the property is advertised for public sale.

In any such public sale conducted by the Clerk of the Circuit Court, the private holder of the tax certificate who is seeking a tax deed for non-homestead property is deemed to submit a minimum bid equal to the amount required to redeem the tax certificate, charges for the cost of sale, including costs incurred for the service of notice required by statute, redemption of other tax certificates on the land, and all other costs to the applicant for the tax deed, plus interest thereon. In the case of homestead property, the minimum bid is also deemed to include, in addition to the amount of money required for the minimum bid on nonhomestead property, an amount equal to one-half of the latest assessed value of the homestead. If there are no higher bids, the holder receives title to the land, and the amounts paid for the certificate and in applying for a tax deed are credited toward the purchase price. The holder is also responsible for payment of any amounts included in the bid not already paid, including but not limited to, documentary stamp tax, recording fees, and, if property is homestead property, the moneys to cover the one-half value of the homestead. If there are other bids, the holder may enter the bidding. The highest bidder is awarded title to the land. The portion of proceeds of such sale needed to redeem the tax certificate, together with all subsequent unpaid taxes plus the costs and expenses of the application for deed, with interest on the total of such sums, are forwarded to the holder thereof or credited to such holder if such holder is the successful bidder. Excess proceeds are distributed first to satisfy governmental liens against the land and then to the former title holder of the property (less service charges), lienholder of record, mortgagees of record, vendees of recorded contracts for deeds, and other lienholders and any other person to whom the land was last assessed on the tax roll for the year in which the land was assessed, all as their interest may appear.

Except for certain governmental liens, certain easements, and certain restrictive covenants and restrictions, no right, interest, restriction or other covenant survives the issuance of a tax deed. Thus, for example, outstanding mortgages on property subject to a tax deed would be extinguished.

If there are no bidders at the public sale, the Clerk of the Circuit Court shall enter the land on a list entitled "lands available for taxes" and shall immediately notify the City Council that the property is available. At any time within ninety (90) days from the date the property is placed on the list, the County may purchase the land for the opening bid, or may waive its rights to purchase the property. Thereafter, and without further notice or advertising, any person, the County or any other governmental unit may purchase the land by paying the amount of the opening bid. Ad valorem taxes and non-ad valorem assessments accruing after the date of public sale do not require repetition of the bidding process but are added to the minimum bid. Three years from the date the property was offered for sale, unsold lands escheat to the County in which they are located, free and clear, and all tax certificates, accrued taxes, and liens of any nature against the property are canceled and a deed is executed vesting title in the governing board of such County.

There can be no guarantee that the Uniform Method will result in the payment of Series 2025 Special Assessments. For example, the demand for tax certificates is dependent upon various factors, which include the rate of interest that can be earned by ownership of such certificates and the underlying value of the land that is the subject of such certificates and which may be subject to sale at the demand of the certificate holder. Therefore, the underlying market value of the property within the District may affect the demand for certificates and the successful collection of the Series 2025 Special Assessments, which are the primary source of payment of the Series 2025 Bonds. Additionally, legal proceedings under Federal bankruptcy law brought by or against a landowner who has not yet paid his or her property taxes or assessments would likely result in a delay in the sale of tax certificates. See "BONDHOLDERS' RISKS."

#### **BONDOWNERS' RISKS**

There are certain risks inherent in an investment in bonds issued by a public authority or governmental body in the State and secured by special assessments. Certain of these risks are described in other headings of this Limited Offering Memorandum. Certain additional risks are associated with the Series 2025 Bonds offered hereby and are set forth below. Prospective investors in the Series 2025 Bonds should have such knowledge and experience in financial and business matters to be capable of evaluating the merits and risks of an investment in the Series 2025 Bonds and have the ability to bear the economic risks of such prospective investment, including a complete loss of such investment. This heading does not purport to summarize all risks that may be associated with purchasing or owning the Series 2025 Bonds, and prospective purchasers are advised to read this Limited Offering Memorandum in its entirety for a more complete description of investment considerations relating to the Series 2025 Bonds.

#### **Concentration of Land Ownership**

As of the date hereof, the Landowners own all of the Assessable Lands within the District, which are the lands that will be subject to the Series 2025 Special Assessments securing the Series 2025 Bonds. Payment of the Series 2025 Special Assessments is primarily dependent upon their timely payment by the Landowners and the other future landowners in the District. Non-payment of the Series 2025 Special Assessments by any of the landowners could have a substantial adverse impact upon the District's ability to pay debt service on the Series 2025 Bonds. See "THE MASTER DEVELOPER AND THE LANDOWNERS" and "SECURITY FOR AND SOURCE OF PAYMENT OF THE SERIES 2025 BONDS" herein.

#### **Bankruptcy and Related Risks**

In the event of the institution of bankruptcy or similar proceedings with respect to the Landowners or any other owner of benefited property, delays could occur in the payment of debt service on the Series 2025 Bonds, as such bankruptcy could negatively impact the ability of: (i) the Landowners and any other landowner to pay the Series 2025 Special Assessments; (ii) the Tax Collector to sell tax certificates in relation to such property with respect to the Series 2025 Special Assessments being collected pursuant to the Uniform Method; and (iii) the District to foreclose the lien of the Series 2025 Special Assessments not being collected pursuant to the Uniform Method. In addition, the remedies available to the Owners of the Series 2025 Bonds under the Indenture are in many respects dependent upon judicial actions which are often subject to discretion and delay. Under existing constitutional and statutory law and judicial decisions,

the remedies specified by federal, state and local law and in the Indenture and the Series 2025 Bonds, including, without limitation, enforcement of the obligation to pay Series 2025 Special Assessments and the ability of the District to foreclose the lien of the Series 2025 Special Assessments if not being collected pursuant to the Uniform Method, may not be readily available or may be limited. The various legal opinions to be delivered concurrently with the delivery of the Series 2025 Bonds (including Bond Counsel's approving opinion) will be qualified as to the enforceability of the various legal instruments by limitations imposed by bankruptcy, reorganization, insolvency or other similar laws affecting the rights of creditors enacted before or after such delivery. The inability, either partially or fully, to enforce remedies available with respect to the Series 2025 Bonds could have a material adverse impact on the interest of the Owners thereof.

A 2011 bankruptcy court decision in Florida held that the governing body of a community development district, and not the bondholders or indenture trustee, was the creditor of the landowners/debtors in bankruptcy with respect to claims for special assessments, and thus only the district could vote to approve or disapprove a reorganization plan submitted by the debtors in the case. The district voted in favor of the plan. The governing body of the district was at that time elected by the landowners rather than qualified electors. Under the reorganization plan that was approved, a two-year moratorium was placed on the debtor landowners' payment of special assessments. As a result of this non-payment of assessments, debt service payments on the district's bonds were delayed for two years or longer. The Master Indenture provides for the delegation of certain rights from the District to the Trustee in the event of a bankruptcy or similar proceeding with respect to an "Insolvent Taxpayer" (as previously defined). See "SECURITY FOR AND SOURCE OF PAYMENT OF THE SERIES 2025 BONDS – Indenture Provisions Relating to Bankruptcy or Insolvency of a Landowner" herein. The District cannot express any view whether such delegation would be enforceable.

#### Series 2025 Special Assessments Are Non-Recourse

The principal security for the payment of the principal and interest on the Series 2025 Bonds is the timely collection of the Series 2025 Special Assessments. The Series 2025 Special Assessments do not constitute a personal indebtedness of the landowners of the land subject thereto, but are secured by a lien on such land. There is no assurance that the Landowners or subsequent landowners will be able to pay the Series 2025 Special Assessments or that they will pay such Series 2025 Special Assessments even though financially able to do so. Neither the Landowners nor any other subsequent landowners have any personal obligation to pay the Series 2025 Special Assessments. Neither the Landowners nor any subsequent landowners are guarantors of payment of any Series 2025 Special Assessments, and the recourse for the failure of the Landowners or any subsequent landowner to pay the Series 2025 Special Assessments is limited to the collection proceedings against the land subject to such unpaid Series 2025 Special Assessments, as described herein. Therefore the likelihood of collection of the Series 2025 Special Assessments may ultimately depend on the market value of the land subject to the Series 2025 Special Assessments. While the ability of the Landowners or subsequent landowners to pay the Series 2025 Special Assessments is a relevant factor, the willingness of the Landowners or subsequent landowners to pay the Series 2025 Special Assessments, which may also be affected by the value of the land subject to the Series 2025 Special Assessments, is also an important factor in the collection of Series 2025 Special Assessments. The failure of the Landowners or subsequent landowners to pay the Series 2025 Special Assessments could render the District unable to collect delinquent Series 2025 Special Assessments and provided such delinquencies are significant, could negatively impact the ability of the District to make the full or punctual payment of debt service on the Series 2025 Bonds.

#### **Regulatory and Environmental Risks**

The development of the District Lands is subject to comprehensive federal, state and local regulations and future changes to such regulations. Approval is required from various public agencies in connection with, among other things, the design, nature and extent of planned improvements, both public and private, and construction of the infrastructure in accordance with applicable zoning, land use and environmental regulations. Although all such approvals required to date have been received and any further approvals are anticipated to be received as needed, failure to obtain any such approvals in a timely manner could delay or adversely affect the completion of the development of the District Lands. See "THE DEVELOPMENT – Development Approvals" herein for more information.

The value of the land within the District, the success of the Development, the development of the District and the likelihood of timely payment of principal and interest on the Series 2025 Bonds could be affected by environmental factors with respect to the land in the District. Should the land be contaminated by hazardous materials, this could materially and adversely affect the value of the land in the District, which could materially and adversely affect the success of the development of the lands within the District and the likelihood of the timely payment of the Series 2025 Bonds. The District has not performed, nor has the District requested that there be performed on its behalf, any independent assessment of the environmental conditions within the District. See "THE DEVELOPMENT - Environmental" for information on environmental site assessments obtained or received. Such information is being provided solely for informational purposes, and nothing herein or in such assessments grants any legal rights or remedies in favor of the Series 2025 Bondholders in the event any recognized environmental conditions are later found to be present on District Lands. Nevertheless, it is possible that hazardous environmental conditions could exist within the District or in the vicinity of the District and that such conditions could have a material and adverse impact upon the value of the benefited lands within the District. No assurance can be given that unknown hazardous materials, protected animals or vegetative species, etc., do not currently exist or may not develop in the future, whether originating within the District or from surrounding property, and what effect such may have on the development or sale of the lands in the District.

The value of the lands subject to the Series 2025 Special Assessments could also be adversely impacted by flooding or wind damage caused by hurricanes, tropical storms, or other catastrophic events. In addition to potential damage or destruction to any existing development or construction in or near the District, such catastrophic events could potentially render the District Lands unable to support future development. The occurrence of any such events could materially adversely impact the District's ability to pay principal and interest on the Series 2025 Bonds. The Series 2025 Bonds are not insured, and the District's casualty insurance policies do not insure against losses incurred on private lands within its boundaries.

#### **Economic Conditions and Changes in Development Plans**

The successful development of the District and the sale and lease of mixed-use units therein, once such units are built, may be affected by unforeseen changes in general economic conditions, changes in federal economic or trade policies, fluctuations in the real estate market and other factors beyond the control of the Master Developer and the Landowners. Moreover, the Master Developer and the Landowners have the right to modify or change plans for development of the Development from time to time, including, without limitation, land use changes, changes in the overall land and phasing plans, and changes to the type, mix, size and number of units to be developed, and may seek in the future, in accordance with and subject to the provisions of the Act, to contract or expand the boundaries of the District.

#### **Other Taxes and Assessments**

The willingness and/or ability of an owner of benefited land to pay the Series 2025 Special Assessments could be affected by the existence of other taxes and assessments imposed upon such property by the District, the City, the County or any other local special purpose or general purpose governmental entities. City, County, school, special district taxes and special assessments, and voter-approved ad valorem taxes levied to pay principal of and interest on debt, including the Series 2025 Special Assessments, collected pursuant to the Uniform Method are payable at one time. Public entities whose boundaries overlap those of the District could, without the consent of the owners of the land within the District, impose additional taxes on the property within the District. The District anticipates imposing operation and maintenance assessments encumbering the same property encumbered by the Series 2025 Special Assessments. In addition, lands within the District may also be subject to assessments by property owners' and homeowners' associations. See "THE DEVELOPMENT – Taxes, Fees and Assessments" herein for additional information.

Under Florida law, a landowner may contest the assessed valuation determined for its property that forms the basis of ad-valorem taxes such landowner must pay. During this contest period, the sale of a tax certificate under the Uniform Method will be suspended. If the Series 2025 Special Assessments are being collected along with ad valorem taxes pursuant to the Uniform Method, tax certificates will not be sold with respect to such Series 2025 Special Assessment, even though the landowner is not contesting the amount of the Series 2025 Special Assessment. However, Section 194.014, Florida Statutes, requires taxpayers challenging the assessed value of their property to pay all non-ad valorem assessments and at least 75% of their ad valorem taxes before they become delinquent. Likewise, taxpayers who challenge the denial of an exemption or classification or a determination that their improvements were substantially complete must pay all non-ad valorem assessments and the amount of ad valorem taxes that they admit in good faith to be owing. If a taxpayer fails to pay property taxes as set forth above, the Value Adjustment Board considering the taxpayer's challenge is required to deny such petition by written decision by April 20 of such year.

#### Limited Secondary Market for Series 2025 Bonds

The Series 2025 Bonds may not constitute a liquid investment, and there is no assurance that a liquid secondary market will exist for the Series 2025 Bonds in the event an Owner thereof determines to solicit purchasers for the Series 2025 Bonds. Even if a liquid secondary market exists, there can be no assurance as to the price for which the Series 2025 Bonds may be sold. Such price may be lower than that paid by the current Owners of the Series 2025 Bonds, depending on the progress of development of the Development and the lands within the District, as applicable, existing real estate and financial market conditions and other factors.

#### **Inadequacy of Reserve Account**

Some of the risk factors discussed herein, which, if materialized, would result in a delay in the collection of the Series 2025 Special Assessments, may not adversely affect the timely payment of debt service on the Series 2025 Bonds because of the moneys on deposit in the Series 2025 Reserve Account. The ability of the moneys on deposit in the Series 2025 Reserve Account to fund deficiencies caused by delinquencies in the payment of the Series 2025 Special Assessments is dependent on the amount, duration and frequency of such deficiencies. Moneys on deposit in the Series 2025 Reserve Account may be invested in certain obligations permitted under the Indenture. Fluctuations in interest rates and other market factors could affect the amount of moneys in the Series 2025 Reserve Account to make up deficiencies. If the District has difficulty in collecting the Series 2025 Special Assessments, the moneys on deposit in the Series 2025 Reserve Account would be rapidly depleted and the ability of the District to pay debt service on the Series 2025 Bonds could be materially adversely affected. In addition, during an Event of Default under

the Indenture, the Trustee may withdraw moneys from the Series 2025 Reserve Account and such other Funds, Accounts and subaccounts created under the Master Indenture to pay its extraordinary fees and expenses incurred in connection with such Event of Default. If in fact the Series 2025 Reserve Account is accessed for any purpose, the District does not have a designated revenue source for replenishing such account. Moreover, the District may not be permitted to re-assess real property then burdened by the Series 2025 Special Assessments in order to provide for the replenishment of the Series 2025 Reserve Account. See "SECURITY FOR AND SOURCE OF PAYMENT OF THE SERIES 2025 BONDS – Series 2025 Reserve Account" herein for more information about the Series 2025 Reserve Account.

#### Legal Delays

If the District should commence a foreclosure action against a landowner for nonpayment of Series 2025 Special Assessments that are not being collected pursuant to the Uniform Method, such landowner and/or its mortgagee(s) may raise affirmative defenses to such foreclosure action. Although the District expects that such affirmative defenses would likely be proven to be without merit, they could result in delays in completing the foreclosure action. In addition, the District is required under the Indenture to fund the costs of such foreclosure. It is possible that the District will not have sufficient funds and will be compelled to request the Holders of the Series 2025 Bonds to allow funds on deposit under the Indenture to be used to pay the costs of the foreclosure action. Under the Code (as defined herein), there are limitations on the amounts of proceeds from the Series 2025 Bonds that can be used for such purpose.

#### **Uncertainty of TIF Revenues**

The amount of TIF Revenues which will be available to the District on a year to year basis, if any, is unknown at the present time. Certain expectations of TIF Revenues have been included in this Limited Offering Memorandum in the section entitled "THE DEVELOPMENT – The CRA and the CRA Lands". These expectations are based on amounts in the TIF Agreements. The District has not commissioned an independent feasibility analysis of any of the assumptions upon which the TIF Revenues expectations are based.

These expectations constitute "forward-looking" statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and as such may involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance and achievements to be different from the future results, performance or achievements expressed or implied by such forward-looking statements. Investors are cautioned that the actual results could differ materially from those set forth in the forward-looking statements.

The District anticipates using the projected TIF Revenues for any lawful purpose including land development or payment of debt service. In the event the District receives less TIF Revenues in any given year than expected, the development of the District lands and/or the repayment of debt service on the Series 2025 Bonds may be materially adversely impacted.

#### **IRS Examination and Audit Risk**

The Internal Revenue Service (the "IRS") routinely examines bonds issued by state and local governments, including bonds issued by community development districts. In 2016, the IRS concluded its lengthy examination of certain issues of bonds (for purposes of this subsection, the "Audited Bonds") issued by Village Center Community Development District (the "Village Center CDD"). During the course of the audit of the Audited Bonds, Village Center CDD received a ruling dated May 30, 2013, in the form of a non-precedential technical advice memorandum ("TAM") concluding that Village Center CDD is not a political subdivision for purposes of Section 103(a) of the Code because Village Center CDD was organized

and operated to perpetuate private control and avoid indefinitely responsibility to an electorate, either directly or through another elected state or local government body. Such a conclusion could lead to the further conclusion that the interest on the Audited Bonds was not excludable from gross income of the owners of such bonds for federal income tax purposes. Village Center CDD received a second TAM dated June 17, 2015, which granted relief to Village Center CDD from retroactive application of the IRS's conclusion regarding its failure to qualify as a political subdivision. Prior to the conclusion of the audits, the Audited Bonds were all refunded with taxable bonds. The audit of the Audited Bonds that were issued for utility improvements were closed without change to the tax exempt status of those Audited Bonds on April 25, 2016, and the audit of the remainder of the Audited Bonds (which funded recreational amenity acquisitions from entities related to the principal landowner in the Village Center CDD) was closed on July 14, 2016, without the IRS making a final determination that the interest on the Audited Bonds in question was required to be included in gross income. However, the IRS letter to the Village Center CDD with respect to this second set of Audited Bonds noted that the IRS found that the Village Center CDD was not a "proper issuer of tax-exempt bonds" and that those Audited Bonds were private-activity bonds that did not fall in any of the categories that qualify for tax-exemption. Although the TAMs and the letters to the Village Center CDD from the IRS referred to above are addressed to, and binding only on, the IRS and Village Center CDD in connection with the Audited Bonds, they reflect the audit position of the IRS, and there can be no assurance that the IRS would not commence additional audits of bonds issued by other community development districts raising issues similar to the issues raised in the case of the Audited Bonds based on the analysis set forth in the first TAM or on the related concerns addressed in the July 14, 2016 letter to the Village Center CDD.

On February 23, 2016, the IRS published proposed regulations designed to provide prospective guidance with respect to potential private business control of issuers by providing a new definition of political subdivision for purposes of determining whether an entity is an appropriate issuer of bonds the interest on which is excluded from gross income for federal tax purposes. The proposed regulations required that a political subdivision (i) have the power to exercise at least one sovereign power, (ii) be formed and operated for a governmental purpose, and (iii) have a governing body controlled by or have significant uses of its funds or assets otherwise controlled by a government unit with all three sovereign powers or by an electorate that is not controlled by an unreasonably small number of unrelated electors. On October 4, 2017, the Treasury Department ("Treasury") announced that it would withdraw the proposed regulations, stating that, "while Treasury and the IRS continue to study the legal issues relating to political subdivisions, Treasury and the IRS may propose more targeted guidance in the future after further study of the relevant legal issues." Notice of withdrawal of the proposed regulations was published in the Federal Register on October 20, 2017.

It has been reported that the IRS has closed audits of other community development districts in the State with no change to such districts' bonds' tax-exempt status, but has advised such districts that such districts must have public electors within the timeframe established by the applicable state law or their bonds may be determined to be taxable retroactive to the date of issuance. Pursuant to the Act, general elections for "compact, urban, mixed-use districts" are not held until the later of ten years from the date of establishment of the community development district or the time at which there are at least 500 qualified electors in the district. The District, unlike Village Center CDD, was formed with the intent that it will contain a sufficient number of residents to allow for a transition to control by a general electorate. Currently, all of the members of the Board of the District were elected by the landowners and none were elected by qualified electors. The Landowners will certify as to their expectations as to the timing of the transition of control of the Board of the District to qualified electors pursuant to the Act. Such certification by the Landowners does not ensure that such certification shall be determinative of, or may influence the outcome of any audit by the IRS, or any appeal from such audit, that may result in an adverse ruling that the District

is not a political subdivision for purposes of Section 103(a) of the Code. Further, there can be no assurance that an audit by the IRS of the Series 2025 Bonds will not be commenced. The District has no reason to believe that any such audit will be commenced, or that any such audit, if commenced, would result in a conclusion of noncompliance with any applicable State or federal law.

Owners of the Series 2025 Bonds are advised that, if the IRS does audit the Series 2025 Bonds, under its current procedures, at least during the early stages of an audit, the IRS will treat the District as the taxpayer, and the Owners of the Series 2025 Bonds may have limited rights to participate in those proceedings. The commencement of such an audit could adversely affect the market value and liquidity of the Series 2025 Bonds until the audit is concluded, regardless of the ultimate outcome. In addition, in the event of an adverse determination by the IRS with respect to the tax-exempt status of interest on the Series 2025 Bonds, it is unlikely the District will have available revenues to enable it to contest such determination or enter into a voluntary financial settlement with the IRS. Further, an adverse determination by the IRS with respect to the tax-exempt status of adversely affect the availability of any secondary market for the Series 2025 Bonds. Should interest on the Series 2025 Bonds become includable in gross income for federal income tax purposes, not only will Owners of Series 2025 Bonds be required to pay income taxes on the interest received on such Series 2025 Bonds and related penalties, but because the interest rate on such Series 2025 Bonds will not be adequate to compensate Owners of the Series 2025 Bonds for the income taxes due on such interest, the value of the Series 2025 Bonds may decline.

THE INDENTURE DOES NOT PROVIDE FOR ANY ADJUSTMENT IN THE INTEREST RATES ON THE SERIES 2025 BONDS IN THE EVENT OF AN ADVERSE DETERMINATION BY THE IRS WITH RESPECT TO THE TAX-EXEMPT STATUS OF INTEREST ON THE SERIES 2025 BONDS. PROSPECTIVE PURCHASERS OF THE SERIES 2025 BONDS SHOULD EVALUATE WHETHER THEY CAN OWN THE SERIES 2025 BONDS IN THE EVENT THAT THE INTEREST ON THE SERIES 2025 BONDS BECOMES TAXABLE AND/OR THE DISTRICT IS EVER DETERMINED TO NOT BE A POLITICAL SUBDIVISION FOR PURPOSES OF THE CODE AND/OR SECURITIES ACT (AS HEREINAFTER DEFINED).

### Loss of Exemption from Securities Registration

The Series 2025 Bonds have not been and will not be registered under the Securities Act of 1933, as amended (the "Securities Act"), or any state securities laws, because of the exemption for securities issued by political subdivisions. It is possible that federal or state regulatory authorities could in the future determine that the District is not a political subdivision for purposes of federal and state securities laws, including without limitation as the result of a determination by the IRS, judicial or otherwise, of the District's status for purposes of the Code. In such event, the District and purchasers of Series 2025 Bonds may not be able to rely on the exemption from registration under the Securities Act relating to securities issued by political subdivisions. In that event, the Owners of the Series 2025 Bonds would need to ensure that subsequent transfers of the Series 2025 Bonds are made pursuant to a transaction that is not subject to the registration requirements of the Securities Act and applicable state securities laws.

### **Federal Tax Reform**

Various legislative proposals are mentioned from time to time by members of Congress of the United States of America and others concerning reform of the internal revenue (tax) laws of the United States. In addition, the IRS may, in the future, issue rulings that have the effect of challenging the interpretation of existing tax laws. Certain of these proposals and interpretations, if implemented or upheld, could have the effect of diminishing the value of obligations of states and their political subdivisions, such as the Series 2025 Bonds, by eliminating or changing the tax-exempt status of interest on such bonds.

Whether any such proposals will ultimately become or be upheld as law, and if so, the effect such proposals could have upon the value of bonds such as the Series 2025 Bonds cannot be predicted. However, it is possible that any such law or interpretation could have a material and adverse effect upon the availability of a liquid secondary market and/or the value of the Series 2025 Bonds. Prospective purchasers of the Series 2025 Bonds should consult their tax advisors as to the impact of any proposed or pending legislation. See also "TAX MATTERS" herein.

### **State Tax Reform**

It is impossible to predict what new proposals may be presented regarding tax reform and/or community development districts during upcoming legislative sessions, whether such new proposals or any previous proposals regarding the same will be adopted by the Florida Senate and House of Representatives and signed by the Governor, and, if adopted, the form thereof. On October 31, 2014, the Auditor General of the State released a 31-page report which requests legislative action to establish parameters on the amount of bonds a community development district may issue and provide additional oversight for community development district bonds. This report renewed requests made by the Auditor General in 2011 that led to the Governor of the State issuing an Executive Order on January 11, 2012 (the "Executive Order") directing the Office of Policy and Budget in the Executive Office of the Governor ("OPB") to examine the role of special districts in the State. As of the date hereof, the OPB has not made any recommendations pursuant to the Executive Order nor has the Florida legislature passed any related legislation. It is impossible to predict with certainty the impact that any existing or future legislation will or may have on the security for the Series 2025 Bonds. It should be noted that Section 190.016(14) of the Act provides in pertinent part that "[t]he state pledges to the holders of any bonds issued under this act that it will not limit or alter the rights of the district to ... levy and collect the ... assessments ... and to fulfill the terms of any agreement made with the holders of such bonds ... and that it will not in any way impair the rights or remedies of such holders."

# Insufficient Resources or Other Factors Causing Failure to Complete Development

The cost to finish the Capital Improvement Plan will exceed the net proceeds from the Series 2025 Bonds. There can be no assurance, in the event the District does not have sufficient moneys on hand to complete the Capital Improvement Plan, that the District will be able to raise, through the issuance of additional bonds or otherwise, the moneys necessary to complete the Capital Improvement Plan. Further, the Indenture sets forth certain limitations on the issuance of additional bonds. See "SECURITY FOR AND SOURCE OF PAYMENT OF THE SERIES 2025 BONDS – Additional Bonds" for more information.

Although the Master Developer and the Non-123 Landowners will agree to fund or cause to be funded the completion of the Capital Improvement Plan regardless of the insufficiency of proceeds from the Series 2025 Bonds and will enter into a completion agreement with the District as evidence thereof, there can be no assurance that the Master Developer and the Non-123 Landowners will have sufficient resources to do so. Such obligation of the Master Developer and the Non-123 Landowners is an unsecured obligation, and the Master Developer and the Non-123 Landowners are special-purpose entities whose assets consist primarily of their respective interests in the Development. See "THE MASTER DEVELOPER AND THE LANDOWNERS" herein for more information.

There are no assurances that the Capital Improvement Plan and any other remaining development work associated with the Development or Master Development will be completed. Further, even if the Development is completed, there are no assurances that all of the planned units will be constructed and sold within the Development. See "THE MASTER DEVELOPER AND THE LANDOWNERS" herein for more information.

#### **Pandemics and Other Public Health Emergencies**

The COVID-19 pandemic severely impacted global financial markets, unemployment levels and commerce generally. It is possible that, in the future, the spread of epidemic or pandemic diseases and/or government health and public safety restrictions imposed in response thereto could adversely impact the District, the Master Developer, the Landowners, the timely and successful completion of the Development, and the construction and sale to purchasers of mixed-use units therein. Such impacts could include delays in obtaining development approvals, construction delays, supply chain delays, or increased costs. See also "Economic Conditions and Changes in Development Plans" and "Insufficient Resources or Other Factors Causing Failure to Complete Development" herein.

### Cybersecurity

The District relies on a technological environment to conduct its operations. The District, its agents and other third parties the District does business with or otherwise relies upon are subject to cyber threats including, but not limited to, hacking, viruses, malware and other attacks on computer and other sensitive digital networks and systems. Entities or individuals may attempt to gain unauthorized access to such parties' digital systems for the purposes of misappropriating assets or information or causing operational disruption and damage. No assurances can be given that any such attack(s) will not materially impact the operations or finances of the District, which could impact the timely payment of debt service on the Series 2025 Bonds.

### **Prepayment and Redemption Risk**

In addition to being subject to optional and mandatory sinking fund redemptions, the Series 2025 Bonds are subject to extraordinary mandatory redemption, including, without limitation, as a result of prepayments of the Series 2025 Special Assessments by the Landowners or subsequent owners of the property within the District. Any such redemptions of the Series 2025 Bonds would be at the principal amount of such Series 2025 Bonds being redeemed plus accrued interest to the date of redemption. In such event, owners of the Series 2025 Bonds may not realize their anticipated rate of return on the Series 2025 Bonds and owners of any Premium Bonds (as defined herein) may receive less than the price they paid for the Series 2025 Bonds. See "DESCRIPTION OF THE SERIES 2025 BONDS – Redemption Provisions," "– Purchase of Series 2025 Bonds" and "SECURITY FOR AND SOURCE OF PAYMENT OF THE SERIES 2025 BONDS – Prepayment of Series 2025 Special Assessments" herein for more information.

### Payment of Series 2025 Special Assessments after Bank Foreclosure

In the event a bank forecloses on property because of a default on a mortgage in favor of such bank on any of the Assessable Lands within the District subject to the Series 2025 Special Assessments, and then the bank itself fails, the Federal Deposit Insurance Corporation (the "FDIC"), as receiver, will then become the fee owner of such property. In such event, the FDIC will not, pursuant to its own rules and regulations, likely be liable to pay the Series 2025 Special Assessments levied on such property. In addition, the District would require the consent of the FDIC prior to commencing a foreclosure action.

#### THE DISTRICT

#### **General Information**

The District was established by Ordinance No. 2024-14, enacted by the City Council of the City of Tampa, Florida (the "City") on February 1, 2024, under the provisions of the Act. The boundaries of the District include approximately 29.162 gross acres (the "District Lands") located in the City of Tampa (the "City") within Hillsborough County, Florida (the "County"). The District Lands are located north of the Selmon Expressway, south of E 6<sup>th</sup> Ave, west of N 15<sup>th</sup> St, and east of N Nebraska Ave, at the southwest boundary of Historic Ybor City. The District Lands are being developed as part of an approximately 50-acre master planned mixed-use development to be known as "Gas Worx" (the "Master Development"). See "THE DEVELOPMENT" herein for more information.

### Legal Powers and Authority

The District is an independent unit of local government created pursuant to, and established in accordance with, the Act. The Act was enacted in 1980 to provide a uniform method for the establishment of independent districts to manage and finance basic community development services, including capital infrastructure required for community developments throughout the State of Florida. The Act provides legal authority for community development districts (such as the District) to finance the acquisition, construction, operation and maintenance of the major infrastructure for community development to its general law charter.

Among other provisions, the Act gives the District's Board of Supervisors (the "Board") the authority to, among other things, (a) finance, fund, plan, establish, acquire, construct or reconstruct, enlarge or extend, equip, operate and maintain systems, facilities, and basic infrastructure for, among other things: (i) water management and control for lands within the District and to connect any of such facilities with roads and bridges; (ii) water supply, sewer and waste-water management, reclamation and reuse systems or any combination thereof and to construct and operate connecting intercept or outlet sewers and sewer mains and pipes and water mains, conduits, or pipelines in, along, and under any street, alley, highway, or other public place or ways, and to dispose of any effluent, residue, or other byproducts of such system or sewer system; (iii) District roads equal to or exceeding the specifications of the county in which such District roads are located and street lights, landscaping, hardscaping and undergrounding of electric utility lines; (iv) conservation areas, mitigation areas, and wildlife habitat; (v) any other project, facility, or service required by a development approval, interlocal agreement, zoning condition, or permit issued by a governmental authority with jurisdiction in the District, and (vi) with the consent of the local generalpurpose government within the jurisdiction of which the power is to be exercised, parks and facilities for indoor and outdoor recreational uses, and security; (b) borrow money and issue bonds of the District; (c) impose and foreclose special assessments liens as provided in the Act; and (d) exercise all other powers, necessary, convenient, incidental or proper in connection with any of the powers or duties of the District stated in the Act.

The Act does not empower the District to adopt and enforce any land use plans or zoning ordinances and the Act does not empower the District to grant building permits. These functions are to be performed by general purpose local governments having jurisdiction over the lands within the District.

The Act exempts all property owned by the District from levy and sale by virtue of an execution and from judgment liens, but does not limit the right of any bondholders to pursue any remedy for enforcement of any lien or pledge of the District in connection with its bonds, including the Series 2025 Bonds.

#### **Board of Supervisors**

The Act provides that a five-member Board serves as the governing body of the District. Members of the Board (the "Supervisors") must be residents of the State and citizens of the United States. Initially, the Supervisors were appointed in the Ordinance. Within 90 days after formation of the District, an election was held pursuant to which new Supervisors were elected on an at-large basis by the owners of the property within the District. Ownership of land within the District entitles the owner to one vote per acre (with fractions thereof rounded upward to the nearest whole number). A Supervisor serves until expiration of his or her term and until his or her successor is chosen and qualified. If, during a term of office, a vacancy occurs, the remaining Supervisors may fill the vacancy by an appointment of an interim Supervisor for the remainder of the unexpired term.

At the initial election held within 90 days after formation of the District, the landowners in the District elected two Supervisors to four-year terms and three Supervisors to two-year terms. Thereafter, the elections take place every two years, with the first such election being held on the first Tuesday in November, and subsequent elections being held on a date in November established by the Board. Upon the later of ten years after the initial appointment of Supervisors and the year when the District next attains at least 500 qualified electors, Supervisors whose terms are expiring will begin to be elected (as their terms expire) by qualified electors of the District. A qualified elector is a registered voter who is at least eighteen years of age, a resident of the District and the State and a citizen of the United States. At the election where Supervisors are first elected by qualified electors, two Supervisors must be qualified electors and be elected to four-year terms. The seat of the remaining Supervisor whose term is expiring at such election shall be filled by a Supervisor who is elected by the landowners for a four-year term and who is not required to be a qualified elector. Thereafter, as terms expire, all Supervisors must be qualified electors and must be elected by qualified electors to serve staggered four-year terms.

Notwithstanding the foregoing, if at any time the Board proposes to exercise its ad valorem taxing power, prior to the exercise of such power, it shall call an election at which all Supervisors shall be elected by qualified electors in the District. Elections subsequent to such decision shall be held in a manner such that the Supervisors will serve four-year terms with staggered expiration dates in the manner set forth in the Act.

The Act provides that it shall not be an impermissible conflict of interest under Florida law governing public officials for a Supervisor to be a stockholder, officer or employee of a landowner or of any entity affiliated with a landowner.

The current members of the Board and the expiration of the term of each member are set forth below:

<u>Name</u>	<u>Title</u>	<u>Term Expires</u>
Darryl Shaw*	Chairman	November 2028
Graham Tyrrell*	Vice Chairman	November 2028
Tee Ann Bailey*	Assistant Secretary	November 2026
Rhonda Nelson*	Assistant Secretary	November 2026
Vacant*	Assistant Secretary	N/A

\* Employee of, or affiliated with, the Master Developer and the Landowners. It is anticipated that the vacant seat will be filled in the ordinary course with an employee or someone otherwise affiliated with the Master Developer and the Landowners.

A majority of the members of the Board constitutes a quorum for the purposes of conducting its business and exercising its powers and for all other purposes. Action taken by the District shall be upon a

vote of a majority of the members present unless general law or a rule of the District requires a greater number. All meetings of the Board are open to the public under Florida's open meeting or "Sunshine" law.

### The District Manager and Other Consultants

The chief administrative official of the District is the District Manager (as hereinafter defined). The Act provides that a district manager has charge and supervision of the works of the District and is responsible for preserving and maintaining any improvement or facility constructed or erected pursuant to the provisions of the Act, for maintaining and operating the equipment owned by the District, and for performing such other duties as may be prescribed by the Board.

The District has retained Inframark, LLC, Tampa, Florida, to serve as its district manager ("District Manager"). The District Manager's office is located at 2005 Pan Am Circle, Suite 300, Tampa, Florida 33607.

The Act further authorizes the Board to hire such employees and agents as it deems necessary. Thus, the District has employed the services of Greenberg Traurig, P.A., West Palm Beach, Florida, as Bond Counsel; Stantec Consulting Services Inc., Tampa, Florida, as District Engineer; and Straley Robin Vericker P.A., Tampa, Florida, as District Counsel. The Board has also retained the District Manager to serve as Methodology Consultant and to prepare the Assessment Methodology and to serve as Dissemination Agent for the Series 2025 Bonds.

### No Outstanding Bond Indebtedness

The District has not previously issued any bonds or other similar debt obligations.

#### THE CAPITAL IMPROVEMENT PLAN

Stantec Consulting Services Inc. (the "District Engineer") prepared the Master Report of the District Engineer for Gas Worx Community Development District, dated August 28, 2024 and as revised March 4, 2025 (the "Engineer's Report"), which sets forth certain public infrastructure improvements necessary for the development of the District Lands (the "Capital Improvement Plan"). The District Lands consist of approximately 29.162 gross acres of land which are planned to contain approximately 3,830 residential units, 169,000 square feet of retail space, and 502,000 square feet of office space. The District Lands are located in the larger Master Development. See "THE DEVELOPMENT" herein for more information.

The Series 2025 Bonds are being issued to finance a portion of the Capital Improvement Plan. It is anticipated that the District will issue an additional Series of Bonds, up to \$29,065,000<sup>\*</sup> in aggregate principal, in the future in order to finance additional portions of the Capital Improvement Plan. Upon issuance of such additional Bonds, the Series 2025 Assessments securing the Series 2025 Bonds and the Assessments securing the additional Bonds will overlap on the same District Lands on a co-equal lien status and, upon assignment, to the same units. See "SECURITY FOR AND SOURCE OF PAYMENT OF THE SERIES 2025 BONDS –Additional Bonds" herein for more information.

The District Engineer, in the Engineer's Report, estimated the total approximate cost of the District's Capital Improvement Plan to be \$54,440,907, as more particularly described in the following table and described in more detail in the Engineer's Report attached hereto as Appendix C.

Description	<u>Total</u>
Soil Testing and Dewatering	\$ 840,000

Total:	\$54,440,907

Land development associated with the District Lands commenced in April 2024 and will be phased. See "THE DEVELOPMENT" for more information. The total land development cost for the Development is expected to be approximately \$75 million. As of March 24, 2025, approximately \$16.5 million has been spent toward land development associated with the Development. The available net proceeds from the Series 2025 Bonds to be deposited in the Series 2025 Acquisition and Construction Account are expected to be approximately \$30.8 million\* and such proceeds will be used by the District towards the construction and/or acquisition of a portion of the Capital Improvement Plan from the Master Developer or the Landowners. Costs not funded by the Series 2025 Bonds will be funded from equity, loan proceeds and/or an additional series of bonds. The Master Developer and the Non-123 Landowners will enter into a completion agreement at closing on the Series 2025 Bonds whereby they agree to complete the Capital Improvement Plan. See "ASSESSMENT METHODOLOGY AND THE ALLOCATION OF

<sup>\*</sup> Preliminary, subject to change.

ASSESSMENTS," "THE DEVELOPMENT – Taxes, Fees and Assessments" and "BONDOWNERS' RISKS – Insufficient Resources or Other Factors Causing Failure to Complete Development" herein.

The District Engineer has indicated that all permits known to be required for construction of the Capital Improvement Plan's main infrastructure have either been received or are reasonably expected to be received within the normal course of construction plan development, permit applications and processing. "APPENDIX C: ENGINEER'S REPORT" for more information regarding permits and the above improvements. In addition to the Engineer's Report, please refer to "THE DEVELOPMENT – Development Approvals" for a more detailed description of the zoning and permitting status of the Development.

Set forth below is a depiction of the District Lands; provided, however, parcels W1 and W2 are not within the District.

### ASSESSMENT METHODOLOGY AND THE ALLOCATION OF ASSESSMENTS

The Master Assessment Methodology Report dated August 21, 2024 (the "Master Assessment Methodology"), as supplemented by the Preliminary First Supplemental Special Assessment Methodology Report dated December 19, 2024 (the "Supplemental Assessment Methodology" and together with the Master Assessment Methodology, the "Assessment Methodology"), which allocates the Series 2025 Special Assessments to certain lands in the District, has been prepared by Inframark, LLC, Tampa, Florida (the "Methodology Consultant"). See "EXPERTS" herein for more information. The Assessment Methodology is included herein as APPENDIX D. Once the final terms of the Series 2025 Bonds are determined, the Supplemental Methodology will be revised to reflect such final terms. Once levied and imposed, the Series 2025 Special Assessments will be first liens on those certain lands within the District of the District against which they are assessed until paid or barred by operation of law, co-equal with other taxes and assessments levied by the District and other units of government. See "ENFORCEMENT OF ASSESSMENT COLLECTIONS" herein.

The Series 2025 Bonds will be secured by the Series 2025 Pledged Revenues, which consist primarily of the Series 2025 Assessments. The Series 2025 Assessments will initially be assigned to the approximately 20.231 acres in the District owned by the Landowners (the "Assessable Lands"). The remaining approximately 8.931 acres are City-owned rights of way, park, etc. that are nonassessable. The Series 2025 Assessments will initially be assigned on a per-acre basis by folio number and once parcels are improved to contain structures that have received certificates of completion/occupancy, Series 2025 Assessments will be allocated to the parcels based on the type of vertical development use as set forth below and described in more detail in the Assessment Methodology. It is anticipated that the District will issue an additional Series of Bonds, up to \$29,065,000 in aggregate principal, in the future in order to finance additional portions of the Capital Improvement Plan. Such Bonds, when issued, will be secured by special assessments levied on the same lands subject to the Series 2025 Assessments on a co-equal lien status with the Series 2025 Assessments. See "SECURITY FOR AND SOURCE OF PAYMENT OF THE SERIES 2025 BONDS – Additional Bonds" herein for more information. The following table sets forth the expected ultimate assignment of the Series 2025 Assessments and future special assessments for an additional Series of Bonds to completed units in the District. See "APPENDIX D: ASSESSMENT METHODOLOGY" attached hereto for more information.

\* Preliminary, subject to change. The Series 2025 Assessments and Future Assessments shown above do not include a gross up for estimated costs of collection or early payment discounts. The Future Assessments and Future Principal Per Unit set forth above assume the issuance of an additional Series of Bonds in the aggregate initial principal amount of \$29,065,000, all of which are subject to change based on future market conditions and interest rates. Upon issuance of such additional Bonds, the Series 2025 Assessments securing the Series 2025 Bonds and the Assessments securing the additional Bonds will overlap on the same District Lands on a co-equal lien status. See "SECURITY FOR AND SOURCE OF PAYMENT OF THE SERIES 2025 BONDS – Additional Bonds" for more information.

The District anticipates levying assessments to cover its operation and administrative costs that are initially expected to be approximately \$100,000 per year. There will also be property association fees associated with properties in the District. The land within the District has been and will continue to be subject to taxes and assessments imposed by taxing authorities other than the District. The City, the County and the School Board each levy ad valorem taxes annually upon the land in the District. Voters may approve additional millages levied for general obligation bonds, as to which no limit applies. The total millage rate in the District in 2024 was approximately 19.0437 mills, which is subject to change in future tax years. These taxes will be payable in addition to the Series 2025 Assessments and other assessments levied by the District. The District has no control over the level of ad valorem taxes and/or special assessments levied by other taxing authorities. It is possible that in future years, taxes levied by these other entities could be substantially higher than in the current year.

The following information is provided by the Master Developer and the Landowners as a means for the prospective bondholders to understand the anticipated development plan and risks associated with the Development. The Master Developer and the Landowners are not guaranteeing payment of the Series 2025 Bonds or the Series 2025 Special Assessments.

### THE DEVELOPMENT

### General

The District Lands encompass approximately 29.162 gross acres located in the City of Tampa (the "City") within Hillsborough County, Florida (the "County") and contain a portion of an approximately 50acre master planned mixed-use development planned for approximately 5,195 residential units, 169,000 square feet of retail space, 510,400 square feet of office space, and a City park to be known as "Gasworx" (the "Master Development"). The portion of the Master Development located within the boundaries of the District is planned to contain approximately: 3,830 residential units, 169,000 square feet of retail space, 502,000 square feet of office space, and the City park (the "Development"). A portion of the Master Development, located outside the boundaries of the District, are constructed and contain a 317 unit apartment building, 2,500 square feet of retail and a 400 space parking garage. This was completed in September 2024 and the multifamily portion is approximately 60% leased and is expected to be at stabilized occupancy by the end of 2025. A second building outside of the boundaries of the District also commenced construction in April 2024 and contains another 390 apartment units, 8,000 square feet of retail and a 480 space parking garage. This building will be completed in mid-2026.

The Master Development is located north of the Selmon Expressway, south of East 6<sup>th</sup> Ave, west of North 15<sup>th</sup> St, and east of North Nebraska Ave, at the southwest boundary of Historic Ybor City, in close proximity to Downtown Tampa and the Channel District, which is the City's main employment hub and which contains numerous attractions such as the Florida Aquarium, Port Tampa Bay (the launching point for cruise lines), the University of Tampa, various museums, and the Amalie Arena – which is home to the National Hockey League team the Tampa Bay Lightning and is frequently used as the City's main indoor concert venue for major international touring musicians. Significant capital has been invested into growing and revitalizing Downtown Tampa as well as the nearby area known as The Heights – a once blighted and mostly vacant parcel of riverfront land which is now one of the City's most popular entertainment attractions. A portion of the land near Amalie Arena was acquired by entities controlled by Jeff Vinik over a decade ago and significant capital has been expended redeveloping this area into a vibrant live-work entertainment destination, including Water Street.

Ybor City was founded in the 1880's as a hub for the nation's cigar manufacturing industry. Ybor City, along the main commercial thoroughfare, 7<sup>th</sup> Avenue, which is two blocks north of the Master Development, has evolved into an entertainment district, and many old buildings have been renovated for new uses including, retail, office, hotels, and residences. Ybor City has been designated as a National Historic Landmark District and several structures in the area are listed in the National Register of Historic Places.

The following image depicts the location of the Master Development. The Master Development includes all of the green shading denoted by "GaxWorx" below with the darker green shading representing the first planned phases of development.

Ybor City, which offers an eclectic mix of history and experiences for patrons and visitors, is ideally situated near Downtown Tampa. The Master Development is intended to unlock the opportunity to offer a live, work and entertainment destination within an area which has rich history and character. The historic street grid was established before cars and naturally creates a dense urban feel and walkability. The Master Development intends to infill these parcels with a mix of uses and open spaces that, in combination, will offer a truly pedestrian friendly neighborhood. The masterplan for the Master Development extends and reconnects existing street grids which increases accessibility between Ybor City, Channel District, Water Street, and Downtown Tampa. Additionally, a new TECO Streetcar stop will be constructed within the Master Development which will provide accessibility to these surrounding areas.

The vision and potential of the Master Development, which has been in the planning stages for six years, has been recognized by and well received by local government. The Master Development has received all entitlements and the rezoning was unanimously approved by the City in September 2022. Portions of the Master Development are located in three of the City's Community Redevelopment Areas, including the Downtown CRA, the Ybor City 2 CRA, and the Central Park CRA (collectively, the "CRA Lands"). The CRA is expected to commit to reimbursing the District for public improvements and the District is expected to enter into an agreement with the City and the CRA (as defined herein) to receive TIF Revenues in an amount not to exceed \$32.3 million. A maximum of \$32.3 million in TIF Revenues are expected to be received over the life of the Master Development. The District's rights to receive TIF Revenues under the Interlocal Agreement are subject to the availability of TIF Revenues. See "The CRA and the CRA Lands" herein for more information. These expected revenues are not security for the Series 2025 Bonds. See also "BONDOWNERS' RISKS – Uncertainty of TIF Revenues."

The main attraction for the Master Development will be the conversion of an existing brick warehouse with barrel-vault roof into a 30,000 square foot culinary hub with restaurants and a marketplace. The building will also offer outdoor seating areas and a pedestrian street which is intended to be programmed with markets, festivals and other events. Surrounding the market building will be approximately 516 residential apartment units, 50,000 square feet of first floor retail, a new 100,000 square foot office building (which is already 50% preleased), and a new City park. At completion, the Master Development will be a modernized live, work, entertainment destination.

The Series 2025 Bonds are being issued to finance a portion of the Capital Improvement Plan. The Series 2025 Bonds will be secured by the Series 2025 Pledged Revenues, which consist primarily of the Series 2025 Assessments. The Series 2025 Assessments will initially be assigned to the approximately 20.231 acres in the District owned by the Landowners (the "Assessable Lands"). The remaining approximately 8.931 acres are City-owned rights of way, park, etc. that are nonassessable. The Series 2025 Assessments will initially be assigned on a per-acre basis by folio number and once parcels are improved to contain structures that have received certificates of completion/occupancy, Series 2025 Assessments will be allocated to the parcels based on the type of vertical development use as set forth in the Assessment Methodology. See "ASSESSMENT METHODOLOGY AND THE ALLOCATION OF ASSESSMENTS" and "- Taxes, Fees and Assessments" herein for more information.

It is anticipated that the District will issue an additional Series of Bonds, up to \$29,065,000<sup>\*</sup> in aggregate principal, in the future in order to finance additional portions of the Capital Improvement Plan. Upon issuance of such additional Bonds, the Series 2025 Assessments securing the Series 2025 Bonds and the Assessments securing the additional Bonds will overlap on the same District Lands on a co-equal lien status. See "SECURITY FOR AND SOURCE OF PAYMENT OF THE SERIES 2025 BONDS – Additional Bonds" for more information.

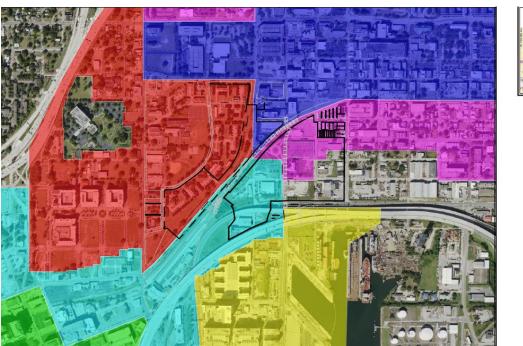

The Master Development is a joint venture being developed by entities owned, controlled by or affiliated with Tampa developer Darryl Shaw and Washington, D.C. based development group Kettler. See "THE MASTER DEVELOPER AND THE LANDOWNERS" herein for more information. The Master Developer plans to install the infrastructure improvements associated with the Development and the Landowners plan to construct, own and lease the planned buildings in the Development. The Landowners may entertain in the future the prospect of selling certain buildings or parcels to other developers/builders.

### The CRA and The CRA Lands

Portions of the Master Development are located within some of the City's Community Redevelopment Areas, including the Downtown CRA, the Ybor City II CRA, and the Central Park CRA (collectively, the "CRA Lands"). Pursuant to that certain Interlocal Agreement dated April 2, 2025 by the District, the City, and the Community Redevelopment Agency of the City of Tampa (the "CRA" acting on behalf of the separate community redevelopment areas within the boundaries of the District) (the "Interlocal Agreement"), the District will be entitled to receive TIF Revenues in an amount not to exceed \$32.3 million for the public infrastructure paid for by the District or the Master Developer. The TIF Revenues will be used by the District for any lawful purpose including land development or payment of debt service. The Landowners estimate the total amount of TIF Revenues to be received under the Interlocal Agreement to be \$32.3 million, but such amount is preliminary and subject to change. The District's rights to receive TIF Revenues under the Interlocal Agreement will be subject to the availability of TIF Revenues generated by the Master Development properties. See "BONDOWNERS' RISKS – Uncertainty of TIF Revenues" herein for more information.

# **Appraised Value**

An Appraisal of Real Property (the "Appraisal Report") was prepared by Integra Realty Resources, Inc., a Florida corporation (the "Appraiser"). As of July 30, 2024, the Appraiser estimated the current "As Is" fee simple market value for the 19.15 developable acres<sup>\*</sup> within the District at the current development status to be approximately \$104.47 million.

The Appraiser further estimates the "Gross Retail Value" for the 19.15 developable acres within the District to be approximately \$125.1 million. "Gross Retail Value" is defined in the Appraisal to mean the sum of the absolute value of all properties sold to individuals at the retail level without consideration for holding costs or the value of time. See "APPENDIX G: APPRAISAL OF REAL PROPERTY" attached hereto for more information.

Neither the District, the Master Developer, the Landowners, nor the Underwriter or its counsel make any representation as to the accuracy, completeness, assumptions, or information contained in the Appraisal Report. The assumptions or qualifications with respect to the Appraisal Report are contained therein. There can be no assurance that any such assumptions will be realized, and the District, the Master Developer, the Landowners, and the Underwriter make no representation as to the reasonableness of such assumptions.

The Appraisal Report sets forth the methodology used to determine the value of the Landowners' property in the District, but there can be no assurance that the Property Appraiser will use the same methodology to determine the assessed values of such lands. ### Land Acquisition and Development and Vertical Finance Plan

#### Land Acquisition

The land within the Master Development has been acquired and aggregated over a period of two years from February 2021 to December 2022. The aggregated purchase price of all the land acquired is approximately \$74.4 million. This includes the 29.162 acres in the District as well as 7.87 additional acres.

There are two mortgage loans outstanding secured by certain lands in the District.

### Land Acquisition Loan

Parcels C2, C3, C4, E4, E5, E6 and E7 secure a land acquisition loan in the original principal amount of \$33.6 million that is held by D VI Delta Acquisitions 2 LLC, an affiliate of Brookfield. As of March 24, 2025, the outstanding principal amount of the loan is approximately \$18.6 million. In addition, a \$5 million curtailment payment is scheduled to be made by May 16, 2025, unless extended by the lender in its sole discretion. Another curtailment of \$15 million is due by April 1, 2026, at which time, it is expected the loan will be paid in full. The loan is interest only for the first 36 months, which is payable monthly. The loan accrues interest at a rate of 5% or the SOFR Index plus 3.75%, whichever is greater, and matures on August 1, 2026, with an option to extend the maturity date by six months. Parcels E1, E2 and E3 were also acquired with the proceeds from this loan but are no longer subject to the loan.

### Construction Loan

Parcels E1, E2, E3, are subject to a construction loan provided by Bank OZK to the 123 Landowners with a maximum principal amount of \$182 million, of which \$1,000 has been drawn and is outstanding as of March 24, 2025. The Bank OZK loan will finance vertical construction associated with parcels E1, E2, and E3. The vertical construction for E1, E2 and E3 consists of 516 residential units, 90,000 square feet of retail uses, and 100,000 square feet of office space. Construction loan draws to the 123 Landowners are expected to commence in the first quarter of 2026. Pursuant to the terms of the Bank OZK loan, the 123 Landowners are required to fund approximately \$211 million of equity towards the E1, E2 and E3 buildings, of which approximately \$187 million is to be cash equity, before any draws under the loan can be made. The amount of equity funded as of March 24, 2025, was approximately \$51.9 million. The construction loan bears interest at a rate of the adjusted SOFR Term Rate plus 3.30% (minimum rate of 6.80%). The construction loan has a maturity date of January 31, 2029, subject to two one-year extension options. Interest only on the construction loan is payable monthly on the outstanding principal balance beginning

on March 10, 2025. Principal payments start at time of maturity date extension and are based on a 30-year amortization.

# Horizontal Land Development

The total land development cost for the Development is expected to be approximately \$75 million. As of March 24, 2025, approximately \$16.5 million has been spent by the Master Developer toward land development associated with the Development, including hard and soft costs. The available net proceeds from the Series 2025 Bonds to be deposited in the Series 2025 Acquisition and Construction Account are expected to be approximately \$30.8 million\* and such proceeds will be used by the District towards the construction and/or acquisition of a portion of the Capital Improvement Plan from the Master Developer or the Landowners. In addition, the District anticipates issuing an additional Series of Bonds in the future to generate net proceeds of approximately \$20.9 million.\* The Master Developer anticipate funding the remaining land development costs for the Development from equity, project cash flow and loan proceeds. The Master Developer and the Non-123 Landowners will enter into a completion agreement at closing on the Series 2025 Bonds whereby they agree to complete the Capital Improvement Plan. See "BONDOWNERS' RISKS – Insufficient Resources or Other Factors Causing Failure to Complete Development" herein.

# **Development Plan / Status**

The Master Developer anticipates that horizontal land development for the various parcels within the Development will generally occur concurrently in phases. Land development for Phase II of the Development commenced in April 2024 and is expected to be mostly completed by late 2026, with the City park to be completed in 2027. All components of Phase II infrastructure will be in-service by the end of 2027.

The initial phase of construction occurred on land which is outside the boundaries of the District and consists of a 317 unit apartment building, 2,500 square feet of retail and a 400 space parking garage. This was completed in September 2024 and the multifamily portion is approximately 60% leased and the retail portion is 100% leased. Stabilization is expected to be in late 2025. A second building, also outside the boundaries of the District, commenced construction in April 2024 and contains another 390 apartment units, 8,000 square feet of retail and a 480 space parking garage. This building will be completed in mid-2026.

The initial phase of vertical construction to occur on land within the boundaries of the District are on parcels E1, E2 and E3. Construction commenced in February 2025 and four buildings are being constructed totaling 515 residential units, 90,000 square feet of retail uses, and 100,000 square feet of office space, with completion expected by late 2026/early 2027. This phase will additionally contain the signature placemaking elements of the Master Development concentrated in the heart of the project including (i) Gasworx Park, a new City park, (ii) The Paseo, a two block pedestrian street that will be lined by outdoor retail and the park, (iii) the Gasworx Market, and (iv) a new Streetcar Stop that will provide easy access to Downtown Tampa and Ybor City.

Parcel E1 is planned to contain a 5-story, 140-unit apartment building, approximately 19,000 square feet of ground floor retail, and a 520-space parking garage. Parcel E1 is centrally located along the northern boundary of the Master Development, just two blocks from 7<sup>th</sup> Avenue.

<sup>\*</sup> Preliminary, subject to change.

Parcel E2 is at the center of the Master Development and contains an existing 1950's single-story warehouse building that will partially be repurposed to become the retail center of the neighborhood. The remaining portion of the building will make way for a newly constructed 100,000 square foot office building. The retail portion of Parcel E2 is expected to contain the 44,000 square feet of uses and will contain the Gasworx Market, which will be a mix of food market, restaurants and retail shops.

Parcel E3 is planned to contain a 10-story, 376-unit highly amenitized apartment building with approximately 27,000 square feet of retail space and a 481-space parking garage. The apartment types in this building are expected to cater to a higher end target market and the building will contain a number of amenities including pool fitness center, den, listening lounge, clubroom, and a large outdoor courtyard located on the 7<sup>th</sup> floor of the building providing expansive views of Downtown Tampa, the newly created city park, and the Historic Ybor City neighborhood.

Construction of Parcels E1, E2 and E3 are being financed by the OZK loan with completion expected by the fourth quarter of 2026 for E1 and E2 and early 2027 for E3. Completion of the office and retail leasing is expected within 12 months of the buildings openings and residential leasing is projected to reach stabilization by end of 2028.

Vertical construction for other parcels will be phased and will be based upon market demand. Set forth below is a chart which depicts the uses planned and timing of vertical construction for each parcel planned within the Development.

This anticipated completion schedule is based upon estimates and assumptions made by the Master Developer and the Landowners that are inherently uncertain, though considered reasonable by the Master Developer and the Landowners, and are subject to significant business, economic, and competitive uncertainties and contingencies, all of which are difficult to predict and many of which are beyond the control of the Landowners. As a result, there can be no assurance such absorption rate will occur or be realized in the time frame anticipated.

### **Development Approvals**

The District lands were rezoned in September 2022 and the Master Development is currently zoned for the contemplated uses described herein. As part of the rezoning, the Master Developer and the City entered into a Development Agreement and the Infrastructure Improvements Agreement that outline the infrastructure improvements. Additionally, a Bonus Provision Agreement, which increased the aggregate density across the Master Development in return for 325 units of affordable housing with 50% at rents at or below 80% of the area median income (the "AMI") for the Tampa-St. Petersburg-Clearwater Metropolitan Statistical Area (the "Tampa MSA") and 50% at rents at or below 120% of the AMI for the Tampa MSA. The affordable units will be distributed throughout the Master Development.

Finally, conditions on the rezoning site plan address payment of the City's utility impact fees, which are formulaic based on water usage of equivalent residential units, payment of the City's Multi-Modal Transportation Impact Fees and Transportation Mitigation fees and payment of County school fees. Utility fees will be due at the time of permit issuance and transportation and school fees will be due at the time certificates of occupancy are to be issued. No impact fees are due in connection with the horizontal development.

The Master Developer and the Landowners have received all approvals and permits necessary to construct the Phase II portion of the Capital Improvements Plan. All permits known to be required for construction of the remaining portions of the Development have either been received or are reasonably expected to be received within the normal course of construction plan development, permit applications and processing.

### Environmental

Certain properties within the District Lands have been the subject of extensive environmental investigation and rehabilitation in connection with environmental regulatory procedures and mechanisms overseen by state and local regulators. Also, all of the properties within the District Lands have been the subject of standard environmental due diligence investigations consisting of Phase I and Phase II Environmental Site Assessments (collectively, the "ESAs") conducted by either Master Developer or its affiliate.

Like most urban areas, the vicinity of the District Lands is characterized by extensive historical development that commonly leads to the need to address legacy environmental issues. Currently, there are two active "contaminated sites" (as such term is defined at Fla. Stat. § 376.79(7), "Sites") within the District Lands that are undergoing regulatory rehabilitation. Both Sites are enrolled in Florida's Brownfields Program, a voluntary program that provides desirable incentives and protections for the responsible parties, including (i) substantial public financial contribution to rehabilitation costs, up to 75% of eligible costs; (ii) a robust statutory liability protection against certain third party environmental claims; and (iii) access to an assortment of other public funding mechanisms and opportunities.

The first Site is the "North Channelside Drive Redevelopment Site." Contamination on this Site is derived from historical use of the property as a manufactured gas plant. TECO is the party responsible for rehabilitating this Site and continues to conduct rehabilitation pursuant to a Brownfields Site Rehabilitation Agreement ("BSRA"). The Master Developer and/or its affiliates have certain contractual obligations to cooperate in facilitating this rehabilitation, including constructing asphalt caps on certain property, which occurred in 2024, subject to a financial contribution from TECO funds held in escrow. Investigation of contaminated groundwater is ongoing, including investigation of offsite properties onto which contamination may have migrated.

The second is the "Ybor Gateway Redevelopment Area." Contamination on this Site is derived primarily from historical unpermitted landfilling activity. The presence of buried debris has similarly been documented in many areas throughout Ybor City. Environmental investigation of this Site is ongoing.

Additional properties within the District Lands may require environmental investigation and rehabilitation in the future. If so, these properties are likely eligible to be enrolled in the Brownfields

Program as well. The endpoint of environmental rehabilitation is a site rehabilitation completion order ("SRCO"), or a no further assessment ("NFA") letter or similar document, in the event only a portion of a Site can be addressed due to practical or logistical difficulties (i.e., the responsible party controls only a portion of the real estate constituting the Site). As is common, Sites within the District Lands are likely to be finalized in reliance on institutional controls and/or engineering controls that restrict user access to any contaminated media in perpetuity.

Development of solid waste filled areas in the County requires a Director's Authorization ("DA") pursuant to the rules of the Hillsborough County Environmental Protection Commission ("HCEPC"). The DA constitutes a construction authorization that places certain conditions on the construction related to handling and management of buried debris, geotechnical considerations, landfill gas monitoring and mitigation requirements, and other related requirements. At this time four DAs have been procured: (i) EPC/DA-OLC-072224 governing redevelopment of Parcel E1; (ii) EPC/DA-OLC-061124 governing redevelopment of Parcel E2; (iii) EPC/DA-OLC-080524 governing redevelopment of Parcel E3; and (iv) EPC/DA-OLC-031924 governing infrastructure work throughout certain portions of the District Lands.

The horizontal land development under the Capital Improvement Plan is being performed largely in public right of way. Excavation for new utilities and the like does require management of soil and water during construction and pursuant to a DA. The Developer estimates the total cost of the cleanup associated with Parcels E1, E2, E3, E4, E5, E6 and E7 to be between \$1.7 million and \$6.4 million, associated with Parcels C2, C3 and C4 to be between \$275,000 and \$1.25 million, and associated with Parcels W1, W2, W3, W4 and W5 to be between \$250,000 and \$1 million. Parcels W1 and W2 are located outside of the District boundaries.

See "BONDOWNERS' RISK – Environmental and Regulatory Risks" herein for more information regarding potential environmental risks.

### Amenities

Each of the residential buildings within the Development are expected to be equipped with, or have access to, various amenities including pools, fitness, courtyards, club rooms, co-working space, bike rooms, and on-site professional management, maintenance and front desk service. In addition, the Development is planned to contain a one-acre open space City park containing open lawn, tree-lined promenades, shaded seating areas and on-site concessions buildings., which is expected to be a main attraction point for the Development. Construction of the City park is expected to commence in 2026 and is expected to be completed by mid to late 2027.

# Utilities

Potable water and sanitary sewer services for the Development are expected to be provided by the City. Electric power is expected to be provided by TECO. All utility services are available to the Development and are being increased or extended as part of the Capital Improvement Plan.

### **Taxes, Fees and Assessments**

The Series 2025 Bonds will be secured by the Series 2025 Pledged Revenues, which consist primarily of the Series 2025 Assessments. The Series 2025 Assessments will initially be assigned to the approximately 20.231 acres in the District owned by the Landowners (the "Assessable Lands"). The remaining approximately 8.931 acres are City-owned rights of way, park, etc. that are nonassessable. The Series 2025 Assessments will initially be assigned on a per-acre basis by folio number and once parcels are improved to contain structures that have received certificates of completion/occupancy, Series 2025

Assessments will be allocated to the parcels based on the type of vertical development use as set forth below and described in more detail in the Assessment Methodology. It is anticipated that the District will issue an additional Series of Bonds, up to \$29,065,000\* in aggregate principal, in the future in order to finance additional portions of the Capital Improvement Plan. Such Bonds, when issued, will be secured by special assessments levied on the same lands subject to the Series 2025 Assessments on a co-equal lien status with the Series 2025 Assessments. See "SECURITY FOR AND SOURCE OF PAYMENT OF THE SERIES 2025 BONDS – Additional Bonds" herein for more information. The following table sets forth the expected ultimate assignment of the Series 2025 Assessments and future special assessments for an additional Series of Bonds to completed units in the District. See "APPENDIX D: ASSESSMENT METHODOLOGY" attached hereto for more information.

<b>Total Commercial</b>	(671)						

\* Preliminary, subject to change. The Series 2025 Assessments and Future Assessments shown above do not include a gross up for estimated costs of collection or early payment discounts. The Future Assessments and Future Principal Per Unit set forth above assume the issuance of an additional Series of Bonds in the aggregate initial principal amount of \$29,065,000, all of which are subject to change based on future market conditions and interest rates. Upon issuance of such additional Bonds, the Series 2025 Assessments securing the Series 2025 Bonds and the Assessments securing the additional Bonds will overlap on the same District Lands on a co-equal lien status. See "SECURITY FOR AND SOURCE OF PAYMENT OF THE SERIES 2025 BONDS – Additional Bonds" for more information.

The District anticipates levying assessments to cover its operation and administrative costs that are initially expected to be approximately \$100,000 per year. There will also be property association fees associated with properties in the District. The land within the District has been and will continue to be subject to taxes and assessments imposed by taxing authorities other than the District. The City, the County and the School Board each levy ad valorem taxes annually upon the land in the District. Voters may approve additional millages levied for general obligation bonds, as to which no limit applies. The total millage rate in the District in 2024 was approximately 19.0437 mills, which is subject to change in future tax years. These taxes will be payable in addition to the Series 2025 Assessments and other assessments levied by the District. The District has no control over the level of ad valorem taxes and/or special assessments levied by other taxing authorities. It is possible that in future years, taxes levied by these other entities could be substantially higher than in the current year.

# Competition

The Development is expected to compete with other mixed-use projects in Downtown Tampa, the Heights, and the greater Tampa Bay area generally.

# Master Developer and Landowners Agreements

The Master Developer and the Non-123 Landowners will enter into a completion agreement that will obligate the Master Developer and the Non-123 Landowners to complete the Capital Improvement Plan. In addition, the Master Developer and the Non-123 Landowners will execute and deliver to the District

<sup>\*</sup> Preliminary, subject to change.

a Collateral Assignment and Assumption of Development Rights (the "Collateral Assignment"), pursuant to which the Master Developer and the Non-123 Landowners will collaterally assign to the District, to the extent assignable and to the extent that they are solely owned or controlled by the Master Developer or Non-123 Landowners certain development permits relating to the Capital Improvement Plan to complete the Capital Improvement Plan. However, the mortgagees may have, or will have, certain development permits and other rights assigned to them under the terms of their respective mortgages relating to portions of the District, which may be superior to such rights that might otherwise be assigned to the District under the terms of the Collateral Assignment. See "Land Acquisition and Development and Vertical Finance Plan" herein. Notwithstanding such Collateral Assignment, in the event the District forecloses on the lands subject to the Series 2025 Assessments as a result of a Landowner's or subsequent landowner's failure to pay such assessments, there is a risk that the District, or its designee, if any, will not have all of the permits and entitlements necessary to complete the Capital Improvement Plan or the Development. Finally, the Landowners will enter into a True-Up Agreement in connection with their obligations to pay true-up payments in the event that debt levels remaining on the Assessable Lands in the District that have not been completed increase above the maximum debt levels set forth in the Assessment Methodology. See "APPENDIX D: ASSESSMENT METHODOLOGY" herein for additional information regarding the "trueup mechanism." Such obligations of the Master Developer and the Landowners are unsecured obligations, and the Master Developer and the Landowners are special-purpose entities whose assets consist primarily of their respective interests in the District. See "BONDOWNERS' RISKS - Insufficient Resources or Other Factors Causing Failure to Complete Development" and "THE MASTER DEVELOPER AND THE LANDOWNERS" herein for more information regarding the Master Developer and the Landowners.

# TAX MATTERS

### General

The Internal Revenue Code of 1986, as amended (the "Code"), includes requirements that the District, the Master Developer and the Landowners must continue to meet after the issuance of the Series 2025 Bonds in order that the interest on the Series 2025 Bonds be and remain excludable from gross income for federal income tax purposes. The District's, the Master Developer's, and the Landowners' failure to meet these requirements may cause the interest on the Series 2025 Bonds to be included in gross income for federal income tax purposes retroactively to the date of issuance of the Series 2025 Bonds. The District has covenanted in the Indenture to take the actions required by the Code in order to maintain the exclusion from gross income for federal income tax purposes of interest on the Series 2025 Bonds.

In the opinion of Greenberg Traurig, P.A., Bond Counsel, assuming the accuracy of certain representations and certifications and continuing compliance by the District with the tax covenants referred to above, under existing statutes, regulations, rulings, and court decisions, the interest on the Series 2025 Bonds is excludable from gross income of the holders thereof for federal income tax purposes; and, further, interest on the Series 2025 Bonds is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals. In the case of the alternative minimum tax imposed by Section 55(b)(2) of the Code on applicable corporations (as defined in Section 59(k) of the Code), interest on the Series 2025 Bonds is not excluded from the determination of adjusted financial statement income. Bond Counsel is further of the opinion that the Series 2025 Bonds and the interest thereon are not subject to taxation under the laws of the State, except as to estate taxes and taxes under Chapter 220, Florida Statutes, on interest, income, or profits on debt obligations owned by corporations as defined in said Chapter 220. Bond Counsel will express no opinion as to any other tax consequences regarding the Series 2025 Bonds. Prospective purchasers of the Series 2025 Bonds should consult their own tax advisors as to the status of interest on the Series 2025 Bonds under the tax laws of any state other than the State.

The above opinion on federal tax matters with respect to the Series 2025 Bonds will be based on and will assume the accuracy of certain representations and certifications of the District and the Master Developer, and compliance with certain covenants of the District to be contained in the transcript of proceedings and that are intended to evidence and assure the foregoing, including that the Series 2025 Bonds will be and will remain obligations the interest on which is excludable from gross income for federal income tax purposes. Bond Counsel will not independently verify the accuracy of those certifications and representations. Bond Counsel will express no opinion as to any other consequences regarding the Series 2025 Bonds.

Except as described above, Bond Counsel will express no opinion regarding the federal income tax consequences resulting from the receipt or accrual of the interest on the Series 2025 Bonds, or the ownership or disposition of the Series 2025 Bonds. Prospective purchasers of Series 2025 Bonds should be aware that the ownership of Series 2025 Bonds may result in other collateral federal tax consequences, including (i) the denial of a deduction for interest on indebtedness incurred or continued to purchase or carry the Series 2025 Bonds, (ii) the reduction of the loss reserve deduction for property and casualty insurance companies by the applicable statutory percentage of certain items, including the interest on the Series 2025 Bonds, (iii) the inclusion of the interest on the Series 2025 Bonds in the earnings of certain foreign corporations doing business in the United States for purposes of a branch profits tax, (iv) the inclusion of the interest on the Series 2025 Bonds in the passive income subject to federal income taxation of certain Subchapter S corporations with Subchapter C earnings and profits at the close of the taxable year, (v) the inclusion of interest on the Series 2025 Bonds in the determination of the taxability of certain Social Security and Railroad Retirement benefits to certain recipients of such benefits, (vi) net gain realized upon the sale or other disposition of property such as the Series 2025 Bonds generally must be taken into account when computing the Medicare tax with respect to net investment income or undistributed net investment income, as applicable, imposed on certain high income individuals and specified trusts and estates and (vii) receipt of certain investment income, including interest on the Series 2025 Bonds, is considered when determining qualification limits for obtaining the earned income credit provided by Section 32(a) of the Code. The nature and extent of the other tax consequences described above will depend on the particular tax status and situation of each owner of the Series 2025 Bonds. Prospective purchasers of the Series 2025 Bonds should consult their own tax advisors as to the impact of these and any other tax consequences.

Bond Counsel's opinion is based on existing law, which is subject to change. Such opinion is further based on factual representations made to Bond Counsel as of the date of issuance of the Series 2025 Bonds. Bond Counsel assumes no duty to update or supplement its opinion to reflect any facts or circumstances that may thereafter come to Bond Counsel's attention, or to reflect any changes in law that may thereafter occur or become effective. Moreover, Bond Counsel's opinion is not a guarantee of a particular result, and is not binding on the IRS or the courts; rather, such opinion represents Bond Counsel's professional judgment based on its review of existing law, and in reliance on the representations and covenants that it deems relevant to such opinion.

### **Original Issue Discount and Premium**

Certain of the Series 2025 Bonds ("Discount Bonds") may be offered and sold to the public at an original issue discount ("OID"). OID is the excess of the stated redemption price at maturity (the principal amount) over the "issue price" of a Discount Bond determined under Code Section 1273 or 1274 (*i.e.*, for obligations issued for money in a public offering, the initial offering price to the public (other than to bond houses and brokers) at which a substantial amount of the obligation of the same maturity is sold pursuant to that offering). For federal income tax purposes, OID accrues to the owner of a Discount Bond over the period to maturity based on the constant yield method, compounded semiannually (or over a shorter permitted compounding interval selected by the owner). The portion of OID that accrues during the period of ownership of a Discount Bond (i) is interest excludable from the owner's gross income for federal income tax purposes to the same extent, and subject to the same considerations discussed above, as other interest on the Series 2025 Bonds, and (ii) is added to the owner's tax basis for purposes of determining gain or loss on the maturity, redemption, prior sale, or other disposition of that Discount Bond.

Certain of the Series 2025 Bonds ("Premium Bonds") may be offered and sold to the public at a price in excess of their stated redemption price (the principal amount) at maturity (or earlier for certain Premium Bonds callable prior to maturity). That excess constitutes bond premium. For federal income tax purposes, bond premium is amortized over the period to maturity of a Premium Bond, based on the yield to maturity of that Premium Bond (or, in the case of a Premium Bond callable prior to its stated maturity, the amortization period and yield may be required to be determined on the basis of an earlier call date that results in the lowest yield on that Premium Bond), compounded semiannually (or over a shorter permitted compounding interval selected by the owner). No portion of that bond premium is deductible by the owner of a Premium Bond. For purposes of determining the owner's gain or loss on the sale, redemption (including redemption at maturity), or other disposition of a Premium Bond, the owner's tax basis in the Premium Bond is reduced by the amount of bond premium that accrues during the period of ownership. As a result, an owner may realize taxable gain for federal income tax purposes from the sale or other disposition of a Premium Bond for an amount equal to or less than the amount paid by the owner for that Premium Bond.

Owners of Discount and Premium Bonds should consult their own tax advisers as to the determination for federal income tax purposes of the amount of OID or bond premium properly accruable in any period with respect to the Discount or Premium Bonds and as to other federal tax consequences, and the treatment of OID and bond premium for purposes of state and local taxes on, or based on, income.

# Changes in Federal and State Tax Law

From time to time, there are legislative proposals suggested, debated, introduced, or pending in Congress or in the State legislature that, if enacted into law, could alter or amend one or more of the federal tax matters, or state tax matters, respectively, described above including, without limitation, the excludability from gross income of interest on the Series 2025 Bonds, or adversely affect the market price or marketability of the Series 2025 Bonds, or otherwise prevent the holders from realizing the full current benefit of the status of the interest thereon. It cannot be predicted whether or in what form any such proposal may be enacted, or whether, if enacted, any such proposal would affect the Series 2025 Bonds. Prospective purchasers of the Series 2025 Bonds should consult their tax advisors as to the impact of any proposed or pending legislation.

#### **Information Reporting and Backup Withholding**

Interest paid on tax-exempt bonds such as the Series 2025 Bonds is subject to information reporting to the Internal Revenue Service in a manner similar to interest paid on taxable obligations. This reporting requirement does not affect the excludability of interest on the Series 2025 Bonds from gross income for federal income tax purposes. However, in conjunction with that information reporting requirement, the Code subjects certain non-corporate owners of Series 2025 Bonds, under certain circumstances, to "backup withholding" at the rates set forth in the Code, with respect to payments on the Series 2025 Bonds and proceeds from the sale of Series 2025 Bonds. Any amount so withheld would be refunded or allowed as a credit against the federal income tax of such owner of Series 2025 Bonds. This withholding generally applies if the owner of Series 2025 Bonds (i) fails to furnish the payor such owner's social security number or other taxpayer identification number ("TIN"), (ii) furnished the payor an incorrect TIN, (iii) fails to properly report interest, dividends, or other "reportable payments" as defined in the Code, or (iv) under certain circumstances, fails to provide the payor or such owner's securities broker with a certified statement, signed under penalty of perjury, that the TIN provided is correct and that such owner is not subject to backup withholding. Prospective purchasers of the Series 2025 Bonds may also wish to consult with their tax advisors with respect to the need to furnish certain taxpayer information in order to avoid backup withholding.

### AGREEMENT BY THE STATE

Under the Act, the State of Florida pledges to the holders of any bonds issued thereunder, including the Series 2025 Bonds, that it will not limit or alter the rights of the District to own, acquire, construct, reconstruct, improve, maintain, operate or furnish the projects subject to the Act or to levy and collect taxes, assessments, rentals, rates, fees, and other charges provided for in the Act and to fulfill the terms of any agreement made with the holders of such bonds and that it will not in any way impair the rights or remedies of such holders.

### LEGALITY FOR INVESTMENT

The Act provides that the bonds issued by community development districts are legal investments for savings banks, banks, trust companies, insurance companies, executors, administrators, trustees, guardians, and other fiduciaries, and for any board, body, agency, instrumentality, county, municipality or other political subdivision of the State of Florida, and constitute securities which may be deposited by banks or trust companies as security for deposits of state, county, municipal or other public funds, or by insurance companies as required or voluntary statutory deposits.

### SUITABILITY FOR INVESTMENT

In accordance with applicable provisions of Florida law, the Series 2025 Bonds may initially be sold by the District only to "accredited investors" within the meaning of Chapter 517, Florida Statutes, as amended and the rules promulgated thereunder. The limitation of the initial offering to accredited investors does not denote restrictions on transfers in any secondary market for the Series 2025 Bonds. Investment in the Series 2025 Bonds poses certain economic risks. No dealer, broker, salesperson or other person has been authorized by the District or the Underwriter to give any information or make any representations, other than those contained in this Limited Offering Memorandum, and, if given or made, such other information or representations must not be relied upon as having been authorized by either of the foregoing.

#### **ENFORCEABILITY OF REMEDIES**

The remedies available to the Owners of the Series 2025 Bonds upon an Event of Default under the Master Indenture are in many respects dependent upon judicial actions which are often subject to discretion and delay. Under existing constitutional and statutory law and judicial decisions, including the federal bankruptcy code, the remedies specified by the Indenture and the Series 2025 Bonds may not be readily available or may be limited. The various legal opinions to be delivered concurrently with the delivery of the Series 2025 Bonds will be qualified as to the enforceability of the remedies provided in the various legal instruments, by limitations imposed by bankruptcy, reorganization, insolvency or other similar laws affecting the rights of creditors enacted before or after such delivery.

### LITIGATION

### **The District**

There is no litigation of any nature now pending or, to the knowledge of the District, threatened against the District and seeking to restrain or enjoin the issuance, sale, execution or delivery of the Series 2025 Bonds, or in any way contesting or affecting (i) the validity of the Series 2025 Bonds or any proceedings of the District taken with respect to the issuance or sale thereof, (ii) the pledge or application of any moneys or security provided for the payment of the Series 2025 Bonds, (iii) the existence or powers of the District or (iv) the validity of the Assessment Proceedings.

### The Master Developer and the Landowners

The Master Developer and the Landowners will represent prior to the delivery of the Series 2025 Bonds that there is no litigation of any nature now pending or, to the knowledge of the Master Developer and the Landowners, threatened against the Master Developer and the Landowners, which could reasonably be expected to have a material and adverse effect upon the completion of the Capital Improvement Plan or the development of the lands in the District as described herein, materially and adversely affect the ability of the Landowners to pay the Series 2025 Special Assessments imposed against the land within the District of the District owned by the Landowners or materially and adversely affect the ability of the Master Developer and the Landowners to perform their various obligations described in this Limited Offering Memorandum.

#### **CONTINGENT FEES**

The District has retained Bond Counsel, District Counsel, the District Engineer, the District Manager/Methodology Consultant, the Underwriter (who has retained Underwriter's Counsel) and the Trustee (which has retained Trustee's counsel), with respect to the authorization, sale, execution and delivery of the Series 2025 Bonds. Except for the payment of certain fees to District Counsel, the District Engineer and the District Manager, the payment of fees of the other professionals is each contingent upon the issuance of the Series 2025 Bonds.

### **NO RATING**

No application for a rating for the Series 2025 Bonds has been made to any rating agency, nor is there any reason to believe that an investment grade rating for the Series 2025 Bonds would have been obtained if application had been made.

#### **EXPERTS**

The Engineer's Report attached as APPENDIX C to this Limited Offering Memorandum has been prepared by Stantec Consulting Services Inc., Tampa, Florida, the District Engineer. APPENDIX C should be read in its entirety for complete information with respect to the subjects discussed therein. Inframark, LLC, Tampa, Florida, as Methodology Consultant, has prepared the Assessment Methodology set forth as APPENDIX D attached hereto. APPENDIX D should be read in its entirety for complete information with respect to the subjects discussed therein. As a condition to closing on the Series 2025 Bonds, both the District Engineer and the Methodology Consultant will consent to the inclusion of their reports in this Limited Offering Memorandum.

### FINANCIAL INFORMATION

This District will covenant in a Disclosure Agreement (as defined herein), the proposed form of which is set forth in APPENDIX E hereto, to provide its annual audited financial statements to certain information repositories as described in APPENDIX E, commencing with the audit for the District fiscal year ending September 30, 2025. Attached hereto as APPENDIX F is a copy of the District's unaudited financial statements for the period ended March 31, 2025. The District does not have audited financial statements because the District was recently formed and has not yet met the threshold under State law requiring an audit. The Series 2025 Bonds are not general obligation bonds of the District and are payable solely from the Series 2025 Pledged Revenues.

By the end of the first full fiscal year after its creation, each community development district in Florida must have a separate website with certain information as set forth in Section 189.069, F.S., including, without limitation, the district's proposed and final budgets and audit. Additional information regarding the District's website is available from the District Manager at the address set forth under "THE DISTRICT – The District Manager and Other Consultants."

# DISCLOSURE REQUIRED BY FLORIDA BLUE SKY REGULATIONS

Section 517.051, Florida Statutes, and the regulations promulgated thereunder requires that the District make a full and fair disclosure of any bonds or other debt obligations that it has issued or guaranteed and that are or have been in default as to principal or interest at any time after December 31, 1975 (including bonds or other debt obligations for which it has served only as a conduit issuer such as industrial development or private activity bonds issued on behalf of private business). The District has not previously issued any debt obligations and, therefore, is not and has never been in default as to principal or interest on its bonds or other debt obligations since December 31, 1975.

### **CONTINUING DISCLOSURE**

The District, the Master Developer and the Landowners will enter into the Continuing Disclosure Agreement (the "Disclosure Agreement") in the proposed form of APPENDIX E, for the benefit of the Series 2025 Bondholders (including owners of beneficial interests in such Series 2025 Bonds), to provide certain financial information and operating data relating to the District by certain dates prescribed in the Disclosure Agreement and to provide notice of certain enumerated material events (the "Reports") with the Municipal Securities Rulemaking Board through its Electronic Municipal Market Access system. The specific nature of the information to be contained in the Reports is set forth in "APPENDIX E: PROPOSED FORM OF CONTINUING DISCLOSURE AGREEMENT." Under certain circumstances, the failure of the District, the Master Developer or the Landowners to comply with their respective obligations under the Disclosure Agreement constitutes an event of default thereunder. Such a default will not constitute an event of default under the Disclosure Agreement would allow the

Series 2025 Bondholders (including owners of beneficial interests in such Series 2025 Bonds), as applicable, to bring an action for specific performance.

The District has not previously issued any bonds and has not previously entered into any continuing disclosure obligations pursuant to Rule 15c2-12, promulgated under the Securities Exchange Act of 1934, as amended (the "Rule"). The District will appoint the District Manager as the dissemination agent in the Disclosure Agreement and anticipates satisfying all future disclosure obligations required pursuant to its continuing disclosure undertakings and the Rule

The Master Developer and the Landowners have not previously entered into any continuing disclosure obligations pursuant to the Rule. The Master Developer and the Landowners anticipate satisfying all disclosure obligations required pursuant to the Disclosure Agreement and the Rule.

### UNDERWRITING

(the "Underwriter") has agreed, pursuant to a contract with the District, subject to certain conditions, to purchase the Series 2025 Bonds from the District at a purchase price of \$\_\_\_\_\_\_ (par amount of the Series 2025 Bonds, [plus/less net original issue premium/discount of \$\_\_\_\_\_\_ and] and less an Underwriter's discount of \$\_\_\_\_\_\_). The Series 2025 Bonds may be offered and sold to certain dealers, banks and others at prices lower than the initial offering prices, and such initial offering prices may be changed from time to time by the Underwriter.

### VALIDATION

\$69,180,000 of Bonds issued pursuant to the terms of the Master Indenture have been validated by a judgment of the Circuit Court of the Thirteenth Judicial Circuit of the State of Florida in and for Hillsborough County, Florida, rendered on May 29, 2024. The period of time during which an appeal can be taken has expired with no appeal being filed.

#### **APPENDIX B**

## FORM OF BOND COUNSEL OPINION

Upon delivery of the Bonds (as defined below) in definitive form, Greenberg Traurig, P.A., as Bond Counsel, proposes to render its final approving opinion with respect to such Bonds in substantially the following form:

\_\_\_\_\_, 2025

Board of Supervisors of the Gas Worx Community Development District City of Tampa, Florida

## S GAS WORX COMMUNITY DEVELOPMENT DISTRICT SPECIAL ASSESSMENT BONDS, SERIES 2025

Dear Board Members:

We have acted as bond counsel in connection with the issuance by the Gas Worx Community Development District (the "District") of its §\_\_\_\_\_\_ in aggregate principal amount of Special Assessment Bonds, Series 2025 (the "Bonds"), issued and delivered on this date pursuant to the constitution and laws of the State of Florida, particularly, the Uniform Community Development District Act of 1980, Chapter 190, Florida Statutes, as amended, and other applicable provisions of law (collectively, the "Act") and Resolution No. 2024-22, adopted by the Board of Supervisors of the District (the "Board") on February 12, 2024, as supplemented by Resolution No. 2025-01 adopted by the Board on October 29, 2024 (collectively, the "Resolution"). The Bonds are being issued and secured under that certain Master Trust Indenture, dated as of May 1, 2025 (the "Master Indenture"), as supplemented by that certain First Supplemental Trust Indenture, the "2025 Indenture"), each by and between the District and U.S. Bank Trust Company, National Association, as trustee. Capitalized terms used herein without definitions have the meanings ascribed thereto in the 2025 Indenture.

The Bonds are being issued for the primary purpose of financing certain public infrastructure within the District.

In order to secure the payment of the Bonds, and subject to the terms of the 2025 Indenture, the District has pledged to the holders of the Bonds, and granted a lien to the holders of the Bonds on, the Series 2025 Pledged Revenues.

In connection with this opinion, we have examined the Act, certified copies of the Resolution, the 2025 Indenture, the Arbitrage Certificate, a transcript of the proceedings related to

the issuance of the Bonds and such other documents and opinions as we have deemed necessary to render this opinion, and are relying on certain findings, covenants and agreements of the District set forth therein and such certified copies of the proceedings of the District and such other documents and opinions as we have deemed necessary to render this opinion. As to the questions of fact material to our opinion, we have relied upon representations of the District furnished to us, without undertaking to verify such representations by independent investigation. We have also relied upon certain certifications and representations provided by KS Ybor Master Developer LLC, as the master developer of a mixed-use community located within the District which is subject to the Series 2025 Special Assessments comprising the Series 2025 Pledged Revenues.

Based on the foregoing, we are of the opinion that:

1. The District has the power to authorize, execute and deliver the 2025 Indenture, to perform its obligations thereunder and to issue the Bonds.

2. The 2025 Indenture has been duly authorized, executed and delivered by the District. The 2025 Indenture creates a valid pledge of the Series 2025 Pledged Revenues and constitutes a valid and binding obligation of the District enforceable against the District in accordance with its terms.

3. The issuance and sale of the Bonds have been duly authorized by the District and, assuming the due authentication thereof, the Bonds constitute valid and binding limited obligations of the District, payable in accordance with, and as limited by, the terms of the 2025 Indenture.

4. The Internal Revenue Code of 1986, as amended (herein, the "Code") includes requirements which the District must continue to meet after the issuance of the Bonds in order that interest on the Bonds not be included in gross income for federal income tax purposes. The failure of the District to meet these requirements may cause interest on the Bonds to be included in gross income for federal income tax purposes. The District has covenanted in the 2025 Indenture to take the actions required by the Code in order to maintain the exclusion from gross income for federal income tax purposes of interest on the Bonds.

Under existing statutes, regulations, rulings and court decisions, subject to the assumption stated in the following paragraph, interest on the Bonds is excludable from the gross income of the owners thereof for federal income tax purposes and, furthermore, interest on the Bonds is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals. In the case of the alternative minimum tax imposed by Section 55(b)(2) of the Code on applicable corporations (as defined in Section 59(k) of the Code), interest on the Bonds is not excluded from the determination of adjusted financial statement income.

In rendering the opinion expressed above, we have assumed continuing compliance with the tax covenants referred to above that must be met after the issuance of the Bonds in order that interest on the Bonds not be included in gross income for federal income tax purposes.

The Bonds and interest thereon are not subject to taxation under the laws of the State of Florida except as to estate taxes and taxes imposed by Chapter 220, Florida Statutes, on interest, income or profits on debt obligations owned by corporations as defined in Chapter 220.

We express no opinion regarding other federal or any state tax consequences resulting from the ownership, receipt or accrual of interest on, or disposition of the Bonds.

In rendering the foregoing opinions we have assumed the accuracy and truthfulness of all public records and of all certifications, documents and other proceedings examined by us that have been executed or certified by public officials acting within the scope of their official capacities and have not verified the accuracy or truthfulness thereof. We have also assumed the genuineness of the signatures appearing upon such public records, certifications, documents and proceedings.

The opinions set forth herein are subject to state and federal laws relating to bankruptcy, insolvency, reorganization, moratorium and similar laws, and to equitable principles, affecting the enforcement of creditors' rights generally, and to the exercise of judicial discretion in appropriate cases.

We wish to call to your attention that the Bonds are limited obligations of the District payable solely from the Series 2025 Pledged Revenues and neither the full faith and credit nor the taxing power of the District, the City of Tampa, Florida, Hillsborough County, Florida, the State of Florida or any other political subdivision thereof is pledged as security for the payment of the Bonds. The Bonds do not constitute an indebtedness of the District within the meaning of any constitutional or statutory provision or limitation.

Respectfully submitted,

GREENBERG TRAURIG, P.A.

A portion of the District is located within the City of Tampa's Community Redevelopment Areas. See Appendix B for a CRA Boundary Exhibit. Pursuant to that certain Public Infrastructure Funding Agreement to the Interlocal Agreement expected to be entered into by the District, the City, and the Community Redevelopment Agency of the City of Tampa (the "CRA" acting on behalf of the separate community redevelopment areas within the boundaries of the District), the District or the Master Developer constructed in each respective redevelopment area within the District. Such moneys are expected to be used by the District to finance additional public infrastructure not otherwise financed with the proceeds of special assessment bonds to be issued by the District or for other purposes in accordance with the relevant bond documents.

The major public improvements and community facilities include water management and control, water supply, sewer and wastewater management, roads, a City of Tampa park and recreational facility, including landscaping/hardscaping/irrigation, and professional and permitting fees to support those public improvements.

See Appendix C for an Operation and Maintenance Matrix showing breakdown of Public Improvements and future ownership/management.

# 4.0 PUBLIC IMPROVEMENTS AND COMMUNITY FACILITIES

Detailed descriptions of the proposed public improvements and community facilities are provided in the following sections.

# 4.1 WATER MANAGEMENT AND CONTROL

The design of the District's water management and control is regulated by the City of Tampa Mobility Department's Stormwater Services and the Southwest Florida Water Management District ("SWFWMD"). The water management and control is associated with improvements which drain into the City of Tampa rights-of-way within the District. Facilities to be constructed include new public stormwater pipes and replacement of exiting, inadequate storm pipes in the right-of-way.

Water management and control systems will be designed in accordance with City of Tampa Stormwater Technical Standards Manual and SWFWMD's Environmental Resource Permit Handbooks and Information Manual. Water management and control associated with systems with City of Tampa rights-of-way will be owned and maintained by the City of Tampa. Per the Ownership and Maintenance Matrix, should off-site conveyance of stormwater across private land be required, e.g., from CSX right-of-way, the District will be responsible for maintenance through a public utility easement.

# 4.2 WATER SUPPLY

The District is located within the City of Tampa Utilities' service area which will provide water supply for potable water service and fire protection. The water supply improvements are anticipated to include looped water mains and fire hydrants within City of Tampa rights-of-way.

The water supply systems will be designed in accordance with the City of Tampa Water Technical Manual. The City of Tampa will own and maintain these facilities.

# 4.3 SEWER AND WASTEWATER MANAGEMENT

The District is located within the City of Tampa Utilities service area which will provide sewer and wastewater management service to the District. The sewer and wastewater management improvements will include a gravity sanitary sewer collection system within the road rights-of-way. Old wastewater collection systems will be replaced and existing systems acceptable to the City of Tampa will remain in operation.

All sewer and wastewater management facilities will be designed in accordance with City of Tampa Wastewater Department Technical Standards. The City of Tampa will own and maintain these facilities within City of Tampa rights-of-way and/or easements.

# 4.4 DISTRICT ROADS

District Roads include the roadway asphalt, base, and subgrade, roadway curb and gutter, and sidewalks within City of Tampa rights-of-way. Removal of an existing roundabout and new street grid will also be constructed.

All roads will be designed in accordance with the City of Tampa Transportation Technical Manual and roads, generally, will be owned and maintained by the City of Tampa within City of Tampa rights-of-way. The one private street – 3<sup>rd</sup> Avenue Paseo – will be under a public use easement for both vehicular and pedestrian traffic and will be maintained by the CDD or owners' association.

All sidewalks, streetcar, and street trees will be constructed by parcel owners and maintained by owners or owner association.

Streetlights are not included. They will be paid for by owners and managed by TECO.

# 4.5 PARK AND TRAIL

A public park is planned within the District on City of Tampa owned land. It will be jointly maintained by the City of Tampa and the CDD.

There will also be a trail running east-west along the south edge of the development. The trail will be owned and maintained by the CDD.

# 4.6 LANDSCAPING/ HARDSCAPE/IRRIGATION

Landscaping, hardscape, and irrigation will be provided within the Park and Recreational Facilities.

It is anticipated that these improvements will be owned and jointly maintained by the City of Tampa and the CDD.

# 4.7 UNDERGROUND CONVERSION OF ELECTRIC SERVICE

The District is within Tampa Electric Company service area. TECO will provide overhead service at no charge and will provide underground service for a fee. The Project includes putting both existing and new distribution and transmission lines underground. This work to be undertaken by TECO. Conversion (i.e. differential cost of labor and the use of equipment relating thereto) of undergrounding the electric utilities may be financed by the District.

# 4.8 ENVIRONMENTAL SOILS MANAGEMENT

Terracon, a nationwide geotechnical engineering firm, prepared site investigations to determine various conditions within the District that will need to be addressed during construction, including construction administration services to verify compliance with the recommendations of the investigation and corrective actions reports.

# 4.9 **PROFESSIONAL SERVICES AND PERMITTING FEES**

City of Tampa and SWFWMD impose fees for construction permit and site plan reviews. Additionally, engineering, surveying, environmental, and architecture and landscape architecture services are needed for the design, permitting, and construction administration. As well, development/construction management services may be needed for the design,

Gas Worx CDD Master Report of the District Engineer August 28, 2024 – Revised March 4, 2025 Page 5 of 5

permitting, construction, and maintenance acceptance of the public improvements and community facilities.

Fees associated with performance and warranty financial securities covering City of Tampa infrastructure may also be required.

These fees associated with public improvements and community facilities may be funded by the District.

# 5.0 PUBLIC IMPROVEMENTS AND COMMUNITY FACILITIES COSTS

See Appendix D for the Construction Cost Estimate of the Public Improvements and Community Facilities. The District's requisition process will review and approve the eligible costs for the public improvements and community facilities described in this Report. The construction costs for the future phases that are not included in this Report may be included in a future bond issue.

Items of construction costs in this Report are based information provided by the developer. The estimate of the construction costs is only an estimate and not a guaranteed maximum cost. The labor market, future costs of equipment and materials, and the actual construction process are all beyond our control.

The professional service for establishing the Construction Cost Estimate is consistent with the degree of care and skill exercised by members of the same profession under similar circumstances.

The District will pay the cost of the public improvements or the fair market value, whichever is less.

The benefit to the accessible property within the District will be at least equal to the cost of such public improvements.

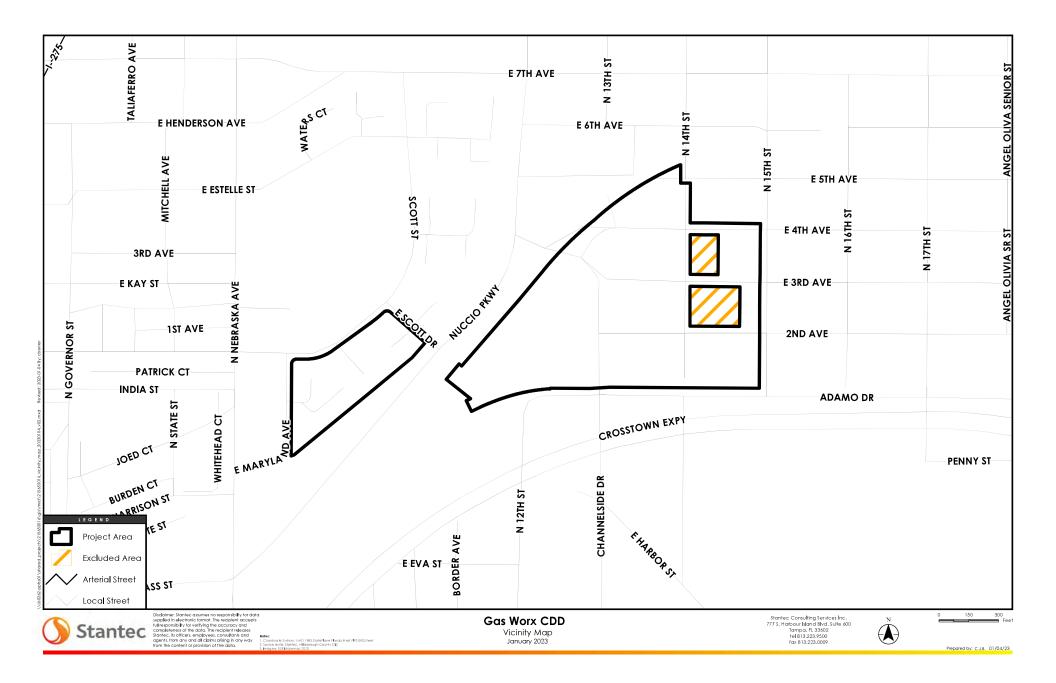

All improvements will be located on property owned by the District or other government entity or for which the District or other government entity has a perpetual easement.

No water, sewer, or other utility lines will extend beyond the property line of the private lands.

#### 1.0 Introduction

## 1.1 Purpose

This Master Special Assessment Methodology Report (the "Report") was developed to provide a master financing plan and a master special assessment methodology for the Gas Worx Community Development District (the "District"), located in the City of Tampa, Hillsborough County, Florida, as related to funding the costs of the acquisition and construction of public infrastructure improvements contemplated to be provided by the District.

### 1.2 Scope of the Report

This Report presents projections for financing the District's public infrastructure improvements (the "Capital Improvement Plan" or "CIP") as described in the Master Report of the District Engineer. (the "District Engineer") dated August 21, 2024 (the "Engineer's Report"), and describes the method for allocating special benefits and apportioning special assessment debt resulting from the provision and funding of the CIP.

## 1.3 Special Benefits and General Benefits

Improvements undertaken and funded by the District as part of the CIP create special and peculiar benefits, different in kind and degree than general benefits, for properties within and outside of its borders as well as general benefits to the public at large. However, as discussed within this Report, these general benefits are incidental in nature and are readily distinguishable from the special and peculiar benefits that accrue to property within the District. The District's CIP enables properties within its boundaries to be developed.

There is no doubt that the general public, property owners, and property outside the District will benefit from the provision of the CIP. However, these benefits are only incidental since the CIP is designed solely to provide special benefits peculiar to property within the District. Properties outside the District are not directly served by the CIP and do not depend upon the CIP to obtain or maintain their development entitlements. This fact alone clearly distinguishes the special benefits that District properties receive compared to those lying outside of the District's boundaries.

The CIP will provide infrastructure and improvements which are all necessary in order to make the lands within the District developable and saleable. The installation of such improvements will cause the value of the developable and saleable lands within the District to increase by more than the sum of the financed cost of the individual components of the CIP. Even though the exact value of the benefits provided by the CIP is hard to estimate at this point, it is without doubt greater than the costs associated with providing the same.

### 1.4 Organization of the Report

Section Two describes the development program as proposed by the Developer, as defined below.

Section Three provides a summary of the CIP as determined by the District Engineer.

Section Four discusses the current financing program for the District.

Section Five discusses the special assessment methodology for the District.

#### 2.0 Development Program

#### 2.1 Overview

The District will serve the Gas Worx development (the "Development" or "Gas Worx"), a master-planned, residential, retail, and office development located in the City of Tampa, Hillsborough County, Florida. The land within the District consists of approximately 29.162 +/- acres and is generally located north of Adamo Drive, west

of North 15<sup>th</sup> St, south of East Fifth Avenue, and east of East Scott Street. The District is partially within three CRAs; the Central Park CRA, the Ybor City II CRA, and Downtown CRA. This report does not contemplate contributions from the respective CRAs, however future supplemental reports will provide detail if CRA TIF contributions are recognized.

## 2.2 The Development Program

The development of Gas Worx is anticipated to be conducted by KS Ybor Master Developer, LLC or its associates (the "Developer"). Based upon the information provided by the Developer, the current development plan for the District envisions 3,830 residential units, 169,000 square feet of retail space, and 502,000 square feet of office space, although land use types and unit numbers may change throughout the development period. Table 2 in the *Appendix* illustrates the development plan for the District.

#### 3.0 The CIP

## 3.1 Overview

The public infrastructure costs to be funded by the District are described by the District Engineer in the Engineer's Report. Only public infrastructure that may qualify for bond financing by the District under Chapter 190, Florida Statutes, and under the Internal Revenue Code of 1986, as amended, was included in these estimates.

## 3.2 The Capital Improvement Plan

The public infrastructure improvements that are part of the CIP and are needed to serve the Development are projected to consist of improvements that will serve all of the lands in the District. The CIP needed to serve the Development is projected to consist of onsite roadway improvements, surface water management/ drainage/ environmental, hardscape/ landscape/ irrigation, community park as well as professional/ permit fees and contingency all as summarized in Table 1 and outlined in detail within the Engineer's Report.

The infrastructure included in the CIP will comprise an interrelated system of improvements, which means that all of the improvements will serve the entire District, and improvements will be interrelated such that they will reinforce one another. At the time of this writing, the total costs of the CIP are estimated at \$56,158,139. Table 1 in the *Appendix* illustrates the specific components of the CIP and their costs.

## 4.0 Financing Program

## 4.1 Overview

As noted above, the District is embarking on a program of capital improvements that will facilitate the development of lands within the District. Generally, construction of public improvements is either funded by the Developer and then acquired by the District or funded directly by the District. The choice of the exact mechanism for providing public infrastructure has not yet been made at the time of this writing, and the District may either acquire the public infrastructure from the Developer or construct it, or even partly acquire it and partly construct it.

Even though the actual financing plan may change to include multiple series of bonds, it is likely that in order to fully fund the costs of the CIP as described in *Section 3.2* in one financing transaction, the District would have to issue approximately \$87,015,000 in par amount of special assessment bonds (the "Bonds").

Please note that the purpose of this Report is to allocate the benefit of the CIP to the various land uses in the District and based on such benefit allocation to apportion the maximum debt necessary to fund the CIP. The discussion of the structure and size of the indebtedness is based on various estimates and is subject to change.

#### 4.2 Types of Bonds Proposed

The proposed financing plan for the District provides for the issuance of the Bonds in one or more series totaling a principal amount of \$87,015,000 to finance CIP costs at \$56,158,139. The Bonds as projected under this master financing plan would be structured to be amortized in 30 annual installments following a 36-month capitalized interest period. Interest payments on the Bonds would be made every May 1 and November 1, and principal payments on the Bonds would be made every May 1 or November 1.

In order to finance the improvement costs, the District would need to borrow more funds and incur indebtedness in the total amount of \$87,015,000. The difference is comprised of funding debt service reserves, funding capitalized interest, and paying costs of issuance, including the underwriter's discount.

Please note that the structure of the Bonds as presented in this Report is preliminary and may change due to changes in the development program, market conditions, timing of infrastructure installation as well as for other reasons. The District maintains complete flexibility as to the structure of the Bonds and reserves the right to modify it as necessary.

#### 5.0 Assessment Methodology

#### 5.1 Overview

The issuance of the Bonds provides the District with funds necessary to construct/acquire the infrastructure improvements which are part of the CIP outlined in *Section 3.2* and described in more detail by the District Engineer in the Engineer's Report. These improvements lead to special and general benefits, with special benefits accruing to properties within the boundaries of the District. General benefits accrue to areas outside the District and are only incidental in nature. The debt incurred in financing the public infrastructure will be secured by assessing properties that derive special and peculiar benefits from the CIP. All properties that receive special benefits from the CIP will be assessed for their fair share of the debt issued in order to finance all or a portion of the CIP.

#### **5.2 Benefit Allocation**

The current development plan for the District envisions 3,830 residential units, 169,000 square feet of retail space, and 502,000 square feet of office space, although land use types and unit numbers may change throughout the development period.

The public infrastructure included in the CIP will comprise an interrelated system of improvements, which means that all of the improvements will serve the entire District and such public improvements will be interrelated such that they will reinforce each other, and their combined benefit will be greater than the sum of their individual benefits. All of the land uses within the District will benefit from each infrastructure improvement category, as the improvements provide basic infrastructure to all land within the District and benefit all land within the District as an integrated system of improvements.

As stated previously, the public infrastructure improvements included in the CIP have a logical connection to the special and peculiar benefits received by the land within the District, as without such improvements, the development of the properties within the District would not be possible. Based upon the connection between the improvements and the special and peculiar benefits to the land within the District, the District can assign or allocate a portion of the District's debt through the imposition of non-ad valorem assessments, to the land receiving such special and peculiar benefits (herein the "Bond Assessments"). Even though these special and peculiar benefits are real and ascertainable, the precise amount of the benefit cannot yet be calculated with mathematical certainty. However, such a benefit is more valuable than the cost of, or the actual non-ad valorem assessment amount levied on that parcel.

The benefit associated with the CIP of the District is proposed to be allocated to the different unit types within the District in proportion to

the density of development and intensity of use of the infrastructure as measured by a standard unit called an Equivalent Assessment Unit ("EAU"). Table 2 in the Appendix illustrates the EAU weights that are proposed to be assigned to the unit types contemplated to be developed within the District based on the relative density of development and the intensity of use of master infrastructure, the total EAU counts for each unit type, and the share of the benefit received by each unit type.

The rationale behind different EAU weights is supported by the fact that generally and on average smaller units, such as townhomes, will use and benefit from the District's improvements less than larger units, such as single-family units, as for instance, generally and on average smaller units or units produce less stormwater runoff, may produce fewer vehicular trips, and may need less water/sewer capacity than larger units. Additionally, the value of the larger units is likely to appreciate by more in terms of dollars than that of the smaller units as a result of the implementation of the CIP. As the exact amount of the benefit and appreciation is not possible to calculate at this time, the use of EAU measures serves as a reasonable approximation of the relative amount of benefit received by the different unit types from the District's improvements.

Table 5 in the *Appendix* presents the apportionment of the Bond Assessments per the EAU benefit allocation method presented in Table 4. Table 5 also presents the annual levels of the Bond Assessments per unit.

#### 5.3 Assigning Debt

As the land in the District is not yet developed for its intended final use and the precise location of the units by lot or parcel is unknown, the Bond Assessments in the amount of \$87,015,000 will be preliminarily levied on the 20.231 +/- assessable acres within the District at a rate of \$4,301,031.42 per acre on an equal pro-rata gross acre basis. As the District is 29.162 +/- acres, the balance of the property (8.931 acres) consists of the City of Tampa-owned rights of way, parks, etc. that are non-assessable.

This section details how Bonds and assessments are assigned to private benefiting properties, land, and vertical development within the District. In general, assessments are assigned on a per-acre basis and once parcels are improved to contain structures that have received certificates of completion/occupancy, assessments are then allocated to the parcels based on the type of vertical development use and EAUs assigned to that use within the parcel as outlined in **Table 2.** All remaining assessments and EAUs needed to meet principal and annual debt service coverage not allocated to vertical development are then allocated to the remaining land on a per developable acre basis as demonstrated in the preliminary assessment roll in **Table 6** to this report.

The District is assigning assessments to support debt service coverage for Bonds with parcels that may contain both completed vertical development and developable acreage. As components of the vertical development program receive certificates of completion/occupancy within the parcels, they are assigned specific assessments in relation to the EAU factor set forth in **Table 2**. The remaining unassigned assessments to support sufficient coverage for debt service (on property that is not constructed) is assigned on an equal developable acreage basis, based upon the remaining net developable acreage divided by remaining CIP Special Assessments, subject to the true-up provisions below.

**Transferred Property.** In the event that land is sold to a third party (the "Transferred Property"), the Bond Assessments will be assigned to such Transferred Property at the time of the sale based on the maximum total number of EAUs (as herein defined) assigned by the Developer to that Transferred Property, subject to review by the District's methodology consultant, to ensure that any such assignment is reasonable, supported by current development rights and plans, and otherwise consistent with this Report. The owner of the Transferred Property will be responsible for the total Bond Assessments applicable to the Transferred Property, regardless of the total

number of EAUs ultimately actually platted. This total Bond Assessment is allocated to the Transferred Property at the time of the sale.

#### 5.4 Lien Ability Test: Special and Peculiar Benefit to the Property

As first discussed in *Section 1.3*, Special Benefits and General Benefits, public infrastructure improvements undertaken by the District create special and peculiar benefits to the assessable properties within the District. The District's improvements benefit assessable properties within the District and accrue to all such assessable properties on an EAU basis.

Public infrastructure improvements undertaken by the District can be shown to be creating special and peculiar benefits to the property within the District. The special and peculiar benefits resulting from each improvement include, but are not limited to:

- added use of the property;
- added enjoyment of the property;
- increased marketability and value of the property.

The public infrastructure improvements which are part of the CIP make the land in the District developable and saleable and when implemented jointly as parts of the CIP, provide special and peculiar benefits which are greater than the benefits of any single category of improvements. These special and peculiar benefits are real and ascertainable, but not yet capable of being calculated and assessed in terms of numerical value; however, such benefits are more valuable than either the cost of, or the actual assessment levied for, the improvement or debt allocated to the parcel of land.

#### 5.5 Lien Ability Test: Reasonable and Fair Apportionment of the Duty to Pay

A reasonable estimate of the proportion of special and peculiar benefits received from the improvements is delineated in Table 4 (expressed as EAU factors) in the *Appendix*.

The apportionment of the Bond Assessments is fair and reasonable because it was conducted on the basis of consistent application of the methodology described in *Section 5.2* across all assessable properties within the District according to reasonable estimates of the special and peculiar benefits derived from the CIP by different unit types.

#### 5.6 True-Up Mechanism

The District's assessment program is predicated on the development of lots in a manner sufficient to include all of the planned EAUs as set forth in Table 1 in the Appendix ("Development Plan"). At such time as site plans are to be approved (or re-approved), each site plan (either, herein, "Proposed Site Plan") shall be presented to the District for a "true-up" review as follows:

**a.** If a Proposed Site Plan results in the same amount of EAUs (and thus Bond Assessments) able to be imposed on the "Remaining Lands Without Site Plan" (i.e., those remaining lands without a site plan after the Proposed Site Plan is recorded) as compared to what was originally contemplated under the Development Plan, then the District shall allocate the Bond Assessments to the product types receiving site plans and the remaining property in accordance with this Report, and cause the Bond Assessments to be recorded in the District's Improvement Lien Book.

**b.**If a Proposed Site Plan results in a greater amount of EAUs (and thus Bond Assessments) able to be imposed on the Remaining Lands Without Site Plan as compared to what was originally contemplated under the Development Plan, then the District may undertake a pro rata reduction of Bond Assessments for

all assessed properties within the District or may otherwise address such net decrease as permitted by law.

c. If a Proposed Site Plan results in a lower amount of EAUs

(and thus Bond Assessments) able to be imposed on the Remaining Lands Without Site Plan as compared to what was originally contemplated under the Development Plan, then the District shall require the landowner(s) of the lands encompassed by the Proposed Site Plan to pay a "True-Up Payment" equal to the difference between (i) the Bond Assessments originally contemplated to be imposed on the lands subject to the Proposed Site Plan, and (ii) the Bond Assessments able to be imposed on the lands subject to the Proposed Site Plan, and (ii) the Bond Assessments able to be imposed on the lands subject to the Proposed Site Plan, after the Proposed Site Plan (plus applicable interest, collection costs, penalties, etc.).

With respect to the foregoing true-up analysis, the District's Assessment Consultant, in consultation with the District Engineer, District Counsel, and the District's Bond Counsel, shall determine in their sole discretion what amount of EAUs (and thus Bond Assessments) are able to be imposed on the Remaining Lands Without Site Plan, taking into account a Proposed Site Plan, by reviewing: a) the original, overall Development Plan showing the number and type of units reasonably planned for the Development, c) proof of the amount of entitlements for the Remaining Lands Without Site Plan, d) evidence of allowable zoning conditions that would enable those entitlements to be placed in accordance with the Development Plan, and e) documentation that shows the feasibility of implementing the proposed Development Plan. Prior to any decision by the District not to impose a true-up payment, a supplemental methodology shall be produced demonstrating that there will be sufficient Bond Assessments to pay debt service on the applicable series of bonds and the District will conduct new proceedings under Chapters 170, 190 and 197, Florida Statutes upon the advice of District Counsel.

Any True-Up Payment shall become due and payable that tax year by the landowner of the lands subject to the Proposed Site Plan, shall be in addition to the regular Bond Assessments installment payable for such lands, and shall constitute part of the Bond Assessments liens imposed against the Proposed Site Plan property until paid. A True-Up Payment shall include accrued interest on the applicable bond series to the interest payment date that occurs at least 45 days after the True-Up Payment (or the second succeeding interest payment date if such True-Up Payment is made within forty-five (45) calendar days before an interest payment date (or such other time as set forth in the supplemental indentures for the applicable bond series)).

All Bond Assessments levied run with the land. The District will not release any liens on property for which True-Up Payments are due until provision for such payment has been satisfactorily made. Further, upon the District's review of the final site plan for the developable acres, any unallocated Bond Assessments shall become due and payable and must be paid before the District approves of that site plan. This true-up process applies to both site plans and/or revised site plans.

Such review shall be limited solely to the function and the enforcement of the District's Bond Assessment liens and/or true-up agreements. Nothing herein shall in any way operate to or be construed as providing any other site plan approval or disapproval powers to the District. For further details on the true-up process, please refer to the true-up agreement(s) and applicable assessment resolution(s).

#### 5.7 Assessment Roll

The Bond Assessments of \$87,015,00 are proposed to be levied per folio based on acreage as described in Exhibit "A". Excluding any capitalized interest period, debt service assessments shall be paid in thirty (30) annual principal installments.

#### 5.8 Additional Items Regarding Bond Assessment Imposition and Allocation

*Master Lien -* This master assessment allocation methodology is intended to establish the necessary benefit and fair and reasonable allocation findings for a master assessment lien, which may give rise to one or more individual assessment liens relating to individual bond issuances necessary to fund all or a portion of the project(s) referenced herein comprising the CIP. All such liens shall be within the benefit limits established herein and using the allocation methodology described herein and shall be described in one or more supplemental reports.

**System of Improvements** - As noted herein, the CIP functions as a system of improvements. Among other implications, this means that proceeds from any particular bond issuance can be used to fund master improvements within any benefitted property or designated assessment area within the District, regardless of where the Bond Assessments are levied, provided that Bond Assessments are fairly and reasonably allocated across all benefitted properties.

**Contributions** - As set forth in any supplemental report, and for any particular bond issuance, the Developer may opt to "buy down" the Bond Assessments on particular product types and/or lands using a contribution of cash, infrastructure, or other consideration, and in order for Bond Assessments to reach certain target levels. Note that any "true-up," as described herein, may require a payment to satisfy "true-up" obligations as well as additional contributions to maintain such target assessment levels. Any amounts contributed by the Developer to pay down Bond Assessment will not be eligible for "deferred costs" or any other form of repayment if any are provided for in connection with any particular bond issuance.

Please note that among other possible contributions, the Developer will agree to provide contributions of improvements, work product, and/or land (based on appraised value) in order to offset any Bond Assessments on the two restaurants planned for the development. Note that no CIP cost allocation and/or contribution is required for the golf course, which is outside the District's boundaries because the golf course does not benefit from the CIP, as described in the Engineer's Report.

*Amenities* - No Bond Assessments will be allocated herein to any platted amenities or other platted common areas planned for the development. If owned by a homeowner's association, the amenities and common areas would be considered a common element for the exclusive benefit of certain property owners and would not be subject to Bonds Assessments. If the amenities are owned by the District, then they would be governmental property not subject to the Bond Assessments and would be open to the general public, subject to District rules and policies.

**Government Property** - Real property owned by units of local, state, and federal governments, or similarly exempt entities, shall not be subject to the Bond Assessments without specific consent thereto. If at any time, any real property on which Bond Assessments are imposed is proposed to be sold or otherwise transferred to a unit of local, state, or federal government, or similarly exempt entity, all future unpaid Assessments for such tax parcel shall become due and payable immediately prior to such transfer without any further action of the District.

*New Unit Types* - As noted herein, this report identifies the anticipated product types for development and associates particular EAU factors with each product type. If new product types are identified in the course of development, the District's Assessment Consultant – without a further hearing – may determine the EAU factor for the new product type, provided that such determination is made on a pro-rated basis and derived from the methodology pertaining to existing product types and their corresponding EAUs.

#### 1.0 Introduction

#### 1.1 Purpose

This Preliminary First Supplemental Special Assessment Methodology Report (the "Preliminary First Supplemental Report" or "the Report") was developed for the Gas Worx Community Development District (the "District") to supplement the Master Special Assessment Methodology Report (the "Master Report") dated August 21<sup>st</sup> 2024 and to provide a supplemental financing plan and a supplemental special assessment methodology for the financing of a portion of the cost associated within the Districts Capital Improvement Plan (the "Capital Improvement Plan" or "CIP") as described in the Master Report of the District Engineer (the "District Engineer") dated August 28, 2024 (the "Engineer's Report"). In summary, this Preliminary First Supplemental Report will support the special assessments levied in connection with the acquisition and construction of public infrastructure improvements to be provided by the District.

#### 1.2 Scope of the Report

This Preliminary First Supplemental Report presents projections for the issuance of the Series 2025 Bonds, which will finance a portion of the CIP, and describes the method for the allocation of special benefits and the apportionment of Series 2025 Bonds special assessment debt in accordance with the Master Report.

#### 1.3 Special Benefits and General Benefits

Improvements undertaken and funded by the District as part of the CIP create special and peculiar benefits, different in kind and degree than general benefits, for properties outside of its borders as well as general benefits to the public at large. However, as discussed within this Report, these general benefits are incidental in nature and are readily distinguishable from the special and peculiar benefits that accrue to property within the District. The District's CIP enables properties within its boundaries to be developed.

There is no doubt that the general public, and property outside the District will benefit from the provision of the CIP. However, these benefits are only incidental since the CIP is designed solely to provide special benefits peculiar to property within the District. Properties outside the District are not directly served by the CIP and do not depend upon the CIP to obtain or maintain their development entitlements. This fact alone clearly distinguishes the special benefits that District properties receive compared to those lying outside of the District's boundaries.

The CIP will provide infrastructure and improvements which are all necessary in order to make the lands within the District developable and saleable. The installation of such improvements will cause the value of the developable and saleable lands within the District to increase by more than the sum of the financed cost of the individual components of the CIP. Even though the exact value of the benefits provided by the CIP is hard to estimate at this point, it is without doubt greater than the costs associated with providing the same.

#### 1.4 Organization of the Report

Section Two describes the development program as proposed by the Developer, as defined below.

Section Three provides a summary of the CIP as determined by the District Engineer.

Section Four discusses the current financing program for the District.

Section Five discusses the special assessment methodology for the District.

#### 2.0 Development Program

#### 2.1 Overview

The District will serve the Gas Worx development (the "Development" or "Gas Worx"), a master-planned residential, retail, and office development located in the City of Tampa, Hillsborough County, Florida. The land within the District consists of approximately 29.162 +/- acres and is generally located north of Adamo Drive, west of North 15<sup>th</sup> St, south of East Fifth Avenue, and east of East Scott Street. The District is partially within three CRAs; the Central Park CRA, the Ybor City II CRA, and the Downtown CRA. See Exhibit C for the general boundaries of the CRAs. This Preliminary First Supplemental Report does not contemplate contributions from the respective CRAs. However, future supplemental reports will provide detail if CRA/TIF contributions are recognized.

#### 2.2 The Development Program

The development of Gas Worx is anticipated to be conducted by KS Ybor Master Developer, LLC or its associates (the "Developer"). Based upon the information provided by the Developer, the current development plan for the District envisions 3,830 residential units, 169,000 square feet of retail space, and 502,000 square feet of office space, although land use types and unit numbers may change throughout the development period. Table 2 in the *Appendix* illustrates the development plan for the District.

#### 3.0 The CIP

#### 3.1 Overview

The public infrastructure costs to be funded by the District are described by the District Engineer in the Engineer's Report. Only public infrastructure that may qualify for bond financing by the District under Chapter 190, Florida Statutes, and under the Internal Revenue Code of 1986, as amended, was included in these estimates.

#### 3.2 The Capital Improvement Plan

The public infrastructure improvements that are part of the CIP and are needed to serve the Development are projected to consist of improvements that will serve all of the lands in the District. The CIP needed to serve the Development is projected to consist of onsite roadway improvements, surface water management, drainage, environmental, hardscape, landscape/ irrigation, community

park as well as professional/ permit fees and contingency all as summarized in Table 1 and outlined in detail within the Engineer's Report.

The infrastructure included in the CIP will comprise an interrelated system of improvements, which means that all of the improvements will serve the entire District, and improvements will be interrelated such that they will reinforce one another. At the time of this writing, the total costs of the CIP are listed within Table 1 in the Appendix.

#### 4.0 Financing Program

#### 4.1 Overview

As noted above, the District is embarking on a program of public improvements that will facilitate the development of lands within the District. Generally, construction of public improvements is either funded by the Developer and then acquired by the District or funded directly by the District.

It is the District's intention to fund a portion of the cost of the CIP with proceeds of its Special Assessment Bonds, Series 2025, in the total principal amount of \$41,110,000 (\*) (the "Series 2025 Bonds") to fund \$30,802,122 (\*) in CIP Cost. The finance plan includes multiple series of bonds and developer contributions to fully fund the costs of the CIP, as described in *Section 3.2*.

#### 4.2 Series 2025 Bonds

The financing plan for the District, as set forth herein, provides for the issuance of the Series 2025 Bonds in the total principal amount of \$41,110,000 (\*) to finance a portion of the CIP costs at \$30,802,122 (\*). The Series 2025 Bonds as projected under this master financing plan would be structured to be amortized in 30 annual installments following a 32-month capitalized interest period. Interest payments on the Bonds would be made every May 1 and November 1, and principal payments on the Series 2025 Bonds are presented in Table 4 in the Appendix.

#### 5.0 Assessment Methodology

#### 5.1 Overview

The issuance of the Series 2025 Bonds provides the District with funds necessary to construct/acquire a portion of the infrastructure improvements, which are part of the CIP outlined in *Section 3.2* and described in more detail by the District Engineer in the Engineer's Report. These improvements lead to special and general benefits, with special benefits accruing to properties within the boundaries of the District. General benefits accrue to areas outside the District and are only incidental in nature. The debt incurred in financing the public infrastructure will be secured by assessing properties that derive special and peculiar benefits from the CIP. All properties that receive special benefits from the CIP will be assessed for their fair share of the debt issued to finance a portion of the CIP.

#### (\*) – Preliminary and subject to change

#### 5.2 Benefit Allocation

The current development plan for the District envisions 3,830 residential units, 169,000 square feet of retail space, and 502,000 square feet of office space, although land use types and unit numbers may change throughout the development period.

The public infrastructure included in the CIP will comprise an interrelated system of improvements, which means that all of the improvements will serve the entire District and such public improvements will be interrelated such that they will reinforce each other, and their combined benefit will be greater than the sum of their individual benefits. All of the land uses within the District will benefit from each infrastructure improvement category, as the improvements provide basic infrastructure to all land within the District and benefit all assessable land within the District as an integrated system of improvements.

As stated previously, the public infrastructure improvements included in the CIP have a logical connection to the special and peculiar benefits received by the assessable land within the District, as without such improvements, the development of the properties within the District would not be possible. Based upon the connection between the improvements and the special and peculiar benefits to the assessable land within the District, the District can assign or allocate a portion of the District's debt through the imposition of non-ad valorem assessments, to the land receiving such special and peculiar benefits (herein the "Series 2025 Bond Assessments"). Even though these special and peculiar benefits are real and ascertainable, the precise amount of the benefit cannot yet be calculated with mathematical certainty. However, such a benefit is more valuable than the cost of, or the actual non-ad valorem assessment amount levied on that parcel.

The benefit associated with the CIP of the District is proposed to be allocated to the different unit types within the District in proportion to the density of development and intensity of use of the infrastructure as measured by a standard unit called an Equivalent Assessment Unit ("EAU"). Table 2 in the Appendix illustrates the EAU weights that are proposed to be assigned to the unit types contemplated to be developed within the District based on the relative density of development and the intensity of use of public infrastructure, the total EAU counts for each unit type, and the share of the benefit received by each unit type.

There are two types of uses within the proposed Development Plan, residential and commercial. Within the residential use, the condo product will receive a weighting of 1 EAU. Within the commercial use, the retail and office will receive a weighting of 1 EAU to each 1,000 square feet. Should other uses or products be identified as a result of changes to the Development Plan, an EAU assignment will be made by the methodology consultant and Table 2 will be updated accordingly. As the exact amount of the benefit and appreciation is not possible to calculate at this time, the use of EAU measures serves as a reasonable approximation of the relative amount of benefit received by the different uses and unit types from the District's improvements as currently contemplated.

Table 4 in the *Appendix* presents the apportionment of the Series 2025 Bond Assessments per the EAU benefit allocation method presented in Table 2. Table 4 also presents the annual levels of the Series 2025 Bond Assessments per unit.

#### 5.3 Assigning Debt

As the land in the District is not yet developed for its intended final use and the precise location of the units by lot or parcel is unknown, the Series 2025 Bond Assessments in the amount of \$41,110,000 (\*) will be preliminarily levied on the 20.231 +/- assessable acres within the District at a rate of \$2,032,010 (\*) per acre on an equal pro-rata gross acre basis. As the District is 29.162 +/- acres, the balance of the property (8.931 acres) consists of City of Tampa-owned rights of way, parks, etc. that are non-assessable.

This section details how the Series 2025 Bonds and Series 2025 Bond Assessments are assigned to private benefiting properties, land, and vertical development within the District. In general, Series 2025 Bond Assessments are assigned on a per-acre basis and once parcels are improved to contain structures that have received certificates of completion/occupancy, Series 2025 Bond Assessments are then allocated to the parcels based on the type of vertical development use and EAUs assigned to that use within the parcel as outlined in Table 2. All remaining Series 2025 Bond Assessments and EAUs needed to meet principal and annual debt service coverage not allocated to vertical development are then allocated to the remaining land on a per developable acre basis as demonstrated in the preliminary assessment roll in Exhibit A to this report.

The District is assigning assessments to support debt service coverage for Series 2025 Bonds with parcels that may contain both completed vertical development and developable acreage. As components of the vertical development program receive certificates of completion/occupancy within the parcels, they are assigned specific Series 2025 Bond Assessments in relation to the EAU factor set forth in Table 2. The remaining unassigned Series 2025 Bond Assessments to support sufficient coverage for debt service (on property that is not constructed) is assigned on an equal developable acreage basis, based upon the remaining net developable acreage divided by remaining CIP Special Assessments, subject to the true-up provisions below.

**Transferred Property.** In the event that land is sold to a third party (the "Transferred Property"), the Series 2025 Bond Assessments will be assigned to such Transferred Property at the time of the sale based on the maximum total number of EAUs assigned by the Developer to that Transferred Property, subject to review by the District's methodology consultant, to ensure that any such assignment is reasonable, supported by current development rights and plans, and otherwise consistent with this Preliminary First Supplemental Report. The owner of the Transferred Property, regardless of the total number of EAUs ultimately actually platted/constructed. This total Series 2025 Bond Assessment is allocated to the Transferred Property at the time of the sale.

#### 5.4 Lien Ability Test: Special and Peculiar Benefit to the Property

As first discussed in *Section 1.3*, Special Benefits and General Benefits, public infrastructure improvements undertaken by the District create special and peculiar benefits to the assessable properties within the District. The District's improvements benefit assessable properties within the District and after platting or approval, accrue to all such assessable properties on an EAU basis.

(\*) – Preliminary and subject to change

Public infrastructure improvements undertaken by the District can be shown to be creating special and peculiar benefits to the property within the District. The special and peculiar benefits resulting from each improvement include, but are not limited to:

- added use of the property;
- added enjoyment of the property;
- increased marketability and value of the property.

The public infrastructure improvements which are part of the CIP make the assessable land in the District developable and saleable and when implemented jointly as parts of the CIP, provide special and peculiar benefits which are greater than the benefits of any single category of improvements. These special and peculiar benefits are real and ascertainable, but not yet capable of being calculated and assessed in terms of numerical value; however, such benefits are more valuable than either the cost of, or the actual assessment levied for, the improvement or debt allocated to the parcel of land.

#### 5.5 Lien Ability Test: Reasonable and Fair Apportionment of the Duty to Pay

A reasonable estimate of the proportion of special and peculiar benefits received from the improvements funded with the Series 2025 Bonds is delineated in Table 4 (expressed as EAU factors) in the *Appendix*.

The apportionment of the Series 2025 Bond Assessments is fair and reasonable because it was conducted on the basis of consistent application of the methodology described in *Section 5.2* across all assessable properties within the District according to reasonable estimates of the special and peculiar benefits derived from the CIP by different unit types.

#### 5.6 True-Up Mechanism

The District's assessment program is predicated on the development of lots in a manner sufficient to include all of the planned EAUs as set forth in Table 2 in the Appendix ("Development Plan"). At such time as plats or replats are approved, or site plans are to be approved (or reapproved), each plat or re-plat, site plan (either, herein, "Proposed Plat/Site Plan") shall be presented to the District for a "true-up" review as follows:

**a.** If a Proposed Plat/Site Plan results in the same amount of EAUs (and thus Series 2025 Bond Assessments) able to be imposed on the "Remaining Lands Without a Plat or Site Plan" approval (i.e., those remaining lands without a plat or a final site plan approval after the Proposed Plat/Site Plan is recorded) as compared to what was originally contemplated under the Development Plan, then the District shall allocate the Series 2025 Bond Assessments to the product types receiving site plans or plat approval and the remaining property in accordance with this Preliminary First Supplemental Report, and cause the Series 2025 Bond Assessments to be recorded in the District's Improvement Lien Book.

**b.**If a Proposed Plat or Site Plan results in a greater amount of EAUs (and thus Series 2025 Bond Assessments) able to be imposed on the Remaining Lands Without a Plat or Site Plan as compared to what was originally contemplated under the Development Plan, then the District may undertake a pro rata reduction of Series 2025 Bond Assessments for all assessed

properties within the District or may otherwise address such net decrease as permitted by law.

c. If a Proposed Plat or Site Plan results in a lower amount of EAUs

(and thus Series 2025 Bond Assessments) able to be imposed on the Remaining Lands Without Plat or Site Plan as compared to what was originally contemplated under the Development Plan, then the District shall require the landowner(s) of the lands encompassed by the Proposed Plat/Site Plan to pay a "True-Up Payment" equal to the difference between (i) the Series 2025 Bond Assessments originally contemplated to be imposed on the lands subject to the Proposed Plat/Site Plan, and (ii) the Series 2025 Bond Assessments able to be imposed on the lands subject to the Proposed Plat/Site Plan, after the Proposed Plat/Site Plan (plus applicable interest, collection costs, penalties, etc.).

With respect to the foregoing true-up analysis, the District's Assessment Consultant, in consultation with the District Engineer and District Counsel, shall determine in their sole discretion what amount of EAUs (and thus Series 2025 Bond Assessments) are able to be imposed on the Remaining Lands without a site plan or plat approval, taking into account a proposed plat/site plan, by reviewing: a) the original, overall Development Plan showing the number and type of units reasonably planned for the Development, b) the overall development plan showing the number and type of units reasonably planned for the Development, c) proof of the amount of entitlements for the remaining lands without a plat or site plan approval, d) evidence of allowable zoning conditions that would enable those entitlements to be placed in accordance with the Development Plan. Prior to any decision by the District not to impose a true-up payment, a supplemental methodology shall be produced demonstrating that there will be sufficient Series 2025 Bond Assessments to pay debt service on the Series 2025 Bonds, releases any liens and the District will conduct new proceedings under Chapters 170, 190 and 197, Florida Statutes upon the advice of District Counsel.

Any True-Up Payment shall become due and payable that tax year by the landowner of the lands subject to the Proposed Plat/Site Plan, shall be in addition to the regular Series 2025 Bond Assessments installment payable for such lands, and shall constitute part of the Series 2025 Bond Assessments liens imposed against the proposed plat or site plan property until paid. A True-Up Payment shall include accrued interest on the Series 2025 Bonds to the quarterly redemption date (as defined in the first supplemental indenture relating to the Series 2025 Bonds) that occurs at least 45 days after the True-Up Payment (or the second Quarterly Redemption Date if such True-Up Payment is made within forty-five (45) calendar days before a Quarterly Redemption Date.

All Series 2025 Bond Assessments levied run with the land. The District will not release any liens on property for which True-Up Payments are due until provision for such payment has been satisfactorily made. Further, upon the District's review of the final site plan or plat for the developable acres, any unallocated Series 2025 Bond Assessments shall become due and payable and must be paid before the District releases any liens. This true-up process applies to both plats and site plans and/or revised plats or site plans.

Such review shall be limited solely to the function and the enforcement of the District's Series 2025 Bond Assessment liens and/or true-up agreements. Nothing herein shall in any way operate to or be construed as providing any other site plan approval or disapproval powers to the District. For further details on the true-up process, please refer to the true-up agreement(s) and applicable assessment resolution(s).

#### 5.7 Assessment Roll

The Series 2025 Bond Assessments of \$41,110,000(\*) are proposed to be levied per folio based on acreage as described in Exhibit "A". Excluding any capitalized interest period, debt service assessments shall be paid in thirty (30) annual principal installments.

#### 5.8 Additional Items Regarding Series 2025 Bond Assessment Imposition and Allocation

**Series 2025 Assessment Lien -** This Preliminary First Supplemental Methodology was issued in accordance with the Master Methodology and is intended to establish the necessary benefit and fair and reasonable allocation findings for the Series 2025 Bonds assessment lien. Future individual assessment liens relating to individual bond issuances may be necessary to fund the next phase of the project(s) referenced herein comprising the total CIP. All such liens shall be within the benefit limits established by the Master Methodology.

**System of Improvements** - As noted herein, the CIP functions as a system of improvements. Among other implications, this means that proceeds from any particular bond issuance can be used to fund master improvements within any benefitted property or designated assessment area within the District, regardless of where the Series 2025 Bond Assessments are levied, provided that such other Bond Assessments are fairly and reasonably allocated across all benefitted properties.

**Contributions** - The Developer may opt to "buy down" the Series 2025 Bond Assessments on particular product types and/or lands using a contribution of cash, infrastructure, or other consideration, and in order for the Series 2025 Bond Assessments to reach certain target levels. Note that any "true-up," as described herein, may require a payment to satisfy "true-up" obligations. Any amounts contributed by the Developer to pay down Series 2025 Bond Assessment will not be eligible for "deferred costs" or any other form of repayment if any are provided for in connection with any particular bond issuance.

Please note that among other possible contributions, the Developer will agree to provide contributions of improvements, work product, and/or land (based on appraised value) in order to offset the level of Series 2025 Bond Assessments.

**Amenities** - No Series 2025 Bond Assessments will be allocated herein to any platted amenities or other platted common areas planned for the development. If owned by a homeowner's association, the amenities and common areas would be considered a common element for the exclusive benefit of certain property owners and would not be subject to the Series 2025 Bonds Assessments. If the District owns the amenities, then they would be governmental property not subject to the Series 2025 Bond Assessments and would be open to the general public, subject to District rules and policies.

(\*) – Preliminary and subject to change

**Government Property** - Real property owned by units of local, state, and federal governments, or similarly exempt entities, shall not be subject to the Series 2025 Bond Assessments without specific consent thereto. If at any time, any real property on which Series 2025 Bond Assessments are imposed is proposed to be sold or otherwise transferred to a unit of local, state, or federal government, or similarly exempt entity, all future unpaid Assessments for such tax parcel shall become due and payable immediately prior to such transfer without any further action of the District.

**New Unit Types -** As noted herein, this report identifies the anticipated product types for development and associates particular EAU factors with each product type. If new product types are identified in the course of development, the District's Assessment Consultant – without a further hearing – may determine the EAU factor for the new product type, provided that such determination is made on a pro-rated basis and derived from the methodology pertaining to existing product types and their corresponding EAUs.

#### EXHIBIT A

The Series 2025 Bonds issued by the District will pay for a portion of the public capital infrastructure improvements and is \$41,110,000.00(\*) payable in 30 annual installments of principal of \$143,696.15(\*) per gross acre. The maximum par debt is \$2,032,010.59 (\*) per gross acre and is outlined below.

Prior to platting, the debt associated with the Series 2025 Bonds will initially be allocated on a per acre basis within the District. Upon platting, the principal and long term assessment levied on each benefited property will be allocated to platted lots and developed units in accordance with this First Supplemental Report.

SUBJECT: Market Value Appraisal Gas Worx - Ybor South NE Channelside Dr. & NE Adamo Dr. (Ybor City) Tampa, Hillsborough County, Florida 33605 Client Reference: 593-9488 IRR - Tampa Bay File No. 148-2024-0517

Dear Mr. Tyrrell:

Integra Realty Resources – Tampa Bay is pleased to submit the accompanying appraisal of the referenced property. The purpose of the appraisal is to develop the following opinions of values:

• The bulk market value as is of the fee simple interest in the subject property as of the effective date of the appraisal, July 30, 2024

The client for the assignment is KS Ybor JV, LLC The intended users of this report are KS Ybor JV, LLC and/or affiliates. The intended use of the report is for asset valuation purposes. No other party or parties may use or rely on the information, opinions, and conclusions contained in this report.

The subject property consists of Gas Worx - Ybor South, a 19.15 acre portion of the Gas Worx development totaling 50+ acres. The project is bordered by Adamo Drive on the south (including the Four Green Fields Irish Pub that reopened in an old warehouse at the edge of the Channel District), by N. 15th Street on the east, E. 5th Avenue to the north and Scott Street to the west. The project is expected to reconnect Ybor City, Tampa's historic Latin quarter, with the thriving Channel District neighborhood along the port, the new high-rises of Water Street and Encore, the mixed-use redevelopment district at downtown's edge. The city's historic grid would be restored with nearly two miles of new streets.

Gas Worx contains 50 acres and 6 million square feet of mixed-use area. Gas Worx is slated to have up to 5,000 residences in the city's urban core with 500,000 square feet of office space and 200,000 square feet of retail. Also included: 325 units of affordable housing - which developers called the largest such private commitment in the city to date. Development of the project commenced in the summer of 2024 and will be completed through several phases over the next ten years. The subject of this appraisal represents 19.15 acres of the 50 gross acres. The subject acreage will be encumbered by a CDD (Community Development District). The subject portion of the development has also received TIF/CRA dollars to assist in the development costs of critical infrastructure to the tune of \$116,727,705.

The subject property represents Gas Worx - Ybor South, a 19.15 acre portion of the 50 acre Gas Worx mixed use development. The subject property will be encumbered by a CDD and will offer 13 lots planned for a mix of retail, office, and multi-family development. The property also benefits from TIF/CRA dollars to assist in the funding of infrastructure projects. The subject land is located along the southwest side of Ybor City extending westward towards Channelside and downtown Tampa. Currently, various subject parcels are improved with a mix of older industrial and commercial buildings which will be razed and redeveloped. It was noted that parcel 189661-0000 is improved with a 70,654 square foot warehouse. The developers intend to raze 1/2 the building and redevelop the remaining building for retail/commercial use. The building upon completion of renovation is beyond the scope of our analysis. Considering the current poor condition of the building and extensive renovations planned, this building was not considered contributory in value. The development and associated entitlements for the subject are further detailed in the table below:

# **Identification of the Appraisal Problem**

## **Subject Description**

The subject property represents Gas Worx - Ybor South, a 19.15 acre portion of the 50 acre Gas Worx mixed use development. The subject property will be encumbered by a CDD and will offer 13 lots planned for a mix of retail, office, and multi-family development. The property also benefits from TIF/CRA dollars to assist in the funding of infrastructure projects. The subject land is located along the southwest side of Ybor City extending westward towards Channelside and downtown Tampa. Currently, various subject parcels are improved with a mix of older industrial and commercial buildings which will be razed and redeveloped. It was noted that parcel 189661-0000 is improved with a 70,654 square foot warehouse. The developers intend to raze 1/2 the building and redevelop the remaining building for retail/commercial use. The building upon completion of renovation is beyond the scope of our analysis. Considering the current poor condition of the building and extensive renovations planned, this building was not considered contributory in value. The development and associated entitlements for the subject are further detailed in the table below:

# **Scope of Work**

## Introduction

The appraisal development and reporting processes require gathering and analyzing information about the assignment elements necessary to properly identify the appraisal problem. The scope of work decision includes the research and analyses necessary to develop credible assignment results, given the intended use of the appraisal. Sufficient information includes disclosure of research and analyses performed and might also include disclosure of research and analyses not performed.

To determine the appropriate scope of work for the assignment, the intended use of the appraisal, the needs of the user, the complexity of the property, and other pertinent factors were considered. The concluded scope of work is described below.

# **Research and Analysis**

The type and extent of the research and analysis conducted are detailed in individual sections of the report. The steps taken to verify comparable data are disclosed in the addenda of this report. Although effort has been made to confirm the arms-length nature of each sale with a party to the transaction, it is sometimes necessary to rely on secondary verification from sources deemed reliable.

# **Subject Property Data Sources**

The legal and physical features of the subject property, including size of the site, flood plain data, seismic zone designation, property zoning, existing easements and encumbrances, access and exposure, and condition of the improvements (as applicable) were confirmed and analyzed.

The financial data of the subject, including tax and assessment records was analyzed. This information, as well as trends established by confirmed market indicators, is used to forecast future performance of the subject property.

## Inspection

Details regarding the property inspection conducted as part of this appraisal assignment are summarized as follows:

Property Inspection		
Party	Inspection Type	Inspection Date
Bruce D. Throdahl	On-site	July 30, 2024

# Valuation Methodology

Three approaches to value are typically considered when developing a market value opinion for real property. These are the cost approach, the sales comparison approach, and the income capitalization approach. Use of the approaches in this assignment is summarized as follows:

7

Approaches to Value			
Approach	Applicability to Subject	Use in Assignment	
Cost Approach	Not Applicable	Not Utilized	
Sales Comparison Approach	Applicable	Utilized	
Income Capitalization Approach	Applicable	Utilized	

The resulting final value estimates were reconciled based on their relative strengths, weaknesses, and appropriateness, into a final value estimate. This summary appraisal report is a written record of our conclusions and opinions, containing the most pertinent market data utilized and a discussion of the most pertinent reasoning underlying our estimates. Due to the unique qualities of the subject property consists of a large assemblage of land located in a heavily developed market area of Tampa with limited developable land, and that the property has incurred site work, in estimating the as is market value, we employed the land residual method. This methodology involves deducting the estimated site costs, including entrepreneurial profit, from the prospective bulk market retail value in concluding to an as is market value. In this instance, we used the Sales Comparison Approach and the Discounted Sell-Out Approach, a form of the income approach, in concluding to an estimate of market value for the subject property.

# **Economic Analysis**

## **Hillsborough County Area Analysis**

Hillsborough County is located in western Florida approximately 60 miles north of Sarasota. It is 1,020 square miles in size and has a population density of 1,523 persons per square mile.

## Population

Hillsborough County has an estimated 2024 population of 1,553,416, which represents an average annual 1.6% increase over the 2020 census of 1,459,762. Hillsborough County added an average of 23,414 residents per year over the 2020-2024 period, and its annual growth rate exceeded the State of Florida rate of 1.3%.

Looking forward, Hillsborough County's population is projected to increase at a 1.2% annual rate from 2024-2029, equivalent to the addition of an average of 19,034 residents per year. Hillsborough County's growth rate is expected to exceed that of Florida, which is projected to be 1.0%.

	Population	Population			
	2020 Census	2024 Estimate	2029 Projection	2020 - 2024	2024 - 2029
Hillsborough County	1,459,762	1,553,416	1,648,587	1.6%	1.2%

Florida	21,538,187	22,724,182	23,916,544	1.3%	1.0%

## Employment

Total employment in Hillsborough County was estimated at 796,876 jobs at year-end 2023. Between year-end 2013 and 2023, employment rose by 172,248 jobs, equivalent to a 27.6% increase over the entire period. There were gains in employment in nine out of the past ten years. Hillsborough County's rate of employment growth over the last decade surpassed that of Florida, which experienced an increase in employment of 27.5% or 2,128,533 jobs over this period.

A comparison of unemployment rates is another way of gauging an area's economic health. Over the past decade, the Hillsborough County unemployment rate has been generally lower than that of Florida, with an average unemployment rate of 4.6% in comparison to a 4.9% rate for Florida. A lower unemployment rate is a positive indicator.

Recent data shows that the Hillsborough County unemployment rate is 3.2% in comparison to a 3.1% rate for Florida, a negative sign for the Hillsborough County economy but one that must be tempered by the fact that Hillsborough County has outperformed Florida in the rate of job growth over the past two years.

According to the most recent Norada Housing Market Report, Tampa's housing market has gained significant recognition within Florida. Fueled by a robust job market and a flourishing commercial sector, Tampa has become a magnet for aspiring residents. Deciding to enter this market necessitates understanding current trends to navigate its behavior effectively.

While Tampa offers a plethora of housing options, it's important to acknowledge its reputation for being pricier compared to other Florida cities. This article delves into everything you need to know about Tampa's housing market, including current home values, noteworthy trends, and valuable insights to empower your decisions.

#### Tampa Housing Market in 2024

Tampa's housing market in 2024 is a balanced market with more inventory for buyers, but sellers can still benefit if they price competitively. Let's delve into the data to understand the key metrics that define the current landscape.

#### Home Sales: A Positive Trajectory

Good news for the Tampa market. Closed sales are up 5.5% year-over-year, reflecting healthy buyer demand. This positive trend is further bolstered by a significant increase in new listings (up 32.9%) compared to April 2023. This indicates strong seller confidence and a market with room for growth.

### **Home Prices: A Nuanced Picture**

The median sale price in Tampa dipped slightly (around 1.1%) compared to April 2023. However, the average sale price still shows growth of 7.6%. This interesting detail suggests a market where a wider variety of properties are finding buyers, catering to diverse budgets. It could also signal a slight shift towards a more balanced market. Here's a table summarizing the data points for home prices:

METRIC	APRIL 2024	YOY CHANGE
Median Sale Price	\$417,800	+4.5%
Average Sale Price	\$537,216	+7.6%

Interestingly, cash purchases are on the rise, with a 14.3% year-over-year increase. This could be due to a combination of factors, including investors entering the market and buyers looking to strengthen their offers in a competitive environment.

## Housing Supply: A Buyer's Ally (with Caution)

Inventory levels have climbed significantly, with over 10,000 active listings available. This translates to a 67.2% increase in inventory compared to last year. This is a welcome sign for buyers who now have more options to choose from. However, with competition still present, especially for desirable properties, a strategic approach remains important. The slight increase in time to sell a home (around 3 days) suggests buyers are taking a more measured approach, carefully evaluating properties before making an offer.

### Market Trends: A Blend of Growth and Evolving Dynamics

The Tampa market in 2024 is a story of expansion with some intriguing nuances. While buyer demand remains strong, as evidenced by the increase in closed sales, there are signs of a slight shift in pricing. The rise in inventory and dip in median sale price suggest a potential move towards a more balanced market. With cash purchases increasing, it's important for sellers to price competitively to attract a wider pool of buyers who may require financing.

### Tampa Real Estate Appreciation Trends

- Over the past 10 years, Tampa's real estate has seen impressive appreciation, with a total increase of 185.12% (neighborhoodscout).
- This translates to an average annual appreciation rate of 11.05%, placing Tampa among the top 10% in the nation.

- The current annual appreciation rate sits at 4.81%, which is around the national average.
- The latest quarter's appreciation rate is even lower at 1.92% (annualized at 7.91%).

### Comparison Within Florida:

### Key Takeaways:

- However, the recent market shows a slowdown compared to the national average and other parts of Florida.

### What does this mean for you?

- If you're considering a long-term investment in Tampa real estate, historical data suggests it could be a good option.
- However, for short-term gains, it's important to factor in the current market slowdown and research specific neighborhoods for their performance.

#### **Tampa Housing Market Predictions 2024**

The Tampa Bay area has been a hotbed for real estate activity in recent years. With its sunny skies, vibrant economy, and attractive lifestyle, it's no surprise that homes are selling quickly and at competitive prices. But what does the future hold for the Tampa housing market? Let's delve into the data and see if we can predict a crash or a boom.

#### Market Snapshot: Strong Demand, Shifting Dynamics

The current market leans towards sellers. Homes are flying off the shelves, with the average Tampa home going pending in just 19 days. This indicates strong buyer demand, reflected in the median sale price reaching \$366,667 (*Zillow*).

Interestingly, the median list price sits at \$431,600 (as of April 30, 2024), suggesting some room for negotiation. This is further supported by the data on sales over/under list price: 16.8% of sales went above asking price, while a significant portion (67.1%) sold under.

#### A Look at the Forecast

The provided forecast for the Tampa MSA (Tampa-St. Petersburg-Clearwater Area) offers valuable insights. While growth might seem stagnant with a 0.1% increase predicted for May 2024, a closer look reveals a potential for stabilization.

The following quarter (July 2024) shows no change, indicating a possible plateauing of prices. The big picture emerges in the 2025 forecast, with a projected growth of 1.4%. This suggests a shift from the rapid price hikes of the past towards a more balanced market.

#### Crash or Boom?

The data points away from a dramatic crash or an explosive boom. The market seems to be finding its equilibrium, with a potential slowdown in price appreciation. This could be good news for both buyers and sellers. Buyers might see more inventory options and potentially negotiate better deals. Sellers, on the other hand, can still expect a healthy market with continued demand.

Rental rates have increased an average of 5.69% per annum since 2015. Retail rents are reported here on a triple net basis, which means that the tenant is responsible for a majority of the operating expenses.

A total of 206 buildings were delivered to the market over the prior year totaling 1,010,051 square feet, which is slightly high when compared to recent surveyed years. It was also noted that as of Q2 2024, approximately 625,486 square feet of retail space is currently under construction, indicating demand for this space type remains strong.

## **Subject Demand**

As illustrated by the residential, office, and retail market overviews, though at a slower pace as compared to the last few years, the Tampa real estate market continues to show sustained growth and demand. The subject development is a unique opportunity for the Tampa area and is expected to be well received by the market. The subject project will help continue the transformation of the Tampa market area. Per the information provided, site work (primarily the razing of existing structures) will cost approximately \$350,000.

With minimal site work needed, we have estimated that all of the required site work and the sale of the subject lots would occur within one year of the effective date. Considering the short sell-out period, a discount rate was not applied in our analysis. We have deducted a profit factor, marketing costs, site work costs, and carrying costs from the Prospective Bulk Retail Value in concluding to an As Is Value for the subject property.

# **Real Estate Taxes**

Real estate tax assessments are administered by Hillsborough County and are estimated by jurisdiction on a county basis for the subject. Real estate taxes in this state and this jurisdiction represent ad valorem taxes, meaning a tax applied in proportion to value as well as an additional detail tax or non-ad valorem tax.

Taxes in Hillsborough County are due March 31<sup>st</sup> annually. However, if taxes are paid by November 30th, a 4% discount is applied to the total tax liability. The discount drops by 1% per month after that until they are due. For this reason, at any time the total amount of taxes paid may differ from the total tax liability.

The assessed values are based upon the current conversion assessment rate of 100% of Assessor's market value. This is called the just value, which in effect is supposed to represent 85%-90% of market value. In reality, it typically represents 50%-80% of value.

According to the Hillsborough County Tax Collector, the 2023 taxes were paid early on November 11, 2023. They received a discount of 4% and were validated in the amount of \$434,364. Per our analysis, the tax liability appears low.

# **Highest and Best Use**

The highest and best use of a property is the reasonably probable use resulting in the highest value, and represents the use of an asset that maximizes its productivity.

# Process

Before a property can be valued, an opinion of highest and best use must be developed for the subject site, both as though vacant, and as improved or proposed. By definition, the highest and best use must be:

- Physically possible.
- Legally permissible under the zoning regulations and other restrictions that apply to the site.
- Financially feasible.
- Maximally productive, i.e., capable of producing the highest value from among the permissible, possible, and financially feasible uses.

# As Though Vacant

First, the property is evaluated as though vacant, with no improvements.

# **Physically Possible**

The physical characteristics of the site do not appear to impose any unusual restrictions on development. Overall, the physical characteristics of the site and the availability of utilities result in functional utility suitable for a variety of uses.

# **Legally Permissible**

The site is zoned RM-24, IG, PD, YC-6, YC-9, Multi-Family, Industrial, Planned Development, Ybor Community Commercial, and Ybor Site Planned Controlled. The subject zoning permits for a wide variety of commercial and multi-family uses. The subject site represents Gas Worx - Ybor South, a 19.15 acre portion of the Gas Worx development and will be encumbered by a CDD and also benefits from TIF/CRA credits. The subject 19.15 acres is planned for the development of 187,100 square feet of retail space, 510,400 square feet of office space, and 3,722 multi-family units. There are no apparent legal restrictions, such as easements or deed restrictions, effectively limiting the use of the property. Given prevailing land use patterns in the area, only mixed use development is given further consideration in determining highest and best use of the site, as though vacant.

# **Financially Feasible**

Based on the accompanying analysis of the market, there is currently adequate demand for mixed use development in the subject's area. It appears a newly developed mixed use community on the site would have a value commensurate with its cost. Therefore, mixed use development is considered to be financially feasible.

# **Maximally Productive**

There does not appear to be any reasonably probable use of the site that would generate a higher residual land value than mixed use development. Accordingly, a mixed use project developed to the normal market density level permitted by zoning, is the maximally productive use of the property.

# Conclusion

Development of the site for a mixed use community is the only use which meets the four tests of highest and best use. Therefore, it is concluded to be the highest and best use of the property as though vacant.

# As Improved

The subject property represents Gas Worx - Ybor South, a 19.15 acre portion of the 50 acre Gas Worx mixed use development. The subject property will be encumbered by a CDD and will offer 13 lots planned for a mix of retail, office, and multi-family development. The property also benefits from TIF/CRA dollars to assist in the funding of infrastructure projects. The subject land is located along the southwest side of Ybor City extending westward towards Channelside and downtown Tampa. Currently, various subject parcels are improved with a mix of older industrial and commercial buildings which will be razed and redeveloped. It was noted that parcel 189661-0000 is improved with a 70,654 square foot warehouse. The developers intend to raze 1/2 the building and redevelop the remaining building for retail/commercial use. The building upon completion of renovation is beyond the scope of our analysis. Considering the current poor condition of the building and extensive renovations planned, this building was not considered contributory in value. The development and associated entitlements for the subject are further detailed in the table below:

It is our opinion that the subject proposed development is financially feasible. Accordingly, the highest and best use of the subject site, based on our analysis, is for a mixed use development.

Taking into account the characteristics of the site, as well as area development trends, the probable buyer is a developer.

# Valuation

# Valuation Methodology

Appraisers usually consider three approaches to estimating the market value of real property. These are the cost approach, sales comparison approach and the income capitalization approach.

In order to estimate the "bulk" market value as is, the **Discounted Sellout Approach**, which begins by estimating the retail price of each lot, as if developed and ready for sale. This is based upon direct comparison (**Sales Comparison Approach**) with competing parcels in the subject market area. From the total amount of gross sale proceeds, we subtracted the costs incurred in selling the units on a retail basis. These costs typically include sales expenses, marketing and advertising costs, real estate taxes, closing costs, general administration, and financing or carrying costs. The net income is then discounted at a rate that considers both the time value of money and the amount of entrepreneurial profit and overhead necessary for development of the project. The present value of the cash flow received during the sellout period is, in effect, a Discounted Cash Flow Analysis, resulting in a value estimate for the subject property as if sold to one buyer in "bulk."

Reconciliation of the various indications into a conclusion of value is based on an evaluation of the quantity and quality of available data in each approach and the applicability of each approach to the property type.

As discussed previously, the property is divided for valuation purposes as follows:

Land Parcels	
Name	Unit of Comparison
Gas Worx	
Commercial Parcels - W3, C2, and E2	Usable SF
High Density Multi-Family Parcels - W4, C3, C4, & E7	MF Units
Low Density Multi-Family Parcels - W5, E1, & E5	MF Units
Mixed Use Commercial/Multi-Family Parcels - E3, E4, & E6	MF Units

# Sales Comparison Approach – Gas Worx Ybor South

# Commercial Parcels - W3, C2, and E2

To apply the sales comparison approach to the Commercial Parcels - W3, C2, and E2, site the research focused on transactions within the following parameters:

- Location: City of Tampa
- Size: Less than 3.0 acres
- Use: Commercial
- Transaction Date: Transaction Date: January 2022 to present

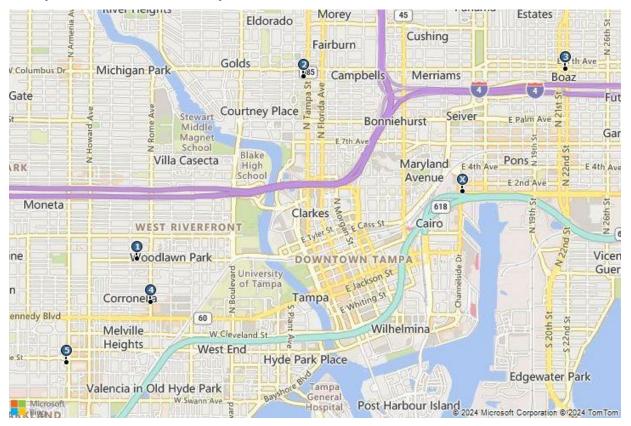

For this analysis, price per usable square foot is used as the appropriate unit of comparison because market participants typically compare sale prices and property values on this basis. The most relevant sales are summarized in the following table.

# Analysis and Adjustment of Sales

Adjustments are based on a rating of each comparable sale in relation to the subject. The adjustment process is typically applied through either quantitative or qualitative analysis, or a combination of both analyses. Quantitative adjustments are often developed as dollar or percentage amounts, and are most credible when there is sufficient data to perform a paired sales analysis.

While percentage adjustments are presented in the adjustment grid, they are based on qualitative judgment rather than empirical research, as there is not sufficient data to develop a sound quantitative estimate. Although the adjustments appear to be mathematically precise, they are merely intended to illustrate an opinion of typical market activity and perception. With the exception of market conditions, the adjustments are based on a scale, with a minor adjustment in the range of 1-5% and a substantial adjustment considered to be 20% or greater.

The rating of each comparable sale in relation to the subject is the basis for the adjustments. If the comparable is superior to the subject, its sale price is adjusted downward to reflect the subject's relative attributes; if the comparable is inferior, its price is adjusted upward.

Transactional adjustments are applied for property rights conveyed, financing, conditions of sale, expenditures made immediately after purchase, and market conditions. In addition, property adjustments include – but are not limited to – location, access/exposure, size, quality, effective age, economic and legal characteristics, and non-realty components of value. Adjustments are considered for the following factors, in the sequence shown below.

# **Transactional Adjustments**

# Real Property Rights Conveyed

The opinion of value in this report is based on a fee simple estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power and escheat, as well as non-detrimental easements, community facility districts, and conditions, covenants and restrictions (CC&Rs). All the comparables represent fee simple estate transactions. Therefore, adjustments for property rights are not necessary.

# Financing Terms

In analyzing the comparables, it is necessary to adjust for financing terms that differ from market terms. Typically, if the buyer retained third-party financing (other than the seller) for the purpose of purchasing the property, a cash price is presumed and no adjustment is required. However, in instances where the seller provides financing as a debt instrument, a premium may have been paid by the buyer for below-market financing terms, or a discount may have been demanded by the buyer if the financing terms were above market. The premium or discounted price must then be adjusted to a cash equivalent basis. The comparable sales represented cash-to-seller transactions and, therefore, do not require adjustment.

# **Conditions of Sale**

Adverse conditions of sale can account for a significant discrepancy from the sale price actually paid, compared to that of the market. This discrepancy in price is generally attributed to the motivations of the buyer and the seller. Certain conditions of sale are considered non-market and may include the following:

- a seller acting under duress (e.g., eminent domain, foreclosure);
- buyer motivation (e.g., premium paid for assemblage, certain 1031 exchanges);
- a lack of exposure to the open market;
- an unusual tax consideration;
- a sale at legal auction.

None of the comparable sales had atypical or unusual conditions of sale. Thus, adjustments are not necessary.

# Expenditures Made Immediately After Purchase

This category considers expenditures incurred immediately after the purchase of a property. There were no issues of deferred maintenance reported for any of the properties. No adjustments are required for expenditures after sale.

# **Market Conditions**

A market conditions adjustment is applied when market conditions at the time of sale differ from market conditions as of the effective date of value. Adjustments can be positive when prices are rising, or negative when markets are challenged by factors such as a deterioration of the economy or adverse changes in supply and/or demand in the market area. Consideration must also be given to when the property was placed under contract, versus when the sale actually closed.

In evaluating market conditions, changes between the comparable sale date and the effective date of this appraisal may warrant adjustment; however, if market conditions have not changed, then no adjustment is required.

The sales took place from January 2022 to April 2024. Market conditions have generally been strengthening. The adjustment grid accounts for this trend with upward adjustments over this period through the effective date of value.

# **Property Adjustments**

# Location

Factors considered in evaluating location include, but are not limited to, demographics, growth rates, surrounding uses and property values.

Sales 1, 4 and 5 are adjusted downward for superior location. Sales 2 and 3 are adjusted upward for inferior location.

# Access/Exposure

Convenience to transportation facilities, ease of site access, and overall visibility of a property can have a direct impact on property value. High visibility, however, may not translate into higher value if it is not accompanied by good access. In general, high visibility and convenient access, including proximity to major linkages, are considered positive amenities when compared to properties with inferior attributes.

All of the comparables are similar to the subject. No adjustments are necessary.

# Size

Due to economies of scale, the market exhibits an inverse relationship between land area and price per square foot, such that larger sites generally sell for a lower price per square foot than smaller lots, all else being equal. To account for this relationship, applicable adjustments are applied for differences in land area. The comparables that are larger than the subject are adjusted upward, and vice versa.

In this instance, the appropriate adjustments were applied.

# Shape and Topography

This category accounts for the shape of the site influencing its overall utility and/or development potential, as well as the grade of the land.

All of the comparables are similar to the subject. No adjustments are necessary.

# Zoning

This element of comparison accounts for government regulations that can affect the types and intensities of uses allowable on a site. Moreover, this category includes considerations such as allowable density or floor area ratio, structure height, setbacks, parking requirements, landscaping, and other development standards.

In this instance, Sale 4 with an inferior industrial zoning warranted an upward adjustment.

# **Adjustments Summary**

The sales are compared to the subject and adjusted to account for material differences that affect value. The following table summarizes the adjustments applied to each sale.

# Land Value Conclusion – Commercial Parcels - W3, C2, and E2

Prior to adjustments, the sales reflect a range of \$68.28 - \$159.72 per usable square foot. After adjustment, the range is \$87.91 - \$145.19 per usable square foot, with an average of \$108.58 per usable square foot.

After considering the sales presented, we placed primary weight on Sales 1, 4, and 5, as they provide a narrower range of value and due to their similar levels of demand as to the subject. Secondary weight was placed on Sales 2 and 3, due to their inferior location. After considering the comparables presented, we arrive at the following value conclusions:

# Analysis and Adjustment of Sales

Adjustments are considered for the following factors in the sequence shown below.

# **Transactional Adjustments**

# **Real Property Rights Conveyed**

All the comparables represent fee simple estate transactions. Therefore, adjustments for property rights are not necessary.

# **Financing Terms**

The comparable sales represented cash-to-seller transactions and, therefore, do not require adjustment.

# **Conditions of Sale**

None of the comparable sales had atypical or unusual conditions of sale. Thus, adjustments are not necessary.

# Expenditures Made Immediately After Purchase

There were no issues of deferred maintenance reported for any of the properties. No adjustments are required for expenditures after sale.

# Market Conditions

The sales took place from November 2021 to October 2023. Market conditions have generally been strengthening. The adjustment grid accounts for this trend with upward adjustments over this period through the effective date of value.

# **Property Adjustments**

# Location

Factors considered in evaluating location include, but are not limited to, demographics, growth rates, surrounding uses and property values.

Sales 1, 3, 4 and 5 are similar to the subject. No adjustments are necessary. Sales 2 and 6 are adjusted downward for superior location.

# Access/Exposure

Convenience to transportation facilities, ease of site access, and overall visibility of a property can have a direct impact on property value. High visibility, however, may not translate into higher value if it is not accompanied by good access. In general, high visibility and convenient access, including proximity to major linkages, are considered positive amenities when compared to properties with inferior attributes.

All of the comparables are similar to the subject. No adjustments are necessary.

# Size - Units

This category accounts for the number of approved units. Typically, properties approved for a greater number of units sell for less per unit than properties approved for a lesser number of units and vice versa.

All of the comparables are similar to the subject. No adjustments are necessary.

# Shape and Topography

This category accounts for the shape of the site influencing its overall utility and/or development potential, as well as the grade of the land.

All of the comparables are similar to the subject. No adjustments are necessary.

# Zoning/Density

This category accounts for a property's approved density. Typically, properties approved for a greater density sell for less per unit than properties approved for a lesser density and vice versa.

Sales 1, 3, 4, 5 and 6 are superior to the subject. Downward adjustments are applied. Sale 2 is inferior to the subject. An upward adjustment is applied.

# **Commercial Entitlements**

This element of comparison accounts for commercial development approvals within a multi-family development. Typically, commercial approvals provide additional value to a multi-family development site.

In this instance, Sales 2 – 5 benefiting from commercial approvals warranted downward adjustments.

# Adjustments Summary

The sales are compared to the subject and adjusted to account for material differences that affect value. The following table summarizes the adjustments applied to each sale.

After considering the sales presented, we placed primary weight on Sales 1, 2, 3, 5, and 6, as they provide a narrower range of value. Secondary weight was applied to Sale 4, as it appears to be an outlier. After considering the comparables presented, we arrive at the following value conclusions:

Land Value Conclusion	
Gas Worx - Lot E3	
Indicated Value per Unit	\$30,000
Subject Units	376
Indicated Value	\$11,280,000
Rounded	\$11,280,000

• Lot E6 require a downward adjustment, as the property is approved for a greater density. After adjustments, we concluded to an indicated value of \$25,000/unit.

### **Discounted Sell-Out Approach – Bulk Market Value As Is**

The discounted sellout approach begins by estimating the unit price and absorption rate of subject parcels as if developed and ready for sale, based upon direct comparison with competing properties. The costs to develop and sell the units on a retail basis are subtracted from the projected gross sale proceeds in each year. These costs typically include sales expenses, marketing and advertising costs, real estate taxes, closing costs, administrative overhead, maintenance costs, and capital improvement costs.

The net income is then discounted at a rate that considers the risk and return characteristics associated with the project. Entrepreneurial profit considered necessary incentive for development of the project is then deducted. The present value of the cash flow received during the sellout period is, in effect, a Discounted Cash Flow Analysis, resulting in a value estimate for the subject property as if sold to one buyer in "bulk" assuming the improvements are completed.

The following steps are required to complete this approach:

- 1. Estimate the per lot retail value.
- 2. Estimate an appropriate appreciation factor.
- 3. Estimate an appropriate absorption period.
- 4. Estimate the cost of sales.
- 5. Estimate cost of real estate taxes.
- 6. Estimate general and administrative costs throughout the absorption period.
- 7. Estimate an appropriate profit for the investor.
- 8. Estimate an appropriate discount rate.
- 9. Deduction of site costs. In this instance, as the site costs are minimal, we have not deducted costs associated with the razing or demolition of any structures as a separate line item. Within our market these costs are inherently incorporated in the new development expenses.
- 10. Discount, via the Discounted Cash Flow model, the projected retail prices, less expenses, to a present value.

The discounted sellout/development approach was used to estimate the as is bulk market value.

The concluded gross retail value is detailed below:

Gross Retail Value		
Total Acres	No. Lots	Gross Retail Value
19.15	13	\$125,110,000
Aggregate Retail Value		\$125,110,000

#### **Subject Demand**

As illustrated by the residential, office, and retail market overviews, though at a slower pace as compared to the last few years, the Tampa real estate market continues to show sustained growth and demand. The subject development is a unique opportunity for the Tampa area and is expected to be well received by the market. The subject project will help continue the transformation of the Tampa market area.

With minimal site work expense required by the developer, in this instance, we have not deducted costs associated with the razing or demolition of any structures as a separate line item. Within our market these costs are inherently incorporated in the new development expenses.

Considering the short sell-out period, a discount rate was not applied in our analysis. We have deducted a profit factor, marketing costs, and carrying costs from the Bulk Retail Value in concluding to an As Is Value for the subject property.

#### **Price Escalation**

As the subject parcels are anticipated to sell-out within 12-months of the effective date of this appraisal, an escalator was not applied.

#### Expenses Incurred During Sellout – "As Is" Bulk Market Value

Sales and holding expenses for the subject units usually have a strong correlation with sale revenues and consist of variable and fixed items. The variable items tend to fluctuate with sales activity, whereas the fixed expenses remain constant over the sellout period. Therefore, we stated some of the expenses as a fixed amount and some as a percentage of sale revenues. Holding and marketing costs are based on actual costs of competitive communities. Expenses associated with selling out the inventory are as follows:

**Property taxes** for the subject property taxes are a cost to the developer until the units have been sold to end-users. In this instance, we have applied the previously discussed annual tax liability of \$452,463. As the subject parcels are anticipated to sell-out within a 12-month period, the estimated tax liability will be passed to the purchaser and thus was not applied in our analysis.

**CDD Fees (Community Development District Fees)** as the CDD has yet to be established and as all of the parcels are anticipated to sell-out within a 12-month period any CDD fees will be passed to the purchaser.

**Advertising and marketing expenses** were calculated based on 1.0% of the total revenues for the subject units. This expense includes funding necessary to market the units over the course of the projected sell-out. This estimate is based on conversations with marketing directors of various comparable projects and our experience appraising similar projects. Advertising and marketing costs are incurred in

during the construction period and through the sell-out in order to generate sales and thus lead sales by one sales period.

**Sales and closing expense** is estimated at 5.0% of gross sales revenues. This expense is allocated as 4.0% for sales and 1.0% for closing expenses, which includes document stamps and title fees associated with the unit sales. Commissions are not typically paid on builder take down contracts. This expense also includes commissions and selling bonuses to staff or to outside brokers who may bring clients to the project. This commission is included in the estimated sales and closing expense. These expenses occur at the time of closing and thus were applied in the second sales period.

**Administrative overhead expense** includes management and clerical salaries and all overhead expenses associated with developing a property of this size. The administrative overhead expense is estimated at 0.5% of gross lot revenues and applied evenly throughout the sell-out period.

**Entrepreneurial profit** is earned by a developer from several sources in a development project. In this instance, we have included entrepreneurial profit as a separate line item in the amount of 10%.

#### Yield Rate/Developer Profit

A discount rate is applied to convert the projected cash flows into a present value indication. The discount rate is a rate of return commensurate with perceived risk used to convert future payments to present value. This discount rate reflects the compensation offered to an investor for assuming the inherent risk associated with the property. The discount rate varies with the size, complexity, market potential, overall quality, appeal, estimated absorption, and pricing of the product.

There are two general methods for applying appropriate rates of return, and both recognize that engaging in a future sales program over time provides a riskier income stream than conventional stabilized real estate investment properties. One method is to apply a single higher discount rate to the projected cash flows. A second method is to bifurcate the risk elements by applying a typical discount rate associated with the characteristics of real estate investment, and to deduct a separate profit amount to compensate for the return necessary for incurring the risk of selling each individual unit on a speculative basis.

Developer's profit and discount rate assumptions are interrelated. Assumptions regarding entrepreneurial profit can vary considerably depending on the structure of the analysis. Profit can be included as a specific line-item expense in the cash flow or reflected in the discount rate. There are several ways to handle entrepreneurial profit in a cash flow forecast.<sup>3</sup> The two most common in this market being: 1) deduction as a line-item expense based on a percentage of retail sales revenues under a static residual model; and, 2) increase the discount rate to account for the entrepreneur's contribution in addition to project risk under a yield residual model.

<sup>&</sup>lt;sup>3</sup> Appraisal Institute, *Subdivision Analyses*, (AI, Chicago, IL: 1993); p. 53.

In this instance, we have selected to account for entrepreneurial profit as a separate line item.

One of the most common sources of estimating an appropriate yield rate is referencing investor surveys. We have referenced the *PwC Real Estate Investor Survey*, one of the widest quoted sources of such data. The *PwC Real Estate Investor Survey* reflects a quarterly survey of dozens of residential, office, retail and industrial developers regarding typical land investment criteria and analysis techniques.<sup>4</sup> In addition, they inquire as to the methodologies used by market participants to calculate the appropriate return for typical land investments, as well as to determine those levels of return currently required to induce participation.

These surveyed rates are inclusive of developer profit, and assume entitlements are in place.

	TOR SURVEY DATA	
DISCOUNT RATE Survey Name	PwC	RealtyRates.Com
Date	Q1 Quarter 2024	Q1 Quarter 2024
Market	National Development	Southeast
Range	12.0% - 30.0%	11.15% - 17.94%
Average	19.20%	13.99%

These two surveys indicate a range from 12.00% to 30.00% and an average range from 13.99% to 19.20%. The overall average equates to 16.60%.

In the case of both *PwC Real Estate Investor Survey* and *Realty Rates.com Developers Survey, the* rates reflect anticipated returns for land that has entitlements in-place but is not improved.

With regard to the specific characteristics of the subject, we considered the following positive characteristics:

- The market has shown sustained improvement and upward growth momentum.
- The property is located with an area of revitalization and redevelopment that has shown strong levels of demand.
- There is limited competitive supply in the subject market area.
- The property has progressed along the development time line and has commenced marketing and site work has commenced.

We also consider the following negative characteristics:

• Though the market has continued to perform well, due to the recent increase in interest rates there is fundamental uncertainty about the outlook for new development and the continued sustained positive appreciation of the subject submarket.

<sup>&</sup>lt;sup>4</sup> PwC Real Estate Investor Survey, 4<sup>th</sup> Quarter 2018, PricewaterhouseCoopers, LLP, Suite 48,

The greatest risk for residential development is when a property is in a raw land condition. As the development progresses through the different development stages, the risk is reduced. As the subject property benefits from site improvements and marketing, there is less remaining risk in the development of the property.

For the Bulk Market Value "As Is", considering the subject property consists of an approved developing project and all of the subject parcels would sell-out within a 12 month period a yield rate was not applied.

conditions, the absence of material changes in the competitive environment and other matters. Some estimates or assumptions, however, inevitably will not materialize, and unanticipated events and circumstances may occur; therefore, actual results achieved during the period covered by our analysis will vary from our estimates, and the variations may be material.

- 18. The Americans with Disabilities Act (ADA) became effective January 26, 1992. We have not made a specific survey or analysis of the property to determine whether the physical aspects of the improvements meet the ADA accessibility guidelines. We claim no expertise in ADA issues, and render no opinion regarding compliance of the subject with ADA regulations. Inasmuch as compliance matches each owner's financial ability with the cost to cure the non-conforming physical characteristics of a property, a specific study of both the owner's financial ability and the cost to cure any deficiencies would be needed for the Department of Justice to determine compliance.

IRR Tampa Bay, Integra Realty Resources, Inc., and their respective officers, owners, managers, directors, agents, subcontractors or employees (the "Integra Parties"), shall not be responsible for any such environmental conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because we are not experts in the field of environmental conditions, the appraisal report cannot be considered as an environmental assessment of the subject property.
- 21. The persons signing the report may have reviewed available flood maps and may have noted in the appraisal report whether the subject property is located in an identified Special Flood Hazard Area. However, we are not qualified to detect such areas and therefore do not guarantee such determinations. The presence of flood plain areas and/or wetlands may affect the value of the property, and the value conclusion is predicated on the assumption that wetlands are non-existent or minimal.

- 26. The conclusions of this report are estimates based on known current trends and reasonably foreseeable future occurrences. These estimates are based partly on property information, data obtained in public records, interviews, existing trends, buyer-seller decision criteria in the current market, and research conducted by third parties, and such data are not always completely reliable. The Integra Parties are not responsible for these and other future occurrences that could not have reasonably been foreseen on the effective date of this assignment. Furthermore, it is inevitable that some assumptions will not materialize and that unanticipated events may occur that will likely affect actual performance. While we are of the opinion that our findings are reasonable based on current market conditions, we do not represent that these estimates will actually be achieved, as they are subject to considerable risk and uncertainty. Moreover, we assume competent and effective management and marketing for the duration of the projected holding period of this property.
- 27. All prospective value opinions presented in this report are estimates and forecasts which are prospective in nature and are subject to considerable risk and uncertainty. In addition to the contingencies noted in the preceding paragraph, several events may occur that could substantially alter the outcome of our estimates such as, but not limited to changes in the economy, interest rates, and capitalization rates, behavior of consumers, investors and lenders, fire and other physical destruction, changes in title or conveyances of easements and deed restrictions, etc. It is assumed that conditions reasonably foreseeable at the present time are consistent or similar with the future.
- 28. The appraisal is also subject to the following:

#### **Extraordinary Assumptions and Hypothetical Conditions**

The value conclusions are subject to the following extraordinary assumptions. An extraordinary assumption is an assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions.

1. Our valuation assumes no material changes to the provided inventory will occur

The value conclusions are based on the following hypothetical conditions. A hypothetical condition is a condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis.

1. None

The use of any extraordinary assumption or hypothetical condition may have affected the assignment results.

Because of changes in Florida Law, it is possible to have different assessed and taxable values on the same property. For example, the additional \$25,000 Homestead Exemption and the non-homestead CAP do not apply to public schools, and the Low Income Senior Exemption only applies to countywide and certain municipal millages.

Dear Ms. Hearne,

On Monday, March 6, 2022, I observed the above referenced project prompted by a request received from your office on Tuesday, February 28, 2023. The Developer for this project is Ashton Land Development, LLC, of Plant City, Florida. The General Contractor selected is Carson Consulting, LLC, of Winter Haven, Florida. No funding documents were submitted for the current site inspection. The purpose of my observation was to update the construction status.

Enclosed please find Progress Evaluation Report No. 9, detailing my findings at the project. Photographs depicting the conditions observed are included with the report.

No funding is recommended for the current site observation. Construction activities have not advanced since our last site observation on June 28, 202, and our report issued on August 1, 2022. For the eastern portion, the installation of potable water, storm drainage and sanitary sewer systems have been achieved. Fire hydrants have been installed. Base rock has been placed for the roadways, and concrete curbing has been installed. For the western portion, excavation of drainage pond is complete. Installation of sanitary sewer and storage drainage system is well advanced. Installation of irrigation mains is partially advanced. Further details pertaining to our site observations are discussed in the attached report.

Should you have any questions regarding the enclosed report, please do not hesitate to call our office. We thank you for allowing Varian Associates to be of service to you and Flagstar Bank during this construction project.

Sincerely Yours,

Alex MLAndrew Alex McAndrew, Associate
